## The Joys of Spring Have Returned

The arrival of spring has been greatly anticipated here at Forestfarm. Longer days, warmer air, fresh inspirations and hopeful new beginnings are on their way. Some treasured early signs of spring are already beginning to emerge, and at the sight of them we know many more are to shortly follow. Soon pollinators will be busy gliding from bloom to bloom, ensuring the cycle will continue again next year. And we will hear the lyrical chatter of birds returning from their seasonal getaways.

This approaching season has us celebrating the newness which lies ahead. Our seeds will soon be sprouting, and buds of new growth will be emerging towards the sun. We are eager with aspiration, ready for spring to fill us with newfound wonders, and the delightful joys of nature.

*"In my garden there is a large place for sentiment. My garden of flowers is also my garden of thoughts and dreams. The thoughts grow as freely as the flowers, and the dreams are as beautiful." – Abram L. Urban*

# A NOTE FROM FORESTFARM

Dear Friends,

This past year has been a fun one here at Forestfarm, full of opportunities to work with our local community. We have had the pleasure of beautifying our small Southern Oregon town with gardens at one of our local stores and new library. We donated plants to a local wildlife rehabilitation center, trees to a community building organization for Earth Day plantings, and a few of our smallest plants have been growing in what may be the current record holder for the world's smallest park. It has also been exciting to familiarize ourselves with our new website, and we hope our customers have been as pleased as we have been with the update.

Please note that our catalog is an abbreviation of what we actually grow at the nursery. We encourage you to explore our complete inventory of nearly 5,000 varieties on our website: [www.forestfarm.com](http://www.forestfarm.com). If you happen to live nearby or pass through the area, you can also visit our nursery. We are located on the vast, picturesque acreage of Pacifica: A Garden in the Siskiyou.

-All of us at Forestfarm

## Plants in this Catalog

Plants headings are arranged alphabetically by botanical name in the following sections: Trees, Shrubs, Tree/Shrub, Vines, Perennials, and Bamboo & Grass. The Fruit & Nut section is organized by common name.

The basic CULTURAL CONDITONS are noted (in abbreviated form) for each plant as follows:

S = sun, PSh = partial shade, Sh = shade, D = drier conditions, M = medium moisture, W = wetter conditions, GDr = good drainage required, Acid = pH below 7.

Though these suggestions must be taken with a grain of salt (conditions can vary greatly from area to area and year to year), we hope they will be general guidelines.

## Abies

### *abpr110* **Abies procera** (nobilis)

NOBLE FIR

Tube \$19.95 Size1 1-2' \$39

One of the tallest and noblest of firs, with short blue-green needles which point upwards along the short stiff branches; a very beautiful specimen and a good Christmas tree. S-PSh/M (EG)(z5)(WNA) (WNA,Bon)

## Acer

### *acci100* **Acer circinatum** Pacific Fire RED TWIG VINE MAPLE

Tube \$29.95 Size5 5-6' \$85

A RED-winter-barked vine maple! whose leaves are tinted a lovely rose over green. This upright selection of the NW native, is special and very handsome in all seasons. Sun-PSh/M (Dec)(z5)(WNA)

### *acfr543* **Acer freemanii** Autumn Blaze® FREEMAN MAPLE

Size1 2-3' \$49 Size5 5-6' \$85

The lovely, rich, blazing orange-red fall color of this upright, rounded-oval tree, to 50' x 40', lasts longer than many varieties. Each bright-green leaf is deeply cut into five lobed on this fast-growing hybrid of Silver and Red Maple parentage. This is a wonderful specimen for lawn or street use, easy-going with tolerance to drought and wet feet. S/D-M-W PP04864 (Dec)(z5) (ENAm)(ENA)

### *acfr044* **Acer freemanii** Autumn Fantasy® FREEMAN MAPLE

Tube \$29.95 Size1 1-2' \$49

This is a fabulous Red Maple and Silver Maple hybrid which delivers the finest qualities of both trees. The young foliage of this 40-50' tree emerges with a lovely pinkish tint that matures to emerald green. In autumn it puts on a colorful robe of exceptionally bright garnet red that persists until the first hard frost. Another excellent feature is its fast growth rate; drought tolerant and makes an outstanding street or lawn tree. S/M (Dec)(z4)

### *acfr084* **Acer freemanii** Marmo FREEMAN MAPLE

Size1 1-2' \$49 Size5 5-6' \$85

This outstanding upright tree has a beautiful rounded crown 55' x 45'w. A wonderful seedless hybrid between the Red Maple and the Silver Maple which was chosen for its superior growth rate, strong leader and perhaps most of all for its rich autumn color of spectacular reds, oranges and yellows. This hardy, easy-going cultivar is also resistant to frost cracking. S/D-M-W (Dec)(z4)(ENAm)(ENA)

### *acfr018* **Acer freemanii** Sienna Glen® FREEMAN MAPLE

Size1 1-2' \$49 Size5 5-6' \$85

This hardy hybrid discovered in Minnesota has the fast growth and adaptability of the Silver Maple plus the shining-beacon fall color of the Red Maple. This cultivar is more delicate in appearance with smaller leaves which are lush-green in summer before turning a fall mosaic of orange, red and burgundy. This is a beautifully reliable, tough and easy-care shade tree; 50' tall and 35' wide. S/D-M-W PP11322 (Dec)(z4)

### *acgr065* **Acer griseum** PAPERBARK MAPLE

Tube \$29.95 Size1 1-2' \$49 Size5 4-5' \$85

One of the most beautiful of all small trees; this very unusual 20-30 foot maple from Central China has true four-season interest. Remarkable tri-foliolate leaves emerge a beautiful copper color in spring before turning a soft green for summer, its spectacular scarlet fall color is unmatched and in winter this tree really shines with its cinnamon red-brown bark which peels in fine strips, especially beautiful with snow or frost on it. A wonderful specimen tree, plant it near a window so that you can admire its splendor. S-PSh/M (Dec)(z5) (China)(Bon)

### *acmi812* **Acer miyabei** ssp.miaotaiense MIAOTAI MAPLE

Size5 5-6' \$85

This attractive, upright, rounded maple is endemic to Chinese temperate mixed forests, where it is considered a vulnerable species, and it is rare in cultivation elsewhere. Some consider it to be its own species, which gives it the synonym Acer miaotaiense. Its green leaves typically have 3 lobes, though sometimes 5, which transition to bright yellow for autumn, and its gray-brown bark develops a cork-like, ridged texture with age. Spring flowers are yellow-green, and bloom as the leaves emerge. A rare species of maple for shade and beauty in the landscape or unique bonsai. S-PSh/M (Dec)(z4)(CHINA) (B&W,Bon)

### *acpa077* **Acer palmatum** Bloodgood BLOODGOOD JAPANESE MAPLE

Tube \$29.95 Size5 5-6' \$85

The lobed leaves of this handsome upright 15-20' grower are a wonderful deep-dark-red and unlike some, they keep their color throughout the season. In autumn the foliage turns a stunning crimson-red. This elegant tree is hardy, heat tolerant and very attractive as well; wonderful as a specimen or planted in groups. S-PSh/M (Dec)(z6) (Japan)(Bon)

### *acpa111* **Acer palmatum** Crazy Krinkle JAPANESE MAPLE

Size5 5-6' \$85

The small green leaves of this upright 6-12' tree are crinkled and curled in different directions... makes an eye-catcher for bonsai, patio container or border. S-PSh/M (Dec)(z6)(Bon)

### *acpa613* **Acer palmatum** Kurui jishi CRAZY LION JAPANESE MAPLE

Size1 1-2' \$49 Size5 5-6' \$85

This delightful small (slow-growing, 4-6') tree has 7-lobed star-like leaves, the edges of each lobe roll inward ending in a pointed tip; rich-green in summer, showy yellow in fall and great for bonsai or container. S-PSh/M (Dec)(z6)(Bon)

### *acpa617* **Acer palmatum** Orangeola JAPANESE MAPLE

Tube \$29.95

During the summer, the bright red new growth of this vigorous cut-leaf maple contrasts with its dark-green older leaves making it look like a Christmas tree! Its bright orange-red fall leaves last well after others are gone. S-PSh/M (Dec)(z6)(Bon)

### *acpa009* **Acer palmatum** Purple Ghost JAPANESE MAPLE

Tube \$29.95

A knock-out in summer with DEEP purple foliage veined in black (when grown in sun), this upright (20-30') maple steals the show again in fall when it turns orange-to-red. S-PSh/M (Dec)(z6)(Bon)

### *acru058* **Acer rubrum** Autumn Flame® RED MAPLE

Size1 1-2' \$49

A male (fruitless) selection featuring smaller leaves that the species develops its glorious bright scarlet fall color two weeks earlier than the species extending the wonderful autumn season; this fine rounded shade tree (to 50' x 50') tolerates pollution and poor drainage making it an excellent choice for street planting. S/M-damp PP 02377 (Dec)(z4)

### *acoc060* **Acer rubrum** October Glory® OCTOBER GLORY MAPLE

Size1 1-2' \$49 Size5 5-6' \$85

Brilliant orange to deep-red autumn color makes this gorgeous, rounded 40-50' tree one of the glories of any fall landscape! This cultivar is a female form bearing attractive red flowers in the spring before the foliage emerges. The flowers later turn to red tinted samaras (winged seed pods). This wide spreading tree with its glossy, lobed leaves is a glorious shade tree for summer too. S/M-W PP2116 (Dec)(z4)(ENAm) (ENAm)

**acru093 Acer rubrum Red Sunset®**

RED SUNSET RED MAPLE

Size1 1-2' \$49 Size5 5-6' \$85

A highly-rated and reliable red maple, this vigorous tree to 45' has a strong branching pattern and foliage which is lustrous green in summer and brilliant shades of red in fall. S/M-damp (Dec)(z4)

**acru037 Acer rubrum Sun Valley**

HARDY RED MAPLE

Size1 1-2' \$49 Size5 5-6' \$85

This is an excellent choice for home landscapes or parks! This very cold hardy small tree, to 20-35' tall is a male selection (no messy seeds to sweep up) with incredible, fluorescent red fall color and a neat, oval habit. This US National Arboretum selection is much recommended as a lawn or street tree; it tolerates wet soil and pollution. S/M-W (Dec)(z4)(ENAm)(Street)

**acsc079 Acer saccharum Flashfire™**

SUGAR MAPLE

Size5 5-6' \$85

A wonderful choice for warmer gardens, a magnificent tree that is well adapted to Southern heat and mildew, this 45' tall by 40' wide Caddo Mountain sugar maple is a strong grower with deep dark-green leaves that change to brilliant crimson-red fall color earlier in the season than others. S/M (Dec)(z4)(ENAm)(Ed,Hon)

**acsa100 Acer saccharum**

SUGAR MAPLE

Size1 2-3' \$49

The much-loved Sugar Maple is a large and splendid shade tree growing 50-80' tall, the lush green distinctly-

lobed leaves develop the rich golden-orange fall color that gives New England much of its legendary autumn color; not only a beautiful addition to the landscape but also the source of our treasured maple syrup! S/M (Dec)(z4)(ENAm)(ENa,Syrup)

**acsh094 Acer shirasawanum Garden**

Glory FULLMOON MAPLE

Size5 5-6' \$85

An upright columnar form (to 10' tall x 5' wide in 10 years) of this easy-growing, all-season-attractive small (20-30') tree: 9 to 11 lobed, paper thin leaves open yellow-green and turn orange in fall. S-PSh-Sh/M (Dec)(z6)

**acsi105 Acer sieboldianum**

SIEBOLD'S MAPLE

Size1 1-2' \$49

The finely-toothed, 9-lobed leaves of this shrub/tree give dependable and brilliant

scarlet to orange fall color; hardy, trouble free and beautiful; similar to *A. japonicum*. S-PSh/M (Dec)(z6)(Japan)(Bon)

**acta044 Acer tataricum Hot Wings®**

TATARIAN MAPLE

Size5 5-6' \$85

The best and brightest samaras of any maple we have seen; fiery-red masses of winged seed pods hang in large clusters in summer following small yellow-white flowers; green leaves turn dramatic colors in fall with orange-red leaves on the outside of the tree and yellow leaves on the inside, stronger branches than other tataricums and holds up well to weather on this fine 15't x 18'w tree. S/M-D (Dec)(z4)

## Aesculus

**aeht563 Aesculus hippocastanum**

Baumanii

DOUBLE-WHITE HORSECHESTNUT

Size1 1-2' \$49

A very impressive and handsome tree found in Geneva, Switzerland known for its large upright clusters of double white flowers which bloom later and over a longer period than

the species, this form is also fruitless, so no mess, a 40-80' rounded tree with a nice form for the landscape with its somewhat taller and narrower habit; a fine shade tree and accent. S-PSh/M (Dec)(z4)(Hon,Bfly)

## Albizia

**alju057 Albizia julibrissin E. H. Wilson**

HARDY SILK TREE

Tube \$19.95

Selected by E. H. Wilson in Korea, this variety of the Silk Tree has dense fluffy clusters of bright-pink flowers which bloom from July into September and its growth habit differs from the straight species in that it is wider spreading, branching out at ground level and staying wider than tall, its most notable difference is that it is reputed to be more cold hardy by 10 degrees, greatly extending its range; there is a wonderful specimen growing at the Arnold Arboretum in Massachusetts. S/M-D/GDr (Dec)(z6)(Fra,Bfly)

**alju060 Albizia julibrissin**

SILK TREE

Tube \$19.95 Size1 1-2' \$39

Commonly known as the Mimosa, this ornamental tree has graceful spreading branches and upon maturity becomes a lovely umbrella shaped specimen. Foliage

is handsome and lacy looking made up of deep-green, bipinnate compound leaves (which close when touched and night!). Distinctive, fragrant, pink powder-puff flower heads persist from late summer into fall and are attractive to bees. The species, julibrissin, is a corruption of the Persian word 'gul-i abrisham' meaning 'silk flower'. S/M-D/GDr (Dec)(z7)(Asia)(Bfly,Fra,Hon)

## Arbutus

**arma068 Arbutus Marina**

STRAWBERRY TREE

Size1 2-3' \$39

A superbly handsome 30-40' evergreen tree with lovely rosy pink urn-shaped flowers that contrast perfectly with the dark-green leathery leaves and in autumn become bright-red edible fruits; an adaptable tree with *Arbutus unedo*'s easy-going temperament which makes it a good sub for Madrone in climates where Madrones cannot thrive. S/M/GDr (EG)(z8)(Europe)(DR,Hon)

**arme095 Arbutus menziesii**

MADRONE

Tube \$19.95 Size1 6-12" \$39

Whether you know it as a madrone, madrona or madroño this western U.S. native is a delight! A magnificent and elegant large (30-100') tree which is celebrated for its satiny reddish-copper bark which peels off in curling strips to reveal its greenish inner bark and for its large glossy deep-green leaves. Spring brings masses of showy, fragrant, white bell-shaped flowers which become interesting red fruits much loved by the birds. The berries are edible and were used by the Native Americans for food, medicine and cider. S/D/GDr (EG)(z7)(WNA)(WNA,Hon,B&W)

## Betula

**bepo097 Betula Royal Frost®**

RED-LEAVED BIRCH

Size1 2-3' \$39

This hybrid combines the beautiful burgundy foliage of *Crimson Frost* with some of *Whitespire*'s birch borer resistance and adds bright yellow-to-orange-to-red fall color. S/M Patent: Evergreen Nursery (Dec)(z4)(DR)

**beni011 Betula nigra City Slicker®**

RIVER BIRCH

Size1 1-2' \$39

Delightful anytime of the year, this medium (30-40') tree has exceptional creamy-white exfoliating bark which develops at an early age and deep, dark-green foliage that turns a beautiful golden yellow in the fall; this may be the perfect tree for tough spots as it

is very vigorous and also drought tolerant. S/M-W 'Whit XXV' PP#16573 (Dec)(z4) (ENAm)(B&W,DR)

**beni112 *Betula nigra* Heritage®**

SELECT RIVER BIRCH

Size1 1-2' \$39 Size5 5-6' \$65

This exquisite form of river birch is an enthusiastic, fast-growing cultivar which quickly becomes a 40-60' tree. It can be grown as a single trunk or multi-trunked tree, its most notable feature is its pinky-cream to dark-tan bark which peels in strips to reveal a beige-white inner bark. This tree is beautiful as a specimen or as part of a streamside or pond planting. The foliage of this tree is also larger and shinier than the species. It was discovered in St. Louis, Missouri by Earl Cully. We have it listed as under its plant patent name of 'Heritage', though it appears that the correct cultivar should be 'Cully'. S/M-W PP4409 (Dec)(z3)(ENAM)(ENA)

**bepa089 *Betula papyrifera* Prairie**

Dream® SELECT PAPER BIRCH

Tube \$19.95 Size1 1-2' \$39

This North Dakota selection will be enjoyed center stage or woodland edge for its exceptional stress tolerance, birch borer resistance, snowy white exfoliating bark, and great yellow fall color; a shapely oval tree to 40-60' tall and 35' wide; a better choice for urban gardens with is slightly better tolerance of pollution. S/M 'Varen' PP 15768 (Dec)(z3)(ENAm)(ENA,DR)

**bepa120 *Betula papyrifera***

PAPER BIRCH

Size1 2-3' \$29 Size5 5-6' \$55

This is the tree of the famous peeling white "canoe" bark, the stunning bark develops dramatic black markings on mature specimens; this U.S. and Canada native is one of the best birches with its strong pyramidal 50-70' habit, handsome foliage and bright-yellow fall color; it's a useful edible too: the inner bark can be eaten as a 'famine food' and the sap can be drunk, made into birch beer or boiled down for syrup. S/M (Dec) (z2)(ENAm)(ENA,Bfly,Canoe)

**bepa089 *Betula pendula* Laciniata**

CUTLEAF WEEPING BIRCH

Size5 5-6' \$85

The elegant, gracefully weeping tree pairs attractive dark-green and daintily cut leaf foliage on pendulous branches with glorious exfoliating white bark. Leaves turn

glorious bright lemon-yellow in the fall. This 30-40' tree is greatly recommended as a lawn tree or specimen; makes an excellent focal point in any landscape, particularly where extra moisture is present. S/M-W (Dec)(z3)

**beja095 *Betula utilis* jacquemontii**

HIMALAYAN WHITE BIRCH

Tube \$19.95 Size1 1-2' \$39 Size5 5-6' \$65

One of the loveliest of the birches, notable for its dazzling white and attractively peeling bark, though birch bark can vary greatly, this is generally regarded to have the whitest bark of all. This 30-40' tree from Nepal is similar to *Betula utilis*, but has fewer vein pairs per leaf; beautiful light-green leaves turn a gorgeous gold in the fall; a wonderful tree for garden or ponds edge. S/M-W (Dec)(z5)(Himalayas)(Bfly)

## Broussonetia

**brpa100 *Broussonetia papyrifera***

PAPER MULBERRY

Tube \$15.95 Size1 1-2' \$29 Size5 5-6' \$55

"Where a soil is poor, sterile, or gravelly..., the paper mulberry is just the thing" (Barber & Phillips) A small tree to 45' of neat habit with lobed leaves and small red fruits on female trees; bark used for paper and tapa-cloth. (Dec)(z6)(ASIA)

## Calocedrus

**cade120 *Calocedrus decurrens***

INCENSE CEDAR

Tube \$15.95 Size1 1-2' \$29 Size5 5-6' \$55

Known as the incense cedar for the sublime spicy fragrance of the bright-green fern like sprays of this majestic pyramidal tree, with age its bark becomes reddish and deeply-furrowed and exfoliates in long strips, in cultivation this tree reaches 30-50', but in the wild it can reach over 150' and live over 1,000 years; this Western United States native (Oregon to Baja) is extremely drought-tolerant making it a fine choice for Xeriscape and California native gardening and yet it surprisingly adaptable to the heat and humidity of the east coast. S/M-D (EG) (z5)(WNA)(WNa,Fra,Bon)

## Carpinus

**cask012 *Carpinus* Skylark™**

COLUMNAR HORNBEAM

Size5 5-6' \$85

Deep-green serrated foliage grows densely on this relatively narrow, upright, and compact, columnar. Its shape is held well through maturity, and with age, the bark takes on a highly attractive fluting style. S/M (Dec)(z5)(B&W)

**cabe239 *Carpinus betulus* Fastigiata**  
COLUMNAR EUROPEAN HORNBEAM  
Size5 5-6' \$85

A superlative ornamental (Arnoldia), the dense, close-knit branch structure of this 30-40' x 20-30' upright, oval-to-fan shaped tree make it an effective and handsome screen and a highly-rated shade or street tree. S/M (Dec)(z5)(Europe)(Bfly)

**cabe235 *Carpinus betulus***

EUROPEAN HORNBEAM

Tube \$15.95

This lovely tree produces extremely strong wood which was once used by the Romans to build chariots and now used in chopping blocks. Dark green ovate sharply-toothed leaves turn yellow-orange in autumn before holding its rich fawn-brown leaves all winter. This 40-60' tree makes an excellent shade tree or hedge. S-Psh/M (Dec)(z5) (Europe)(Bon,Wood)

**caca247 *Carpinus caroliniana* Fire Belle**  
AMERICAN HORNBEAM

Size5 5-6' \$85

This beautiful eastern North American native selection was chosen for its reliable bright red fall color, unique to the species. Its well-rounded canopy is filled with toothed foliage and green, hop-like spring flowers, which produce fruits favored by wildlife. Partial shade is tolerated, but the best fall color comes with full sun. S-PSh/M (Dec)(z5)(ENAM)(B&W,ENAM)

**caca101 *Carpinus caroliniana***

Wisconsin Red™ HORNBEAM

Size5 5-6' \$85

Selected by Michael Yanny in Wisconsin, who has been working for over 35 years with native *Carpinus* and has developed this strain will fall colors of reds, oranges and yellows so brilliant, this tree could easily be mistaken for a different species. S-Sh/M (Dec)(z4)(B&W)

**caca240 *Carpinus caroliniana***

AMERICAN HORNBEAM

Tube \$15.95 Size1 1-2' \$29

The 'blue beech' (as it's otherwise called) "forms a beautiful small tree with grey fluted bark" (Hillier), interesting pendulous fruit clusters and excellent orange to red color in fall. S-Psh/M (Dec)(z3)(ENAM) (ENA,Bon,B&W)

**caja245 *Carpinus japonica***

JAPANESE HORNBEAM

Size1 1-2' \$29

Elegant! This very attractive understory tree from Japan eventually reaches 20-30' tall and is just as wide-spreading. Its outstanding feature is its dark-green, long, very prominently grooved leaves. Wonderful hop-like papery catkins appear

abundantly in spring. A perfect choice for the woodland garden as it is able to tolerate full shade. S-PSh/M (Dec)(z5)(Japan)(Bon)

## Cedrus

*cede059* **Cedrus deodara** Raywood's

Contorted DEODAR CEDAR

Tube \$29.95 Size1 1-2' \$49

Twisted and contorted blue-green foliage (distinctive to say the least!) makes this new Australian discovery unique and very special; slowly becomes a small (to 30') pyramidal tree, perfect for accent. S/M/GDr (EG)(z7)(Bon)

*cede103* **Cedrus deodara**

DEODAR CEDAR

Tube \$19.95 Size1 1-2' \$39

This noble giant coming from the Himalaya reaches an impressive 110-160' in the wild and a more demure 40-50' in cultivation, it is probably the best of the big conifers to plant in the warmer localities; dark gray-green needles grace this pyramidal and wide-spreading tree while the branch tips droop in a manner that gives the whole tree a graceful aspect; there is a long history of its wood being used to build temples. S/M (EG)(z7)(Himalaya)(Bon)

## Celtis

*ceoc158* **Celtis occidentalis**

COMMON HACKBERRY

Size1 1-2' \$29

Small fruits turn from orange-red to deep-purple and are "sweet and edible raw" (Coon); med-large tree with shiny, toothed leaves and pebbled bark. S/M (Dec)(z4) (ENAm)(ENa,B&W,Bon)

## Cercidiphyllum

*ceja200* **Cercidiphyllum japonicum**

Claim Jumper GOLDEN KATSURA

Tube \$29.95 Size5 5-6' \$85

This is a wonderful golden-leaf form of the Japanese Katsura tree, fast growing (to 24'); fragrant foliage emerges chartreuse gold with a pink flush before turning a bright-yellow in summer, autumn brings its characteristic burnt-sugar scent along with its pretty butter yellow fall color. S-PSh/M (Dec)(z4)(Japan)(Fra,Bon)

*ceja252* **Cercidiphyllum japonicum**

Pendulum WEEPING KATSURA

Tube \$29.95 Size5 4-5' \$85

Although in culture for over 300 years at a Buddhist temple in Japan, this lovely tree is still somewhat rare; its arching pendulous branches resemble those of a weeping willow. S/M (Dec)(z5)(Japan)(Bon,Fra Lvs)

*ceja250* **Cercidiphyllum japonicum**

KATSURA TREE

Tube \$19.95 Size1 2-3' \$39

The wonderful 'secret' of this medium to large wide-spreading shade tree is that it emits the most delightful fragrance of caramel, the scent comes from the heart-shaped leaves, reddish-pink in spring, green in summer and yellow-orange in fall; truly a magical tree. S/M (Dec)(z5)(Japan)(Fra)

## Cercis

*ceca093* **Cercis canadensis** Pink Pom

Poms DOUBLE-FLOWERING REDBUD

Size5 5-6' \$95

This gorgeous 20' tree has some of the most incredible redbud flowers ever! This delightful hybrid has blossoms that are much larger, extraordinary and showier than others. Double, dark-magenta-pink flowers bloom in spring putting on a massive flower display. As these flowers are completely sterile, the blooms are not followed by seedpods. Lush, bright-green, glossy, heart-shaped leaves appear after the blooms and are pretty all summer before turning pale yellow in fall. This glorious redbud is an introduction from Dr. Dennis Werner of NCSU and Alex Neubauer of Hidden Hollow Nursery. S/M PPAF (Dec)(z6)(ENAm)(Bfly,Hon,N-fixer)

## Chamaecyparis

*chla028* **Chamaecyparis lawsoniana**

SOD Resistant PORT ORFORD CEDAR

Tube \$19.95 Size1 1-2' \$39

The same lovely lacy blue foliage but much-sought selection is disease-resistant, especially to Sudden Oak Death... if you have this in your area, this may be the tree for you (for hedge or landscape). S-PSh/M/GDr (EG)(z5)(WNA m)(WNA)

## Chionanthus

*chvi215* **Chionanthus virginicus**

AMERICAN FRINGETREE

Size1 1-2' \$29

The profuse lacy mist of creamy-white, fragrant, mop-like flowers on this small tree (15-20') is exquisite in spring, its lovely medium-green foliage becomes bright yellow in autumn; native to the eastern United States, there is no other flowering tree quite like our wonderfully unique fringe

tree; olive-like black fruits on female plants while male plants have showier flowers, ours are unsexed seedlings. S-PSh/M (Dec)(z5)(ENAm)(ENa,B&W,Fra)

## Cladrastis

*clu030* **Cladrastis lutea** (kentuckea)

AMERICAN YELLOWWOOD

Tube \$15.95 Size1 1-2' \$29

Excellent medium sized tree (30-50') known for its wonderful wisteria-like pendulous clusters of intensely-fragrant bright-white flowers in early summer. Pin-nate compound leaves emerge pale-green in spring and deepen to dark-green before turning to their fine yellow fall color. This Southeast United States native gets its name from the distinct yellow dye that colors its heartwood. S/M (Dec)(z4)(ENAm)(ENa,Hon,Fra)

## Cornus

*coed088* **Cornus** Eddie's White Wonder

HYBRID WHITE DOGWOOD

Tube \$29.95 Size5 5-6' \$85

This exciting hybrid between eastern and western flowering dogwoods creates a magnificent, upright 25-40' tree. Spring brings masses of large (up to 6"! ) and much-loved pure-white flowers, some with 4 petals and some with 5. An exquisite specimen tree which turns brilliant scarlet in autumn. Very disease resistant and will tolerate some drought when established. S-PSh/M (Dec)(z6)(WNA m)(WNA m,Bfly)

*coru522* **Cornus** Stellar Pink

PINK FLOWERED DOGWOOD

Tube \$29.95 Size5 5-6' \$85

Large, 3-5 inch 'flower' heads (truly bracts) of a glowing soft-pink make this vigorous dogwood hybrid from Rutgers University a lovely sight in spring, a wonderful specimen tree with its neat habit growing 15-20' tall and as wide, bred for its resistance to anthracnose and dogwood borer making it a great choice for areas with those issues. S-PSh/M PP7207 (Dec)(z5)

*cove062* **Cornus** Venus®

HYBRID DOGWOOD

Size5 5-6' \$85

This gorgeous cultivar is remarkable for its vigorous habit, extra-large brilliant-white flowers which bloom extra-profusely and its disease resistance! The gorgeous white-blossoms in late-spring become large, showy, bright-red edible fruits in autumn. A wonderful landscape specimen, this

pretty little 15-20' tree has an appealing, dense, spreading habit. It was developed by Elwin R. Orton, Jr and released by Rutgers University S-PSh/M PP16309 (Dec)(z5)

**coko019 Cornus capitata Mountain Moon** EVERGREEN DOGWOOD  
Size5 5-6' \$85

Loads and loads of beautiful creamy-white flowers (each one up to four inches across!) cover this small (to 30') somewhat pyramidal evergreen tree in late-spring; lush green leaves provide the perfect backdrop, performs best in well-drained but evenly moist non-alkaline soil. S-PSh/M (EG)(z8) (Asia)

**coro100 Cornus kousa x nutallii Rosy Teacups®**  
PINK FLOWERING DOGWOOD  
Size5 4-5' \$85

Dark pink-rose flowers up to 3 inches wide cover this very floriferous 20-25' tree in spring. Stunning as a specimen with its dense habit growing slightly wider than it is tall. This lovely tree is adorned in late summer with large red-orange fruits and bright red leaves in autumn. Blooming at a young age, disease resistant and no winter die back; this is a near perfect tree! S-PSh-M (Dec)(z6)(B&W,Ed)

**coko003 Cornus kousa Autumn Rose**  
FALL ROSE CHINESE DOGWOOD  
Tube \$29.95 Size5 4-6' \$85

Wonderfully adorned with masses of soft white flowers in early summer; pale-green in spring, the summer foliage of this fine specimen is brushed with a light white-wash giving it an ethereal glow. This lovely multi-season beauty is pretty dressed in its pink to rosy-red fall finery. This lovely 15-25' tree makes a wonderful specimen; it was developed by Gary Handy. S-PSh/M (Dec)(z5)(B&W)

**coko745 Cornus kousa Blue Ray**  
DOGWOOD  
Size5 5-6' \$85

The shiny and uniquely blue-green foliage on this 15-25' vase-shaped kousa dogwood lies flat, allowing its abundant creamy-white, late spring blooms to really stand out. Fall brings out striking shades of red. A gorgeous focal point in all seasons. S-PSh/M (Dec)(z5)(B&W,Bfly,Cut)

**coko055 Cornus kousa Blue Shadow**  
CHINESE FLOWERING DOGWOOD  
Tube \$29.95 Size5 5-6' \$85

The striking, large, deep blue-green glossy leaves of this small 15-25' tree are distinct and notable especially when its white June flowers are contrasted against them, fall brings lovely red fruit and an intense

display of bright-red autumn color; an all-around winner and disease resistant as well. S-PSh/M/GDr (Dec)(z5)(B&W)

**coko104 Cornus kousa Greensleeves**  
DOGWOOD

Tube \$29.95 Size1 1-2' \$49 Size5 4-6' \$85  
Four creamy-white perpendicular "petals" (really bracts) form a bright and prolific show of late spring flowers on this small (20x20') woodland beauty; dark-green leaves are unusually shiny and turn a showy bright red in the fall color, produces salmon-red fruit that birds love. S-PSh/M (Dec)(z5)(B&W)

**coko599 Cornus kousa Satomi**  
PINK CHINESE DOGWOOD  
Size5 5-6' \$85

'Satomi' (aka 'Rosa-bella') is upright and spreading with attractive horizontal branching at maturity, and tan-grey, mottled, exfoliating bark add to its winter charm. This tree may occasionally reach 20ft, though it is typically 12-15ft. Flower bracts vary in intensity from light pink to deep-rose, depending on an assortment of factors such as, geography and landscape placement. Its deep green leaves turn dramatic shades of purplish-red in the fall. The red fall fruits are highly attractive, though not very tasty, unless you happen to be a bird. S-PSh/M (Dec)(z5)(B&W,Bfly,Cut)

**coko236 Cornus kousa Scarlet Fire®**  
PINK-FLOWERING DOGWOOD  
Size5 5-6' \$85

After a couple years of being established, the abundance of 4-5 inch lighter pink flowers will emerge as a dark-pink to fuchsia, unique from other dogwoods. Summer blooms can last for up to 8 weeks! Very showy, low maintenance, drought tolerant, and disease resistant. Fruits are red, 1 inch and round. The leaves are an attractive dark green, transitioning to red in the fall. A truly stunning tree. PP 28311 (Dec)(z5)

**coko026 Cornus kousa Snowy Peak**  
FLOWERING DOGWOOD  
Tube \$29.95 Size5 4-6' \$85

Beautiful bright-white blooms in spring on this diminutive 15 x15' dogwood make it a natural choice for smaller landscapes. Scarlet fall foliage adds a nice spot of color to the late-season garden. Disease resistant and hardy, this is a wonderful introduction from Dancing Oaks Nursery! S-PSh/M (Dec)(z5)(B&W)

**coko034 Cornus kousa Summer Fun**  
VARIEGATED CHINESE DOGWOOD  
Size5 5-6' \$85

Multi-tasking!: this special dogwood provides large white spring flowers PLUS leaves edged with pink in spring/white in summer PLUS showy fall colors: a centerpiece and small shade tree all rolled into one. S-PSh/M (Dec)(z5)(B&W)

**coko037 Cornus kousa Summer Gold**  
GOLD VARIEGATED CHINESE DOGWOOD  
Size5 5-6' \$85

The foliage on this delightful small tree has wide margins of deep buttery-gold. Its habit is full with a somewhat columnar form reaching to 8' tall x 4' wide. The much-loved pure white spring flowers make this a unique and showy specimen for woodlands edge or focal point. S-PSh/M (Dec)(z5) (B&W)

**coko100 Cornus kousa Wolf Eyes**  
VARIEGATED CHINESE DOGWOOD  
Size5 4-5' \$85

Striking in every respect, a four season beauty! Gorgeous grey-green leaves are surrounded by a showy, scorch-free, ivory margin. There is an abundance of starry white early summer flowers which look especially beautiful with the variegated foliage of this slow-growing 20 x20' tree. Blossoms are followed by bright-red edible fruits which are loved by birds. Autumn find this tree aglow with pink and red color and when the leaves drop the exquisite exfoliating bark (on older specimens) is revealed. Truly a treasure! S-PSh/M (Dec) (z5)(B&W,Ed)

**conu063 Cornus nuttallii Barrick**  
REBLOOMING WESTERN DOGWOOD  
Tube \$29.95

If you love seeing the Pacific Dogwoods in full bloom, then you will love this wonderful tree twice as much because it generally repeats its flower show again in the autumn, a very nice contrast to its brilliant fall color, showy red fruits add interest as well; a vigorous and beautiful selection of a favorite native tree. S-PSh/M (Dec)(z6) (WNA)(WNa)

## Corylus

**cofa074 Corylus fargesii**  
FARGES FILBERT

Size1 1-2' \$49

An exquisite find from the mountains of China, this graceful 35-45' tree has a beautiful pyramidal form that manages to look both sturdy yet delicate at the same time, its crowning glory however is its gorgeous cinnamon to cream peeling bark that truly rivals that of the river birch, its fine-

toothed green summer leaves turn a rich yellow in fall; native to open woodlands with rocky soil this tree is very adaptable to most garden sites and has relatively fast growth. S/M-GDr (Dec)(z6)(China)(B&W)

## Crataegus

### *crox040 Crataegus laevigata*

#### Paul's Scarlet

ROSE-FLOWERED HAWTHORN

Size5 5-6' \$85

A sight to see in spring when it is ablaze with gorgeous double deep-rose-colored flowers, this 15-20' thorny tree has glossy-green, rounded 3-5 lobed leaves which turn gold in the fall. In autumn, bright red-berries appear that persist into winter giving it great multi-season interest. This is a most beautiful and undemanding tree that makes a wonderful specimen. S/M (Dec)(z4)(Bfly,Hon,DR)

### *crph045 Crataegus phaenopyrum*

WASHINGTON HAWTHORN

Size1 1-2' \$39 Size5 5-6' \$65

One of our best native hawthorns, of interest in all seasons with profuse white flowers, brilliant orange-red fall color, long-lasting red fruits. Sun/Med-Dry (Dec)(z5) (ENAM)

### *crvi050 Crataegus viridis* Winter King

HAWTHORN

Size5 5-6' \$85

The silver-colored bark and glossy-green leaves on this 30' tree are pretty enough already, but then add clusters of pure-white flowers followed by abundant annual crops of persistent orange-red fruits that are showy all winter and you have a real Winter King! More to love is that this is a nearly thornless cultivar that has superior fall color, turning glorious shades of purple and red! Its tolerance of pollution also makes it a great tree for urban gardens. S/M (Dec)(z4)(B&W,Hon,Bfly)

## Cupressus

### *cuar097 Cupressus arizonica* Blue Ice

BLUE ARIZONA CYPRESS

Tube \$29.95 Size1 1-2' \$49 Size5 5-6' \$85

Well named for the stunning, steely-silver-blue color of this Arizona Cypress. The glowing foliage stands out in any landscape and contrasts well with the reddish-brown bark. Creating a 15-30' somewhat pyramidal tree to only 8-12' wide. This conifer makes a wonderful specimen or an amazing screen as it is tolerant of strong winds, heat and drought. S/M-D/GDr (EG)(z5) (WNA)(WNA,Am,Bon)

### *cuar052 Cupressus arizonica* Sulphurea

YELLOW ARIZONA CYPRESS

Tube \$29.95

This handsome and strikingly colored conifer has an upright columnar growth habit to 12-15' tall by only 6-8' wide. Foliage matures into a beautiful soft shade of creamy-gold. Perfect for use as a specimen for tight spaces or where a bright focal point is desired; it also makes for a striking hedge. This is a beautiful tree when left in its natural form and also adapts well to pruning where a formal appearance is desired. S/M (EG)(z7)(DR)

### *cuma120 Cupressus macrocarpa*

MONTEREY CYPRESS

Tube \$15.95 Size1 2-3' \$29

From the misty sea bluffs of the Monterey CA coast comes this beautiful 25-40' tree with dense bright-green and strongly lemon-scented foliage. Although narrow and pyramidal in form when young, it becomes spreading and picturesque with age, especially so where the winds shape it. S/M-D/GDr (EG)(z7)(WNA)(WNA,Am,Bon)

### *cuse019 Cupressus sempervirens* Glauca

BLUE ITALIAN CYPRESS

Tube \$15.95 Size1 1-2' \$29

This lovely blue form of the Italian Cypress makes an attractive narrowly-columnar tree reaching 40-60' in height but just 5-8' in width. The scale-like leaves are a deeper, bluish color rather than green and this cultivar is nearly fruitless. These classic trees have been used in landscapes since the Renaissance and are perfect as specimen, accent or hedge. With their columnar habit they can fit in just about any landscape. S/M (EG)(z7)(Europe)(Columnar)

## Eriobotrya

### *erde128 Eriobotrya deflexa*

BRONZE LOQUAT

Tube \$15.95

An excellent hedge, espalier, or small tree (where hardy) whose bright copper-colored new growth turns glossy; garlands of fragrant creamy flowers are attractive in spring. S-PSh/M (EG)(z8)(China) (Fra,Hon)

## Fagus

### *fasy036 Fagus sylvatica* Dawyck Gold

BEECH

Size5 5-6' \$85

For an "!" accent, filling a tight spot, or creating a compact formal border, the columnar Dawyck Beeches make a wonderful choice—this one welcomes spring in a dress of gold changing to lime-green for the summer. S/M (Dec)(z5)

### *fasy037 Fagus sylvatica* Dawyck Purple

COLUMNAR PURPLE BEECH

Size5 5-6' \$85

A narrowly columnar tree with deep-purple foliage that holds its color all season! This specimen can reach 40' to 50' and only 10' wide which makes it perfect for tight spaces, as an unusual hedge or as a special specimen. The purple leaves turn a lovely bronzy-purple in fall. S/M-GDr (Dec)(z5) (Columnar)

### *fasy044 Fagus sylvatica* Purple Fountain

PURPLE WEEPING BEECH

Tube \$29.95 Size5 3-4' \$85

Handsome and striking in narrow spots, this tree produces a fountain of purple leaves on weeping branches while retaining its compact upright form. S/M (Dec)(z5)

### *fasy049 Fagus sylvatica*

Purplea Tricolor

ROSE-MAGRET VARIEGATED BEECH

Tube \$29.95 Size5 5-6' \$85

This especially attractive cultivar of the regal Beech has leaves which begin the season a deep purple, irregularly edged with bright rosy-pink. They become green, edged with light pink and cream in hot weather. S-M (Dec)(z5)

### *fasy045 Fagus sylvatica* Rohani

PURPLE ROHAN BEECH

Size5 5-6' \$85

"A remarkably beautiful tree" (Hillier) whose purple leaves are irregularly and shallowly lobed, like an oak; slow growing. S/M (Dec)(z5)

### *fasy033 Fagus sylvatica*

EUROPEAN BEECH

Tube \$19.95 Size1 1-2' \$39

The European Beech and its varieties should be at the top of everyone's list of desirable large shade trees. This dense, upright oval or wide spreading tree typically reaches 50-60' (uncommonly up to 100'). Glossy dark-green leaves up to 4" long have prominent veins. Inconspicuous yellow-green flowers become edible beechnuts in the autumn. The foliage becomes a rich golden-copper in autumn. S-PSh/M (Dec)(z5)(Europe)(B&W,Ed)

## Firmiana

### *fisi030 Firmiana simplex*

CHINESE PARASOL TREE

Tube \$19.95 Size1 2-3' \$39

This is truly a tree that has to be seen to be believed! This 30-50' tree has huge (up to one foot across!)lobed leaves which are bright-green above a slightly fuzzy below. Summer brings lighty-scented, showy, chartreuse blooms which hang in clusters 12 inches long. Flowers become interesting

leathery pods which split open in autumn to expose showy seeds. It is also called varnish tree for the varnish-like liquid that is released when the pods open. It is often used in as the wood for Chinese musical instruments. In stories, it is also the perching spot of the legendary phoenix bird. It can be invasive in tropical locations. S/M (Dec)(z7)(China)(Instruments)

## Ginkgo

***gibi032 Ginkgo biloba* Autumn Gold**  
SELECT MALE GINKGO  
Tube \$29.95

A fine male selection of this ancient tree that becomes a wonderful, wide spreading, symmetrical specimen reaching 40-50' with the gorgeous two-lobed leaves that Ginkgo's are famous for! They are also famous for their glorious golden color in autumn which lasts for several weeks before dropping (and for the beautiful yellow carpet they create when they do fall!). Male trees are generally preferred as they do not develop the unpleasant smelling fruit. S/M (Dec)(z4)(Med,Bon)

***gibi011 Ginkgo biloba* Goldspire™**  
COLUMNAR MALE GINKGO  
Size1 1-2' \$49

This fabulous Ginkgo features a compressed and narrowly pyramidal form which is wonderfully compact, reaching 14-16' tall by just 5-6' wide. The bright-green fan-shaped foliage in fresh looking all summer before giving way to brilliant golden-yellow in autumn. This is a male non-fruiting variety. An exceptional cultivar that would be perfect for large container, accent or small garden. S/M (Dec)(z5)(DR,Med,Cont)

***gibi064 Ginkgo biloba* Princeton Sentry®**  
MALE GINKGO  
Tube \$29.95 Size5 5-6' \$85

This upright, columnar form of Ginkgo eventually reaches 40-50' and looks stunning planted along a drive or fence, beautiful soft green two-lobed leaves are a sight to see, especially in autumn when the leaves turn a bright gold and then fall to cover the ground below; a disease and pest free male form from Princeton Nursery. S-M (Dec)(z4)(China)(Med,Bon)

***gibi030 Ginkgo biloba***  
MAIDENHAIR TREE/GINKGO

Tube \$19.95 Size1 1-2' \$39  
Actually a deciduous conifer; this picturesque, wide-spreading (80' tall by 40' wide) tree has interesting two-lobed fan-shaped leaves with butter-yellow fall color; most cultivars are male to avoid the foul smelling (but tasty!) fruits, these are unsexed seedlings. S/M (Dec)(z4)(ECHINA)(Med)

## Gleditsia

***gltr087 Gleditsia triacanthos***  
Shademaster®  
THORNLESS HONEYLOCUST  
Size5 5-6' \$85

This gracefully vase-shaped, North American native selection makes a great street tree as it is extremely tolerant of urban conditions, fast growing, and seedless. Its feathery, delicate leaves are a medium green until fall, when they turn an extraordinary golden yellow. An extremely easy-going and fast growing choice for shade as well. S/M (Dec)(z3)(NAM)(B&W,E native)

***gltr089 Gleditsia triacanthos* Skyline®**  
THORNLESS HONEYLOCUST  
Size5 5-6' \$85

This thornless and nearly seedless, upright, pyramidal honeylocust performs beautifully as a clean street tree, near parking areas, homes and parks. Its delicate, feathery foliage creates a dappled shade that will not kill lawns, and wears a bold yellow in the fall. S/M PP1619 (Dec)(z3)(B&W)

## Gordlinia

***gogr085 Gordlinia grandiflora***  
HYBRID FRANKLIN TREE  
Size5 5-6' \$85

Wonderful, large (2-4 inch), lightly-fragrant, white flowers are somewhat Camelia like and sometimes described as looking like a fried-egg with their lovely large golden centers, the flowers adorn the tree from late-summer into autumn where they look especially fetching along with showy bright-red fall color; a very special semi-evergreen 15-25' tree which is a rare intergeneric hybrid between two fine native trees (Franklinia and Gordolinia); can be a tad touchy, performs best in a sheltered spot with reasonably good soil. S/M-GDr (SEG)(z7)(ENAm)(Fra)

## Gymnocladus

***gydi030 Gymnocladus dioicus***  
KENTUCKY COFFEETREE  
Size1 1-2' \$29

One of the most handsome of our native trees, the Kentucky coffeetree is a tall 60-80'

deciduous tree with handsome, rough, scaly gray-brown bark and large 3' compound leaves which are divided into 3-7 pairs of 1-3" blue-green leaflets, greenish-white spring flower clusters (fragrant on female trees)

become (on female trees) flattened reddish brown pods up to 10" long, Native Americans and early American settlers roasted and ground the seeds to brew a coffee-like beverage, giving it its common name, the picturesque branches of this open oval tree are lovely in winter after its yellow autumn leaves drop; seeds are very toxic prior to roasting and should never be eaten fresh off the tree; ours are unsexed seedlings. S/M (Dec)(z4)(ENAm)(ENa,Fra,Coffee)

## Heptacodium

***hemi333 Heptacodium miconioides***  
Temple of Bloom® SEVEN SON FLOWER  
Tube \$19.95

This tree may be small in size, but not in impact. Spring leaves emerge green and deeply veined, twisting at the tips as they mature. Profuse clusters of fragrant white flowers bloom for weeks in the summer, attracting pollinators of all kinds. Once the flowers fall, there appears to be a second bloom as the brilliant red, fan-like bracts are revealed. When the leaves have dropped for winter, the tree's elegant form, and toasty-brown, peeling bark is exposed. A truly beautiful specimen all year long! PP30763 (Dec)(z5)

## Ilex

***ilop035 Ilex opaca* Arthur Pride**  
MALE AMERICAN HOLLY  
Size1 1-2' \$49

This elegant male selection was introduced by Orlando Pride in 1961. It is one of the many hardy cultivars of the famous 'Grace Hybrid Group'. The glossy dark-green foliage features spines on the tips of the margins and this cultivar is allegedly resistant to leaf spot. This beautiful 30-35' specimen is reliable as a pollinator for any female form. S-Psh/M (EG)(z5)(Hon,Pollinator)

***ilop121 Ilex opaca* Chief Paduke**  
FEMALE AMERICAN HOLLY  
Size1 1-2' \$49

A female American holly, which was discovered in 1963 by nurseryman J. Bon Hartline in Paducah County Kentucky. It is a dense, upright, rather slower growing, and

more columnar than conical (15-30ft tall x 8-20ft wide) tree. Berries are red-orange and somewhat elongated, as opposed to spherical, and a male must be available for pollination. A lovely, low maintenance, adaptable tree tolerant of various conditions, including urban environments. S-PSh/M (EG)(z5)(ENAM)(B&W,ENa,Hon)

**ilop125 Ilex opaca Martha's Vineyard**  
FEMALE AMERICAN HOLLY

Size1 1-2' \$49

Polly Hill describes this holly very well in her decades long study "A Diversity of Hollies", "To obtain garden-worthy subjects, I brought any F1 or F2 seedlings that had self-sowed in my Delaware garden

to the Barnard's Inn Farm nursery for trial. The first selection made in 1960, was named 'Martha's Vineyard'. It has a formal growth habit, making a tight cone, is as glossy as a member of the species can be glossy, and has very large, bright red fruit. It is hardy and fast growing with a strong central leader. Good reports of the clone's hardiness have reached me from farther north and farther inland." S/M (EG)(z5)(ENAM)(B&W,ENa,Fra)

**ilop023 Ilex opaca Mary Holman**  
FEMALE AMERICAN HOLLY

Tube \$29.95 Size1 1-2' \$49

This lovely female is smaller than most other cultivars, reaching just 15-20' tall and becoming broadly conical. The foliage is a wonderfully distinct glossy dark-green, just perfect for winter decorating. Tiny, creamy-white flower clusters appear in the leaf axils in spring. Those little blossoms become deep, orange-red berries in late summer which persist well into winter. This cultivar is esteemed not only for its beautiful foliage; it also has superior winter hardiness. 'Mary Holman' requires a male pollinator to ensure fruiting. S-PSh/M (EG)(z5)(B&W)

**ilop112 Ilex opaca Merry Christmas**  
FEMALE AMERICAN HOLLY

Size1 1-2' \$49

'Merry Christmas' brings on the cheer with profusions of bright red, ellipsoidal berries (when there is a male pollinator nearby) appreciated by birds, and used for holiday decorating. Its dense branching and dark green, medium-sized foliage with short-med. spines naturally forms a highly attractive conical tree 30-40ft tall and 15-20ft wide. S-Psh/M (EG)(z5)(ENAM)(B&W,Hon,E native)

**ilop105 Ilex opaca Miss Courtney**

FEMALE AMERICAN HOLLY

Size1 1-2' \$49

A vigorous female selection from Pennsylvania with lovely curled leaves, which produces enough berries to cause its branches to arch elegantly. S-Psh/M (EG)(z5)(ENAM)(B&W, E native)

**ilop101 Ilex opaca Miss Helen**

FEMALE AMERICAN HOLLY

Size1 1-2' \$49

This dense, conical, slow-growing, female, American holly was found in a Maryland woodland in 1936, by Stewart H. McLean who named the beautiful tree after his wife. For an abundance of bright red fall berries, grow within 100ft of a male holly. S-Psh/M (EG)(z5)(ENAM)(B&W,E native)

**ilop123 Ilex opaca Torchbearer**

FEMALE AMERICAN HOLLY

Size1 1-2' \$49

A vigorous and broadly conical female holly with spiny, dark olive green foliage, which typically appreciates a spring pruning. A rapid grower with strong branches, able to withstand winds well. Foliage and flowers are fragrant, and it is a heavy producer of bright red berries, which last well into winter. A beautifully festive tree as a specimen or hedge, tolerant of urban conditions. S/M (EG)(z5)(ENAM)(B&W,ENa,Fra)

## Juniperus

**jusc552 Juniperus scopulorum Skyrocket**  
COLUMNAR JUNIPER

Tube \$15.95 Size5 5-6' \$55

One of the narrowest of all conifers, growing up to 20' tall and only 2-3' wide, the beautiful blue-gray evergreen foliage of this tree makes a most distinctive column, an exclamation point in an otherwise horizontal landscape, it looks great as a specimen, grouped or as a screen; very-easy going and very drought-resistant once established. S/M-D/GDr (EG)(z4)(Bon)

## Koelreuteria

**kobi030 Koelreuteria bipinnata**

CHINESE GOLDENRAIN TREE

Tube \$15.95 Size1 1-2' \$29

This rare flowering tree (30-60') features lovely bright-green compound leaves, a very desirable specimen grown for its gorgeous fragrant yellow flowers which have a touch of red at the base and are held in upright 1-2' clusters during late summer, the flowers are followed by showy pink papery seed capsules; the branches tend to cascade as they grow making it necessary to prune them if walking under the tree is desired. S/M/GDr (Dec)(z7)(China)(Hon)

## Laburnum

**laan025 Laburnum anagyroides**

GOLDENCHAIN TREE

Tube \$15.95 Size1 1-2' \$29

In late spring 4-8" pendulous, wisteria-like clusters of golden-yellow pea flowers hang like golden chains from all along the branches of this superb 15-20' tree. Its beautifully soft leaves are almost clover-like, grey-green above and lightly fuzzy on their undersides. This tree makes a fantastic specimen and it is also quite lovely planted as a screen. Note that all parts of this tree are poisonous. S/M (Dec)(z6)(Europe)(Bfly)

**lawa060 Laburnum watereri Vossii**

GOLDENCHAIN TREE

Size5 5-6' \$85

Fantastic as a specimen or espalier, this 15-30' tree is a splendid sight in late-spring when it produces heaps of gracefully pendulous wisteria-like clusters of bright-yellow flowers that can be as long as two feet!; green bark and attractive glossy trifoliate leaves on a low-maintenance tree. S/M-GDr (Dec)(z6)(Fra)

## Larix

**laka150 Larix kaempferi**

JAPANESE LARCH

Tube \$15.95 Size1 1-2' \$29

Perhaps the most ornamental of the Larches, this vigorous large tree has reddish twigs and soft, sea-green needles (broader than those of *L. decidua*) which turn gold in autumn. S/M (Dec)(z4)(Japan)(Bon)

## Liquidambar

**list009 Liquidambar styraciflua Gold**

Beacon GOLD SWEETGUM

Tube \$29.95 Size5 5-6' \$85

A summer beacon, without a doubt, the leaves on this 40-60' tree open chartreuse, turn to GOLD and stay that way until they turn orange-red in fall. S/M (Dec)(z5)

**list129 Liquidambar styraciflua**

Rotundiloba SEEDLESS SWEETGUM

Tube \$29.95

The attractive, lustrous and highly unusual foliage of this Liquidambar features rounded lobes, no points at all! This tree has a narrower, more pyramidal habit to 60-75' and in autumn has the show-stopping yellow-to-burgundy-red color sweetgums are known for. This cultivar is wonderful in that it is non-seed-setting, no messy (and spiky) seed balls to clean up; a great selection all around. S/M (Dec)(z5)(Seedless)

## Liriodendron

*litu150* **Liriodendron tulipifera**  
TULIP TREE

**Tube \$19.95 Size1 1-2' \$39 Size5 5-6' \$65**  
This tree of tall, stately beauty reaching 60-90' (and even up to 150'!) is the king of the Magnolia family. It is the tallest hardwood native to Eastern North America. This is a lovely shade tree with bright-green and interesting large leaves which turn golden-yellow in fall. Tulip trees are named for their wonderful (although sometimes hidden by the dense foliage) yellow tulip-like spring flowers. S/M (Dec)(z5)(ENAm)(ENa,B&W,Hon)

## Maackia

*maam012* **Maackia amurensis**  
MaacNificent® Maackia  
AMUR MAACKIA

**Size5 5-6' \$85**  
Vigorous and versatile, this gorgeous tree is upright and vase-shaped with green compound leaves which emerge in the spring wearing a silvery pubescence. Ornamental, early-summer, pea-shaped, white flowers rise above the branches on spike-like racemes. An easy-going tree tolerant of various soil types, and drought, also a beautiful tree safe for planting under powerlines. S/M (Dec)(z3)(B&W,Fra,Hon)

## Magnolia

*magr063* **Magnolia grandiflora** D. D. Blanchard  
EVERGREEN MAGNOLIA  
**Tube \$29.95**

In addition to its sweetly fragrant white globe flowers, this special southern Magnolia has leaves that are glossy on the top but a showy rusty-orange on the back, a striking compact tree (to 50't x 30'w); Robbins Nursery. S/M (EG)(z7)(Fra)

*magr065* **Magnolia grandiflora**  
Kay Parris MAGNOLIA  
**Tube \$29.95**

Freely producing its large exquisite white flowers over a long late-spring-into summer season, this compact easy-care (humidity tolerant) small (20't x 10'w) tree, known for its glossy evergreen (pinkish when new) foliage. S/M (EG)(z6)(Fra)

*matr080* **Magnolia tripetala**  
UMBRELLA MAGNOLIA

**Size1 1-2' \$49**  
Striking (to 10") white flowers and large red seed pods are borne at the tips of the branches on this open-headed med tree with its "umbrella" sized leaves. S/M (Dec)(z5)(ENAm)(ENa)

*mavi059* **Magnolia virginiana**  
Moonglow® SWEETBAY MAGNOLIA

**Tube \$29.95 Size1 1-2' \$49**  
This upright 35' x 15' VERY hardy; pretty selection has glossy dark-green semi-evergreen foliage; fragrant, late spring-into-summer, cup-shaped white flowers. S-Psh/M PP12065 (Jim Wilson) (SEG)(z5)

## Malus

*maco036* **Malus Coralburst®**  
FLOWERING CRABAPPLE  
**Size5 5-6' \$65**

A lovely small crabapple tree with a beautiful rounded crown which grows to only 10 feet tall and 12 feet wide! Producing a wonderful crop of coral-pink spring buds that open up to be semi-double rose pink flowers that are followed by abundant, edible, orange-red fruits that are a delight for gardeners and birds alike! This little gem is perfect for small or cottage gardens; excellent disease resistance too. S/M (Dec)(z3)

*maha280* **Malus Harvest Gold®**  
GOLD-FRUITED FLOWERING CRAB  
**Size5 5-6' \$65**

This lovely cultivar features pink buds which open to abundant single white flowers in spring, however, it is most often grown for its wonderful rich golden-yellow fruit that is showy over a long season in fall. This tree is an upright grower to 20-25' with a tendency to have low-branching (which can be pruned if clearance is needed). S/M (Dec)(z4)(Hon,B&W)

*main285* **Malus Indian Magic**  
FLOWERING CRABAPPLE  
**Size5 5-6' \$65**

Dark-red buds open to deep rose-red fragrant flowers which are followed by glossy, bright-red 5/8" persistent fruit which persist into winter, the pretty bronzy-green foliage and golden-orange autumn color make this small tree a real winner; excellent disease resistance and tolerates air pollution too. S/M (Dec)(z4)(Hon,B&W)

*mapr335* **Malus Prairifire**  
FLOWERING CRABAPPLE  
**Size5 5-6' \$65**

One of the best of the red-leaved crabapples! This upright 20' x 20' tree is red everywhere, it even has reddish bark to go with its attractive red-to-bronzy leaves. Bright rose-pink spring flowers become deep red 1/2" persistent fruit. This fine specimen also shows excellent resistance to disease. S/M (Dec)(z4)(B&W,Hon)

*mare300* **Malus Red Jade**  
WEEPING FLOWERING CRABAPPLE  
**Size5 5-6' \$65**

An elegant, small, spreading tree reaching 15' tall and 20' wide, whose gracefully weeping branches are covered first by profuse, showy white flowers, then glossy, vibrant-green foliage, and finally with persistent bright-red fruit. S/M (Dec)(z4)(Hon,B&W)

*maro080* **Malus Royal Raindrops®**  
FLOWERING CRABAPPLE  
**Size5 5-6' \$65**

Cut-leaf, deep-purple, foliage is lovely all season but especially when combined with rose-red flowers on this compact, disease-resist. 20' tree; orange-red fall color and small red fruit make the fall picture. S/M (Dec)(z4)(B&W)

*masn310* **Malus Snowdrift**  
FLOWERING CRABAPPLE  
**Size5 5-6' \$65**

A vigorous grower of rounded form to 15-20' producing a profuse annual crop of red buds which open to masses of fragrant, single, snowy-white flowers. The blooms are followed by lovely and abundant 1/2" orange-red fruits which are very attractive to songbirds. The dark-green foliage looks fresh all summer. S/M (Dec)(z4)(B&W,Hon,Fra)

## Notholithocarpus

*lide085* **Notholithocarpus densiflorus**  
(Lithocarpus) TANOAK  
**Tube \$15.95 Size1 6-12" \$29**

A stunning evergreen tree native to California and Southern Oregon. Slow-growing to 75' with beautiful, leathery, toothed leaves which are a deep, dark-green on the top and white beneath, interesting catkins are produced from April-August becoming the wonderful acorns which take two years to ripen. S/M-D-GDr (EG)(z7)(WNAm)(Ed,WNA)

## Nyssa

*nysy092* **Nyssa sylvatica** Green Gable™  
PYRAMIDAL TUPELO/BLACK GUM  
**Size5 5-6' \$85**

An outstanding North American native selection with an upright, pyramidal shape, brilliant, shiny green summer foliage, and intensely vibrant red fall color. Its uniform branching creates a stunning winter silhouette. Tolerant of wet sites, clay, salt, high altitudes, and dryer climates. S-Psh/M PP22951 (Dec)(z4)(ENAm)(B&W,ENa,Hon)

**nyisy099 Nyssa sylvatica Tupelo Tower™**  
COLUMNAR TUPELO/BLACK GUM  
Size5 5-6' \$85

This is an Ohio native selection chosen for its strong branching, columnar habit and cold hardiness, in addition to its vivid fall colors of scarlet, orange, and yellow. Summer foliage is deep green and glossy. Its tight and slender form makes this an ideal tree for adding beauty to smaller spaces. S/M (Dec)(z4)(ENAM) (B&W,ENative,Hon)

**nywi014 Nyssa sylvatica Wildfire**  
SOUR GUM  
Tube \$29.95 Size5 5-6' \$85

The young foliage of this almost-native tree (to 30'x 20') emerges bright burgundy "wildfire" red, a color which lasts well into the summer to be followed by yellow-orange-scarlet-red fall color; spectacular! S/M (Dec)(z5)(ENAM)(ENA)

## Ostrya

**osvi062 Ostrya virginiana**  
Autumn Treasure® HOP HORNBEAM  
Size5 5-6' \$85

Upright and narrowly pyramidal, this hop hornbeam is an excellent choice for uniform street plantings. Its leaves are dark green and in the fall they turn a lovely shade of golden yellow, before dropping off cleanly and completely for winter dormancy. Hop-like seeds may persist on the tree through winter, offering a cold weather food source for birds. S-PSh/M-DGDr (Dec)(z4)(B&W)

**osvi060 Ostrya virginiana**  
HOP HORNBEAM  
Size5 5-6' \$55

This 25-40' understory tree native to the dry rocky slopes and woodlands of the eastern US has an elegant, rounded or pyramidal habit with pretty birch-like oval leaves of yellow-green. These plants have male and female flowers on the same tree which are inconspicuous, however the female flowers develop into interesting hop-like fruits, in fall it turns a non-distinct yellow color. Known as ironwood because of its extremely hard wood. S-PSh/M (Dec) (z4)(ENAM)(ENa,Bon)

## Parrotia

**pape015 Parrotia persica Golden Bell Tower™**  
COLUMNAR PERSIAN WITCH HAZEL  
Tube \$29.95 Size5 5-6' \$85

The perfect tree for urban dwellers! This narrow columnar selection reaches 30' tall by only 10' wide, in spring the leaves emerge in pretty shades of gold before turning a lovely lime green for the summer

until autumn brings out beautiful shades of apricot and plum; its high tolerance of pollution and poor soils make it a wonderful addition to city streets. S/M PPAF (Dec) (z4)(Urban)

**pape017 Parrotia persica Persian Lace**  
VARIEGATED PERSIAN WITCH HAZEL  
Tube \$29.95

Lacy splashes of creamy-green, white and deep green, along with pink to red new-growth make this handsome, small tree (to 25') a really special treat. (Dec)(z6)(IRAN)

**pape100 Parrotia persica Persian Spire**  
COLUMNAR IRONWOOD  
Tube \$29.95

Wonderful four-season interest on this columnar 25' x 10' Ironwood, spring growth emerges bright-green with dark-purple edging, in summer it is a lovely green column before turning shades of orange-red-purple in autumn, winter shows us its interesting branch patterns and pretty exfoliating bark, this tree is a winner! S/PSh-M (Dec)(z5)

**pasu077 Parrotia subaequalis**  
CHINESE IRONWOOD

Tube \$24.95 Size1 1-2' \$49  
A rare and wonderful 25' shrub/tree native to China (where it is endangered); this species has much narrower leaves than its more common sister, the Persian ironwood (*Parrotia persica*). This beauty has the most wonderful qualities, deep-green leaves with a purple margin turn consistently gorgeous shades of yellow-orange-burgundy-purple in autumn. It's brawny bark develops into a magnificent patchwork of silvers, tans, greens and creams with maturity; not to be missed!! S-PSh/M (Dec)(z6)(China)

## Picea

**pien050 Picea engelmannii**  
ENGELMANN SPRUCE  
Tube \$15.95 Size1 1-2' \$29

This handsome species native to the Rocky and Cascade Mountains is very hardy as well as attractive, an impressive large tree (to 100!) featuring stiff, bluish-green needles, chestnut-brown cones and scaly red-brown bark; it is typically found growing at high elevation and so is well adapted to dealing with high-winds and deep snow. S/M (EG)(z3)(WNA)(WNA,Bon)

**piel046 Picea glauca Daisy's White**  
WHITE-TIPPED ALBERTA SPRUCE  
Tube \$29.95 Size1 6-12" \$49

In spring the dazzling show of creamy-white shoots and needles that this dwarf 2-3' tall x 1-2' wide, cone-shaped conifer puts on will knock your socks off! The needles are a pretty green the rest of the

season making it a wonderful little accent tree for rock garden or container. S/M/GDr (EG)(z3)(Bon,Cont)

**pior065 Picea orientalis**  
ORIENTAL SPRUCE  
Size5 3-4' \$65

A truly beautiful large, 80-150' conifer known best for its dense, conical habit and small, dark-green, short needles (the shortest of any spruce), the cones are slender first appearing as a reddish-purple before maturing to dark-brown, widely grown in parks and gardens as it is one of the best and most adaptable spruces in cultivation; native to the Caucasus where it grows in pure stands, it is widely used for timber in flooring, instruments, carpentry and furniture, sometimes grown in the U.S. for Christmas trees. S/M (EG)(z5)(Caucasus) (Bon, Park)

**pisio75 Picea sitchensis**  
SITKA SPRUCE

Tube \$29.95 Size1 1-2' \$49  
Native to the Pacific coast from Alaska to NW California, this is the world's largest spruce reaching 125-180ft, or more under the right conditions. Its majestic trunk is straight with scaly bark, and holds a broad, open conical crown of 2cm green needles. There is an extensive ethnobotanical history associated with the Sitka spruce which includes cordage, wide-ranging medicinal uses, sealing canoes and roofs, even brewing by Capt. Cook for scurvy preventing beer... Somewhat more recently it has been used for boat, aircraft, and instrument making. S-PSh/M-W (EG)(z6)(WNA)(B&W,Bfly,WNA)

## Pinus

**piel573 Pinus brutia eldarica**  
AFGHAN PINE  
Tube \$19.95

A rare desert species, this 90' tree has long slender needles in bundles of two and extremely resinous wood which is aromatic when brushed or cut. It is very easily mistaken for Aleppo Pine (*P. halepensis*) to which it is closely related; endemic to Azerbaijan it is found growing 600-1800' in elevation on the stony north- and north-east-facing slopes of the Eilyar-Oyugu range. To shelter this near-threatened species a protected area has been established in the Gey-Gel Reserve. S/M-D/GDr (EG)(z7) (Eurasia)(DR)

**pibu235 Pinus bungeana**

LACEBARK PINE

**Tube \$19.95 Size1 1-2' \$39**

One of the most beautiful pines, known as the lacebark pine due to the fact that the bark flakes away to reveal a very eye-catching patchwork of white, green, and purple, this requires some patience as it will be 10 years or so before the tree is mature enough to put on its show; dark-green needles 2-4inches long are in bundles of three on this easy going 30-50' tree. S/M (EG)(z5) (China)(Bon)

**pica238 Pinus canariensis**

CANARY ISLAND PINE

**Tube \$15.95 Size1 1-2' \$29**

This Very Beautiful, though not Very hardy!, Pine has gracefully spreading branches w pendulous branchlets of long 10" needles in 3's; fine in containers for indoor use where winter weather is not suitable. S/M (EG)(z9)(CANARY)(Ed,Bon)

**piel274 Pinus elliottii**

SLASH PINE

**Tube \$15.95 Size1 1-2' \$29 Size5 5-6' \$55**

The slash pine is native to the southeastern United States, found growing in the 'slashes' or swamps of the Carolinas to the Keys. The fine quality pinkish wood of this tall tree 60-100' is used for flooring and was once heavily used as a source of turpentine and resin; its long 7-10" glossy green needles and orange-brown plated bark also make it a handsome tree. S/M-W (EG)(z8) (SENAm)(DR,Timber)

**piha293 Pinus halepensis**

ALEPPO PINE

**Tube \$15.95 Size1 1-2' \$29**

This lovely and distinct pine from the Mediterranean region is drought-tolerant and can quickly colonize disturbed areas. As such, it is often used for reforestation in warmer areas. Generally reaching 40-60'high and occasionally up to 80'. This conifer is somewhat sparse in form, featuring 2-4" needles which are a bright, fresh green and extremely narrow. With age, its beautiful bark becomes deeply fissured in shades of deep browns and oranges. S/M-D (EG)(z8)(MEDIT)(Reforestation)

**pimo350 Pinus monticola**

WESTERN WHITE PINE

**Tube \$15.95 Size1 1-2' \$29**

This "king of the alpine woods" is a medium-large tree, narrow and fast-growing when young with dark-green needles in 5's, but with age, it develops a trunk "as massive and suggestive of enduring strength as that of an oak" (Muir) S/M-D (EG)(z4) (WNAm)(WNa,Bon)

**pini073 Pinus nigra Oregon Green**

AUSTRIAN PINE

**Tube \$29.95**

This is an extremely attractive conifer! Luxurious jade-green needles are faintly twisted on spreading, upright, branches that radiate out from the center. Scaly brownish-gray bark adds a nice contrast to the bright green. Its easy-going temperament and smaller size (10-20') makes it a natural for urban gardens. Handsome open branching does not cast dense shade; tolerant of drought, salt spray and a variety of soil types. S/M-D (EG)(z5)(WNAm)

**pini089 Pinus nigra**

AUSTRIAN PINE

**Tube \$15.95 Size1 1-2' \$29**

Native to central and southern Europe, this pine is densely pyramidal while young. As it ages, its crown spreads to become dome-like, and curiously ornamental. Deep green needles are in clusters of two, sharp and 3-6 inches long. Bark is light gray to dark brown, scaling deeply with age. This tree is as tough as it is beautiful, with a resistance to heavy snow and ice, salt spray, urban environments, and deer. Once established, it is also somewhat drought tolerant. S/M (EG)(z4)(EUROPE)(B&W)

**pipi380 Pinus pinea**

ITALIAN STONE PINE

**Tube \$15.95**

The source of the delicious 'pignolis' (edible pine nuts)! This charming, picturesque, slow-growing 40-60' tree is shrubby in youth before maturing into a gorgeous broad and flat-topped pine with dense umbrella-like branches. The beautiful, silvery juvenile foliage gives way to bright-green, long (5-8") needles in bundles of two. Though many pines have edible nuts, these are considered to be the best flavor and quality; seedlings of this species are often sold as miniature Christmas trees. S/M-D (EG)(z7)(Mediterranean)(Bon,Ed)

**pist425 Pinus strobiformis (reflexa)**

SOUTHWESTERN WHITE PINE

**Tube \$15.95**

Also known as the Chihuahua white pine, a little known species from northern Mexico and the southwestern United States; a fast-growing, upright species to 90' with blue-green needles in bundles of five, the bark on young trees is a silver-gray aging to a furrowed red-brown, large cones with edible seeds that are dispersed by the Mexican jay; typically grows intermixed with other conifers rather than in pure strands. S/M-D (EG)(z5)(WNAm)(WNa,Bon)

**pito435 Pinus torreyana**

TORREY PINE

**Tube \$15.95 Size1 1-2' \$29**

This is the rarest pine species in North America, found only in small populations growing wildly in coastal San Diego County CA, and two of the Channel Islands. Its extensive root system allows it to slowly grow in the dry, sandy soils of the coastal sage scrub community. Crowns are open and broad, and the tree's forms may vary greatly due to exposure to coastal winds, sometimes resembling large bonsai. Needles are gray-green, long and found in clusters of five. 3-6in heavy cones are nearly spherical, and contain hard-shelled, edible nuts which were eaten by indigenous Kumeyaay peoples. Their record of deliberate planting is the earliest of any conifer in the Western Hemisphere. S/D (EG)(z8) (CA)(B&W,W)

**Pistacia****pich483 Pistacia chinensis**

CHINESE PISTACHE

**Tube \$15.95 Size1 1-2' \$29**

A handsome and undemanding small tree whose glossy green leaves assume gorgeous fall colors of fiery scarlet, crimson and orange. The soft-green flower panicles in April-May are not especially showy; however, female trees produce showy red fruits if a male is present (ours are unsexed). This tree makes a wonderful choice for tough garden spots, Xeriscape and urban sites. S/M-D (Dec)(z6)(China)

**Platanus****plac060 Platanus acerifolia Bloodgood**

LONDON PLANE TREE

**Size1 1-2' \$39 Size5 5-6' \$65**

A beauty of a large park-like tree to 40-80' tall x 30-40' wide, which is handsome, vigorous and with a nice symmetrical form, bright-green palmate leaves that turn a bronzy yellow-gold in the fall, the inconspicuous flowers appear in spring, followed by 1 1/2" round green fruits that mature to brown and persist on the tree into fall and winter, winter also reveals its striking smooth peeling bark in shades of green, gray and tan; a fine choice for urban areas with its ability to withstand pollution, dust and heat, and many soil types (also anthracnose resistant); well-suited as a street or lawn tree. S/M (Dec)(z5)(DR)

**plac088 Platanus acerifolia Columbia**

LONDON PLANE TREE

**Size1 1-2' \$39**

This highly attractive, quick growing shade tree was developed in 1984, for its superior disease resistance. Fascinating bark is one

of its most desirable features, and makes this tree particularly interesting in all seasons. When young, the peeling bark is gray-yellow to gray-orange, maturing to gray-green. It may reach as tall as 30ft in 12yrs, and generally spreads to about half of its height. Leaves are medium-dark green, turning yellow in the fall, and fruits are spiky balls. 'Columbia' is very adaptable to various soil types, urban environments and heat. A fantastic choice in urban and park settings. S/M (Dec)(z5)(B&W,Bfly)

## Populus

### *potr006 Populus tremuloides* Prairie

**Gold® HEAT-TOLERANT ASPEN**

**Size5 5-6' \$75**

This cultivar (JFSchmidt and Nebraska Arb) brings lowland disease-resistant and adaptability to heat, drought and humidity to a high-elevation favorite greatly expanding its range; 30't x 15'w with lovely fluttery leaves. S/M (Dec)(z4)(WNA)(WNa)

## Prunus

### *prse104 Prunus Shogetsu*

**JAPANESE FLOWERING CHERRY**

**Size5 5-6' \$85**

'Shogetsu' meaning 'moonlight on the pine trees', is a fitting name for this graceful Japanese Flowering Cherry. It is also widely known as the 'Blushing Bride' cherry. It is considered by many to be the finest blossoming tree available. The form of this tree is elegantly spreading and it eventually reaches 15-20' tall x 20-25' wide. In spring, the large, fully-double flowers drape down in immense bunches, opening pink and aging to bright white as the season progresses. Autumn is a treat as well with the foliage turning glorious shades of red and orange. S/M (Dec)(z6)

### *prwh140 Prunus White/Snow Fountain*

**WHITE WEEPING CHERRY**

**Size5 5-6' \$85**

A choice dwarf form of weeping cherry, 12-15' high, which becomes a lovely cascade of pure white in spring flower and then a shower of gold in autumn when the leaves turn. S/M (Dec)(z5)(Hon)

### *prbl042 Prunus blireana*

**DOUBLE-FLOWERING PLUM**

**Size5 5-6' \$65**

Perhaps one of the showiest small trees in spring, masses of brilliant magenta-pink

buds open to fragrant one inch double pink flowers that cover the branches while the bright reddish-purple leaves are just emerging, the dark-purple leaves on this lovely 20' x 20' rounded tree fade to a softer green with purple tinges in summer; this charming tree is a hybrid of *P. cerasifera* 'Atropurpurea' and *P. mume* and was developed in France. S/M-GDr (Dec)(z5) (Hybrid)(Fra,Hon)

### *prce053 Prunus cerasifera* Krauter

**VESUVIUS KRAUTER VESUVIUS PLUM**

**Size1 6-12" \$49 Size5 5-6' \$85**

A highly ornamental flowering plum with deep-purple leaves that maintain their gorgeous color all season long, light-pink fragrant flowers in spring become small, edible, purple plums; a fine specimen, this plum forms an oval, upright tree to 20' that is similar to 'Thundercloud', but features darker-red spring growth; good resistance to heat and cold. S/M/GDr (Dec)(z5) (B&W,Hon,Fra)

### *prce104 Prunus cerasifera* Mt St Helens®

**HARDY FLOWERING PLUM**

**Size5 5-6' \$85**

A sport of 'Newport', this flowering plum boasts a dense, rounded habit with early purple foliage which holds its deep purple color all summer long. Fall foliage is a stunning golden-orange. Small pink flowers are showy and fragrant leading to juicy midsummer plums. This beautiful ornamental is tolerant of extreme climates, and may thrive at an elevation of up to 6,000ft. S-PSh/M (Dec)(z4)(B&W,Cut,Fra,Hon)

### *prxc001 Prunus x cistena* Big Cis®

**FLOWERING PLUM**

**Size5 5-6' \$85**

Dense and upright, this sport of *P. cistena* is a relatively quick growing, sturdy, dense and upright, heavily trunked tree. It bears gorgeous pink, early spring flowers, which are followed by deep purple foliage that looks crisp and clean longer into the season. S/M (Dec)(z4)(B&W,Hon)

### *prye138 Prunus yedoensis* Akebono

**FLOWERING CHERRY**

**Size5 5-6' \$85**

This elegant 25x 25' tree is remarkable in spring when it bursts into bloom with clouds of fragrant, semi-double, white to shell-pink flowers. Glossy, emerald green foliage in summer is beautiful on the spreading, curving crown of this pretty tree. The foliage turns a lively yellow-gold in autumn. A breathtaking specimen that is excellent as a focal point. 'Akebono' means daybreak; it was given its lovely name by the W.B. Clark nursery in San Jose Ca. in the 1920's. S/M (Dec)(z5)(Fra,B&W)

## Pseudotsuga

### *psme035 Pseudotsuga menziesii* Glauca

**ROCKY MOUNTAIN DOUG-FIR**

**Tube \$15.95 Size1 1-2' \$29**

This beautiful form of the stately Douglas Fir comes from the Rocky Mountains, this interior variety usually reaches about 100', however specimens of 220' are known, this tree differs from the coastal Doug-Fir in that it is slower growing, more cold hardy and features pretty blue-washed needles, with its generally denser wood, it is also a valuable timber tree. S/M (EG)(z5) (WNA)(WNa,Ed,Bon)

### *psme030 Pseudotsuga menziesii*

**DOUGLAS-FIR**

**Tube \$15.95 Size5 4-5' \$65**

The stately Douglas Fir is a fine ornamental and also a very valuable timber tree, native to the western United States and Canada it is one of the largest trees in the world, it can reach a magnificent 300' or more in the wild, while cultivated trees reach 50-80', this majestic tree has short blue-green needles, deeply furrowed gray bark and is easily identified by the 'mouse tails' that hang from the scales in its cones. S/M (EG) (z6)(WNA)(WNa,Ed,Bon)

## Pyrus

### *pyca063 Pyrus calleryana* Cleveland

**Select**

**COLUMNAR ORNAMENTAL PEAR**

**Size5 5-6' \$65**

Showy clusters of white spring flowers, glossy green foliage in summer, and red fall color all make this upright, narrowly pyramidal tree (to 40' x 15' wide) an excellent ornamental choice for any narrow spot. S/M (Dec)(z5)(Columnar)

## Quercus

### *quhe049 Quercus* Heritage

**HERITAGE OAK**

**Size5 5-6' \$85**

A great tree for tough spots! This tree is well adapted to many conditions including drought and cold. Mildew resistant foliage is deep glossy-green above with lovely silver undersides. This is an exceptional hybrid to 50' with a dense, uniform pyramidal crown. This is *Q. robur* x *macrocarpa* hybrid is the perfect evergreen tree for shade or street tree. S/D PP11431 (EG)(z4) (WNA)(B&W)

### *quki077 Quercus* Kindred Spirit™

**COLUMNAR OAK**

**Size5 5-6' \$85**

Very columnar (to 35' x only 6' wide!), this hybrid of *Q. robur fastigiata* and *Q. bicolor* is also very tolerant (of dampness, drought,

and mildew) and very handsome with dark-green leaves that are silvery beneath. S/M (Dec)(z4)(Columnar)

**qure090 Quercus Regal Prince®**  
HYBRID OAK  
Size 5-6' \$85

Combining a bold, upright habit with handsome glossy foliage, this fine hybrid between Q. robur 'Fastigiata' and Q. bicolor offers a choice possibility for confined space or edging a drive. S/M PP12673 (Dec)(z4)(Columnar)

**quag033 Quercus agrifolia**  
CALIFORNIA LIVE OAK  
Tube \$15.95

This wonderful oak, also known as the coastal live oak, has dark green, spiny, holly-like leaves and is native to the coast ranges of California. One of the fastest growing of the native oaks, this picturesque 30-80' evergreen becomes a handsome wide-spreading shade tree. It is the only California native oak that truly flourishes in the coastal environment and it is the prevailing overstory plant of the coastal woodland habitat. Usually found growing in the well drained soils of coastal hills and grasslands. This oak is a food plant for the handsome California Sister butterfly. Native Americans are known to have used these acorns as a major food source. S/M-D (EG)(z8)(WNA)(B&W,Bfly)

**qubi058 Quercus bicolor American Dream** SWAMP OAK  
Size 5-6' \$85

Vigorous and very disease resistant; this is broadly pyramidal tree (40' x 50') with glossy green leaves turning a lovely yellow in fall before becoming a fawn brown as they hold onto the tree well into winter. S/M (Dec)(z4)

**qubi037 Quercus bicolor**  
SWAMP WHITE OAK  
Size 1-2-3' \$29

This fine 40-60' shade tree is characterized by its dark-gray-brown craggy bark and shallowly-lobed leaves which are glossy, polished green above and white felted beneath (bicolor).

The foliage turns glorious shades yellow-orange with sometimes a touch of red in fall. Although usually found growing in moist bottomlands or by the water's edge, it is surprisingly drought resistant. S/M-W (Dec)(z4)(ENAm)(ENa,B&W)

**quga065 Quercus garryana**  
OREGON WHITE OAK  
Tube \$15.95 Size 1-2' \$29

This drought-tolerant tree is found growing from southern California to British Columbia. Its growth pattern is quite variable from smaller and quite shrubby at 15' to a larger single trunked tree of 80'; much appreciated for its pale-grey fissured bark, the shade of its spreading gnarled branches, edible acorns, and striking yellow-to-orange fall color. Conservation efforts are underway as this important tree has lost much of its habitat. S/M-D/GDr (Dec)(z7)(WNA)(WNA,B&W,DR)

**quil073 Quercus ilex** HOLLY OAK  
Tube \$15.95 Size 1-2' \$29

This wonderful oak is among the most majestic evergreen trees cultivated. Also called the 'Holm Oak', this 40-90' tree native to the Mediterranean features ridged bark, a rounded head of dense branches, and dark, glossy-green, variably toothed leaves. The foliage looks like holly when young and as the leaves mature they become smooth edged. This is a very lovely shade tree! S/M-D/GDr (EG)(z7)(Europe)(Bon)

**qulo080 Quercus lobata** VALLEY OAK  
Tube \$15.95

These grand oaks, endemic to California's interior valleys and foothills, are the largest species of oak in North America (60-100ft tall and 50ft wide), and a host plant to a variety of butterflies. Adapted to wet, cool winters and hot, dry summers, but require access to abundant groundwater year round. The branches on these stately trees arch and spread erratically, forming dramatic winter silhouettes above 3-6ft diameter (or larger) trunks, which are thickly covered with attractive, steely-grey bark, often likened to alligator hide. When crushed or rubbed, the 2-4in velvety, green, and deeply lobed leaves are fragrant with a pleasant, earthy scent. S/M-D (Dec)(z5)(CA)(b&W,Bfly,Ed,Fra,WNA)

**quro520 Quercus robur** Skyrocket®  
COLUMNAR OAK  
Size 5-4-5' \$85

Uniform, narrow, adaptable and vigorous, 'Skyrocket®' is an outstanding choice for street plantings and screens. Its dark green foliage lends its self very well to formal settings and vertical accents. S/M (Dec)(z5)(B&W)

**quru113 Quercus rubra**  
NORTHERN RED OAK  
Tube \$15.95 Size 1-2' \$29

Deep brilliant-red fall color highlights this 50-70' tree of rounded habit. In summer it has wonderful deep-green leaves which are silver-white beneath and have 7-11 sharply-

pointed lobes. The species is faster growing than many other oaks and very beautiful, however, the acorn crop on this specimen may not arrive until after its 40th birthday! S/M (Dec)(z3)(ENAm)(ENa,DR)

**qusu120 Quercus suber** CORK OAK  
Tube \$15.95 Size 1-6-12" \$29

This wonderful tree from North Africa and Southern Europe is best known for its thick furrowed bark which provides the cork of commerce. Cork is not harvested from the trees until they are 30-40 years old, and then it is harvested every 10 years or so. A lovely wide-spreading tree to 40-70', the cork oak has small, leathery leaves and makes a wonderful attractive specimen. In Portugal there is a delightful tree called the 'Monumental Cork Oak' which is 250 years old, 16 meters tall and requires at least 5 people to encircle it! S/M-D (EG)(z8)(Europe)(Cork,Bon)

## Robinia

**rops603 Robinia pseudoacacia** Unifolia  
SINGLE-LEAF BLACK LOCUST  
Tube \$29.95 Size 5-6' \$85

This remarkable variety arose in a French nursery in about 1855, grown more for its unique foliage, which is simple rather than compound and very un-locust-like! The blooms on this 45-60' tree, however, are delightful, pendulous clusters of fragrant white flowers and they are borne quite prolifically. Good for areas with poor air quality as they are very pollution tolerant; also a wonderful tree for beekeepers! S/M (Dec)(z4)(Fra,Hon,Bfly)

## Salix

**sada094 Salix daphnoides** Continental  
Purple VIOLET WILLOW  
Tube \$15.95 Size 1-2-3' \$29 Size 5-6' \$55

An outstandingly ornamental male clone, this vigorous grower features pretty blue-green leaves on dark stems, the tall and pliable rods from this widely-spreading 30-60' tree darken from bright red to a deep purple and are gorgeous when used for basketry or other craft; prolific catkins open from buds tipped with bright red and yellow. S/M-W (Dec)(z5)(Basketry)

## Sophora

**soja028 Sophora japonica**  
JAPANESE PAGODA TREE  
Tube \$19.95

"Greatly desired as an ornamental" (Wyman) for its large clusters of yellow pea-like flowers in late summer, this is also a good wide-spreading shade tree; com-

mon name refers to its use around Buddhist temples. S/M-D (Dec)(z5)(China) (Bon,Hon)

## Sorbus

*soru068 Sorbus rufoferruginea* Longwood Sunset™ MOUNTAIN-ASH  
Size5 5-6' \$85

Selected by Longwood Gardens for its heat tolerance, disease resistance rich burgundy fall color and long lasting orange fruits, this rounded 20-30' tree has also done well in Minnesota. S/M (Dec)(z4)(B&W)

## Stewartia

*stps200 Stewartia pseudocamellia* Pewter Form

SILVER-LEAVED STEWARTIA  
Tube \$29.95 Size1 1-2' \$49

A very interesting form of an already beautiful tree! The shimmering, silvery leaves add another dimension and make this small (20-30') tree wonderful for moonlit gardens. Large, white camellia-like flowers with gorgeous golden-yellow stamens bloom for a long period over summer. S-PSh/M (Dec)(z5)

*stps090 Stewartia pseudocamellia* JAPANESE STEWARTIA

Tube \$19.95 Size1 1-2' \$39

This is an outstanding specimen for true four season beauty! This gorgeous, 20-40' multi-trunked, spreading tree comes to us from Japan. Dark-green serrated foliage is the perfect foil for the large white camellia-like flowers which bloom all summer. In autumn the leaves turn bright colors from yellow to red to purple. This specimen is interesting in winter too with its attractive, flaking, cinnamon-colored bark. With a proper pruning schedule, this beauty can be held to a 12' shrub. S-PSh/M (Dec)(z6) (Japan)(Fra)

## Syringa

*syre112 Syringa reticulata* Ivory Silk TREE LILAC

Size1 2-3' \$29

A most attractive small flowering tree, more compact (to 25ft) than the species, with cherry-like bark, and large clusters of ivory-white flowers in summer (long after other lilacs). S/M (Dec)(z4)(Cut,Fra,Bfly)

## Tilia

*tiam055 Tilia americana* Boulevard BASSWOOD

Size5 5-6' \$85

The narrow (to 60't x 30'w) pyramidal (more rounded with age) shape of this adaptable tree makes it a great choice to

add verticality where space is limited: boulevards, windbreaks, and parks. S/M/GDr (Dec)(z3)(Shade,Street)

*tico075 Tilia cordata* Greenspire® LITTLE-LEAF LINDEN

Tube \$29.95 Size1 \$49 Size5 5-6' \$85

An amazing tree for urban or other tough spots, tolerant of wind, smog, salt and wet or dry feet; this Linden makes a magnificent street tree with its strong central leader and symmetrical pyramidal growth to 40' tall and 30' wide; with lovely, green heart-shaped leaves, intensely fragrant yellow summer flowers and outstanding yellow autumn color; a wonderful easy-care tree. S/M PPAF (Dec)(z4)(Fra,Hon)

*tico569 Tilia cordata* Shamrock® LITTLE-LEAF LINDEN

Size5 5-6' \$85

An especially handsome linden with a broadly conical crown of branches more sparse, yet thicker than typical of the species. Its glossy medium-dark green, heart-shaped leaves are beautiful on their own. Summer flowers are shades of gold-yellow, loved by bees, and small, though you wouldn't know based on their fragrance. A wonderful, drought-tolerant choice for street trees, and added shade. S/M (Dec)(z4)(B&W,Fra,Hon)

*tito054 Tilia tomentosa*

Green Mountain® LINDEN

Size5 5-6' \$85

Dense and vigorous growth with attractive foliage and small fragrant flowers, as well as good tolerance to drought and heat, make this large (to 60') tree an easy shade or specimen tree in problem conditions. S/M (Dec)(z5)(Fra,Hon)

*tito075 Tilia tomentosa* Sterling

SILVER-LEAVED LINDEN

Size5 5-6' \$85

The outstanding heart-shaped foliage of this pretty tree is dark-green above and strikingly silver beneath; it seems to shimmer in a breeze. With a strong central leader, this 40-60' broadly-pyramidal tree looks very refined. Pale-yellow, incredibly fragrant flower clusters with creamy bracts hang in summer and are wonderful for bees. This cultivar is also known to be resistant to Japanese beetles and gypsy moth. S/M PP6511 (Dec)(z5)(Fra,Tea)

## Toona

*cesi090 Toona (Cedrela)* Sinensis CHINESE TOON

Tube \$29.95

A handsome (& useful) tree to 40-60': its 1-2' compound leaves have an oniony taste boiled as a Chinese vegetable; its pendu-

lous white flower clusters are fragrant and favored by bees, and the old bark peels in decorative strips. S/M (Dec)(z6)(China) (Ed,Fra)

## Ulmus

*ulpa025 Ulmus* Patriot PATRIOT ELM  
Size5 5-6' \$85

One of the fabulous disease-resistant Elms developed to replace those felled by Dutch-Elm disease, this tree also shows excellent resistance to elm leaf beetles and some resistance to elms yellows. Becoming a lovely, upright, vase-shaped tree to 40-50' tall, it is noted for its handsome deep-green summer foliage and golden-yellow fall color. S/M (Dec)(z5)(Hon)

*ulam084 Ulmus americana* Prairie Expeditions® AMERICAN ELM

Size5 5-6' \$85

This beautiful American elm selection is specially noted for its excellent resistance to Dutch Elm Disease, and cold hardiness. A medium to fast grower with a classic umbrella shape and yellow fall color. Tolerant of most soils, drought, urban conditions, and salt. This is a fantastic choice for parks, boulevards, and other open spaces. S/M (Dec)(z3)(ENAM)(B&W,Enative)

*ulam078 Ulmus americana* Valley Forge AMERICAN ELM

Size5 5-6' \$85

This beautiful American elm has excellent resistance to Dutch elm disease. Reaching 60-70' and becoming a vase-shaped tree with a broadly rounded crown. Attractive, rough, dark-green leaves have toothed margins and turn a soft- yellow in fall. Early-spring, small yellow-green flowers become interesting, single-seeded wafer-like samaras. This is a lovely shade, street or lawn tree. S-PSh/M (Dec)(z5) (ENAm)(ENa,Pollution Resist)

*ulpa030 Ulmus parvifolia* CHINESE ELM

Tube \$15.95 Size1 2-3' \$29 Size5 5-6' \$55

This attractive tree is often called the lacebark elm. It is a 40-60' deciduous tree with a rounded crown and long pendent branches. Grown for its graceful foliage, multi-colored bark, fast growth rate and good resistance to Dutch elm disease and beetles. Fall brings papery, winged-seeds which are rather handsome. On mature specimens, the bark flakes to reveal patches of pewter, ivory, orange, tan and green. S/M (Dec)(z4)(Asia)(Pollution resistant)

## Acer

### *acpa114* **Acer palmatum** Garnet

LACELEAF JAPANESE MAPLE

Tube \$29.95 Size1 1-2' \$49

The elegant shrub form maple has incredible, dissected, 7-lobed leaves which emerge a dark orangey-red color, deepening to ruby and holding that intense color most of the season before maturing to a dark wine color. This low-maintenance cultivar becomes a spreading, pendulous mound 8-10' wide and tall. Foliage turns brilliant-red in autumn. This colorful selection is a knockout whether as a focal point, in a mixed border or alongside a pond. Such a delight it received the Award of Garden Merit from the Royal Horticultural Society. S-PSh/M (Dec)(z5)(DR)

### *acpa137* **Acer palmatum** Sazanami

JAPANESE MAPLE

Size5 2-3' \$85

"Not common in collections but a charming plant" (Vertrees); the Japanese name means "ruffles" because the shade pattern for the finely tapered 7-lobed leaves of this 15-18' shrub is most delightful. S-PSh/M (Dec)(z6)(Bon,DR)

## Arctostaphylos

### *arpa155* **Arctostaphylos patula**

GREENLEAF MANZANITA

Tube \$19.95

Bright green leathery leaves, pink flower clusters and smooth brown bark make this medium, rounded shrub very ornamental. S/D/GDr (EG)(z6)(WNA, B&W, Hon)

### *aruv162* **Arctostaphylos uva-ursi**

Massachusetts

KINNIKINNICK

Tube \$9.95 Size1 1'spr \$15

A wonderful evergreen ground cover, perhaps a bit more tolerant of wet conditions as this selection comes from the East Coast; medium-sized dark-green glossy leaves and clusters of pretty, pale-pink bell-shaped flowers which become beautiful, small, bright-red berries which persist in to winter; plants are 6-10" tall and spread up to 3-6'. S/M-D/GDr (EG)(z3)(ENAm)(WNA, Bon, Hon)

### *aruv165* **Arctostaphylos uva-ursi** Point

Reyes CALIFORNIA KINNIKINNICK

Tube \$9.95

This wonderfully vigorous, spreading, dense ground cover becomes a mat 6-12" tall while spreading as wide as 6-10 feet! With dark green leaves and small urn-shaped, pink flowers followed by showy mahogany berries. A wonderful plant for

banks and rock walls; adaptable, does well in regular garden conditions. S/M-D/GDr (EG)(z5)(WNA, B&W, Hon)

## Aronia

### *arme006* **Aronia melanocarpa**

Low Scape Hedger® CHOKEBERRY

Tube \$15.95

An easy-going, versatile and durable eastern native, with an upright compact columnar habit which is perfect for low hedges and screens. Spring brings loads of attractive white flowers, and in the fall the glossy green foliage becomes a stunning array of yellows, oranges and reds. This is a fantastic landscape plant for nearly any conditions. Tolerant of heat, drought, salt, and boggy soils. It also looks great formally pruned or left natural. S-PSh/M PP28831 (Dec)(z3)(ENA)(Hon, B&W, ENa, erosion)

## Aucuba

### *auja100* **Aucuba japonica** Variegata

GOLD DUST SHRUB

Tube \$15.95

Bold, shining green leaves, speckled all over with a clear-yellow will brighten up any shaded spot; rounded shrub (to 6-9') thrives in shade. Sh-PSh/M (EG)(z7)(Japan)

## Berberis

### *bere533* **Berberis regeliana**

JAPANESE BARBERRY

Tube \$15.95 Size1 1-2' \$29

Of upright 2-4' stature for hedge or foundation, this shrub also offers yellow flowers followed by clusters of red fruits. S/M (Dec)(z6)(Japan)(B&W, Hon)

### *bewi059* **Berberis wisleyensis**

(triacanthoph.)

THREE-SPINE BARBERRY

Tube \$15.95 Size1 1-2' \$29

Evergreen suitable for a deterrent hedge, this attractive medium-sized shrub has yellow stems setting off spiny dark-green leaves; white flowers. S/M (EG)(z7)(China)(Hon)

## Betula

### *bego100* **Betula plettkei** Golden Treasure

DWARF GOLDEN BIRCH

Tube \$19.95

Tiny leaves emerge deep-yellow tinged with orange-red before aging to a glowing yellow-chartreuse on this very hardy miniature birch. Left to grow naturally it will develop into a lovely vase-shaped 2-4' shrub, it also takes shearing and pruning well making it a choice plant for your con-

tainer garden. This is a wonderful way to add a bright spot to your landscape! Cesky Gold® S-PSh/M PPAF (Dec)(z2)(Bon, Cont)

## Buddleia

### *bumi077* **Buddleia** Miss Molly

NECTAR BUSH

Tube \$15.95

A truly spectacular sterile Buddleia, the flowers on this cultivar are a rich deep dark-pink which becomes an even deeper red with heat of the south (a dark sangria red); a good choice for humid climates, this 4-5' beauty is perfect for the butterfly garden and is drought, heat, pest, disease and deer resistant. S/M-GDr PP23425 (Dec)(z5)(Fra, Hon, Bfly)

### *buru100* **Buddleia Lo & Behold®**

Ruby Chip DWARF NECTAR BUSH

Tube \$15.95

This space-saving dwarf boasts dozens of bold ruby-magenta flower spikes, blooming all summer long with no deadheading necessary. Very easy to grow, deer resistant and drought tolerant. (Dec)(z5)

## Callicarpa

### *cape100* **Callicarpa** Pearl Glam®

PURPLE-LEAVED BEAUTYBERRY

Tube \$15.95

This beautyberry is exceptionally showy! Beginning in spring when its new foliage emerges deep-dark purple. In summer the leaves contrast beautifully with the bright-white flowers which yield incredible masses of purple berries. This shrub has a nice upright habit to 4-6' making it a perfect specimen plant. Callicarpa are self-fertile, so you only need one to get a good crop of berries. S/M PP28312 (Dec)(z5)(B&W)

## Callistemon

### *caci043* **Callistemon citrinus**

LEMON-SCENT BOTTLEBRUSH

Tube \$15.95 Size1 1-2' \$29

Spectacular is the word to describe this 3-15' shrub/small tree when it is covered with its 4" bright scarlet-red bottlebrush blooms! The unusual winter-into-spring blooms are much loved by bees. This lovely Australian plant also features lance-shaped green leaves which when crushed emit a delicious lemon-scent. Although not hardy in most areas, it can be easily be containerized in colder areas and can also be grown as a houseplant. S/M (EG)(z8)(AUS)(Fra)

*"I would not hesitate to recommend your beautiful plants to anyone. They are the best I have ever seen."* (St. Joseph, MO)

## Calycanthus

### *cara053 Calycanthus raulstonii*

Hartlage Wine

WINE-FLOWERED SWEETSHRUB

Tube \$19.95

Delightful wine-red flowers, though not as fragrant, are larger and showy on this special 6-8' J. C. Raulston hybrid between the Asian *C. sinensis* and our *C. floridus*: the best of both worlds in a vigorous, floriferous shrub. S-PSh/M (Dec)(z6)(Fra)

## Camellia

### *caap080 Camellia April Dawn*

HARDY CAMELLIA

Size1 1-2' \$49

This is one of the gorgeous Camellias that are part of Dr. Parks 'April' series. Very pretty with showy double white blossoms which are randomly brushed with pink and rose stripes (occasionally a bloom is entirely pink too!). Hardy and vigorous this upright shrub reaches 5-8' with deep-green, glossy evergreen leaves. Not only beautiful but long blooming too; from early-to-mid-spring; a fine specimen or stunning hedge. PSh/M (EG)(z6)(Cut)

### *canu025 Camellia Nuccio's Pearl*

CAMELLIA

Size1 1-2' \$49

The blooms of this Camellia are exquisite; fully double, white-centered blossoms are tinged with an opalescent pink around the edges, reminding you of a pearl. The blooms grace this elegant 6-8' evergreen shrub winter-into-spring. This bush has a neat compact habit and lovely flowers which are beautiful when picked and floated in a bowl of water; a delight. PSh/M (EG)(z8)(Cut)

### *cabl001 Camellia japonica Black Magic*

CAMELLIA

Size1 1-2' \$49

Glossy, deep red petals with black veins, contrast with rich yellow stamens and deep green leaves on this 8-12' evergreen shrub winter through spring! Grow a bewitching hedge, privacy screen, specimen or trim into an extraordinary tree sure to turn heads. (EG)(z7)(Cut)

### *caja125 Camellia japonica Pink Icicle*

CAMELLIA

Size1 1-2' \$49

A vigorous Camellia with beautiful shell pink petals irregularly surrounding many golden stamens. From winter through early spring, clear pink flowers stand out exquisitely against the dark green, glossy foliage. (EG)(z6)(B&W,Cut,Hon)

### *caja063 Camellia japonica Rosehill Red*

RED CAMELLIA

Size1 1-2' \$49

Bright semi-double anemone-form red flowers are striking against a background of dark glossy-green foliage on this large (to 10't x 5'w) shrub in early-to-mid-spring... a great cure for the winter blahs! PSh-Sh/M (EG)(z7)(Cut)

### *caja056 Camellia japonica Unryu*

CONTORTED CAMELLIA

Size1 1-2' \$49

With its wonderfully lyrical name, 'Unryu', meaning "dragon in the clouds" this gorgeous Camellia twists and turns to 6' tall creating a captivating silhouette in the garden. Spring flowers are a striking red-pink and single with golden-yellow stamens. Evergreen foliage is glossy and deep-green. This is a magnificent specimen for any landscape. PSh-S/M (EG)(z7)(Cut)

### *casi585 Camellia sinensis TEA PLANT*

Tube \$29.95

This splendid shrub is the tea of commerce, cultivated for centuries for its use as white, green or black tea. Tea plantations keep their plants pruned to about waist-high, in gardens it generally reaches 8-15'; however unpruned it can become a small tree. The young leaves of this handsome evergreen can be harvested regularly; keep in mind that taking the leaves means you miss out on the gorgeous, deliciously scented white flowers with brilliant yellow centers. It is best to plant more than one so you can have your tea and flowers too! The seeds are pressed for tea oil which is used for cooking and the stems can be used for Kukicha (twig tea). The perfect specimen or hedge plant for the edible landscape. S-PSh/M (EG)(z7)(Asia)(Ed,Fra)

## Cephalotaxus

### *ceha061 Cephalotaxus harringtonia*

Duke Gardens PLUM-YEW

Size1 1-2' \$39

"All the characteristics of a gracefully spreading yew" (Dirr), this fine wide-spreading (to 2-3' x 3-4') EG selected at Duke Gardens NC is an excellent choice for a shade-tolerant evergreen. PSh-Sh/M/GDR (EG)(z6)(Bon)

## Cercocarpus

### *cele325 Cercocarpus ledifolius*

CURL-LEAF MOUNTAIN MAHOGANY

Size1 1-2' \$29

Hardy and tough enough for mountain peak conditions, this large shrub/small tree with small leaves and gray bark has earned a reputation as a survivor; we can enjoy its

rugged beauty and its whimsical (though efficient) 2-3' feathery fruits. S/D/GDR (EG)(z4)(WNA)(WNa,Bon,Hon)

## Chaenomeles

### *chca035 Chaenomeles Cameo*

FLOWERING QUINCE

Size5 2-3' \$55

A favorite of ours, this beautiful compact shrub (3' tall by 5' wide) is absolutely covered in double, soft apricot-coral flowers in early spring, these shrubs make beautiful specimens or fabulous hedges; very low-maintenance and interesting edible quince like fruits too. S/M (Dec)(z4)(Japan)(Cut,Bon)

### *chdo062 Chaenomeles speciosa Double*

Take Orange™ FLOWERING QUINCE

Tube \$15.95

Spring brings masses of large, double, vividly-orange flowers creating an intense color display! This handsome 4-5' quince is completely low-maintenance, thornless, and fruitless. A fantastic selection that withstands drought, heat and deer! This shrub is wonderful as a hedge, border or specimen. S/M-D (Dec)(z5)(Cut)

## Chimonanthus

### *chpr180 Chimonanthus praecox*

WINTERSWEET

Tube \$29.95 Size1 1-2' \$49

This shrub is an absolute delight for your senses! Incredible, sweetly fragrant winter flowers are waxy and pale-yellow with a burgundy center. These delicious blooms appear on bare branches in late-winter perfuming the entire garden. This large (10-15') shrub has outstanding glossy dark green lance-shaped leaves that make it a wonderful backdrop for other plants; the foliage turns butter-yellow in autumn. Used in China for over 1,000 years in cosmetics and as a tea flavoring; make sure to plant this shrub where you can enjoy its sublime scent. S/M (Dec)(z7)(China)(Fra,Cut,Ed)

## Chionanthus

### *chre208 Chionanthus retusus*

CHINESE FRINGETREE

Tube \$15.95 Size1 1-2' \$29

This highly ornamental shrub/tree bears a profusion of fleecy and fragrant snow-white flowers in spring. A lovely multi-

trunked specimen featuring large lustrous deep-green leaves which are downy beneath. The male flowers are slightly showier than the female flowers, but the female plants if pollinated, bear damson-like fruits loved by birds. Ours are seedlings of unknown gender. S-PSh/M (Dec)(z6) (China)(Fra,B&W)

## Choisya

*chgo032 Choisya Goldstone*  
MEXICAN ORANGE

Size1 6-12" \$29

An outstanding Mexican orange with slender, feathery foliage which emerges gold-green, and matures a deep forest green. Small 1" white flowers are sweetly fragrant, blooming in the spring and then sporadically through late fall. Deer resistant and drought tolerant. Typically a summer dry plant, but in dryer areas some supplemental summer water will be appreciated. With good drainage, this makes a lovely container plant or unique evergreen hedge. S-PSh/MGDr (EG)(z7)(Fra, Hon)

*chte220 Choisya ternata*  
MEXICAN ORANGE BLOSSOM  
Tube \$15.95 Size1 1-2' \$29

White flowers throughout late spring/early summer fill "the air with orange-blossom perfume" (Genders); the shiny green leaves of this med. rounded shrub are also aromatic if crushed; nice in sun or shade or as container plant. S-PSh/M/GDr (EG)(z7) (Mexico)(Fra,Cut,Bfly)

## Clethra

*clal019 Clethra alnifolia Ruby Spice*  
PINK SUMMERSWEET  
Tube \$19.95 Size1 1-2' \$39

This stunning 4-6' shrub produces deliciously fragrant panicles of deep-pink flowers in late summer, the blossoms are especially welcome as many other shrubs are already bloomed out. This shrub is a good choice for tough spots, it will bloom in sun or shade and can tolerate medium to wet soils. The sweetly-scented blooms perfume the entire garden and bring in the bees and butterflies too! Foliage turns a lovely butter-yellow in autumn. S-Sh/M-W (Dec)(z4)(Fra,Hon,ENAm)

## Cornus

*cost080 Cornus sericea Arctic Fire™*  
ARCTIC FIRE DOGWOOD  
Tube \$15.95

A beautiful and compact red-stemmed cultivar, ideal for winter interest in even residential landscapes at just 3-4 feet tall.

The stems are also often used for festive, indoor holiday arrangements. PPAF 18523 (Dec)(z3)(B&W,Cut,Hon)

*coar019 Cornus sericea Arctic Sun®*  
ORANGE TWIG DOGWOOD  
Tube \$15.95

Developed in the Netherlands, this brightly colored compact (3-4') dogwood has rich yellow stems tipped blood red, which are quite striking in winter landscapes as well as indoor arrangements. (Dec)(z4) (B&W,Cut,Hon)

*cost082 Cornus stolonifera Arctic Fire®*  
YELLOW YELLOW TWIG DOGWOOD  
Tube \$15.95

An attractive and sturdy selection of the North American native, but with gorgeous yellow stems! White, late spring flower clusters lead to white berries the birds will appreciate. 1-2yo stems generally have the best color, so it is recommended to cut the plants back to stems every other year. Or if you have planted for screening, cut out 1/3 of the old stems every year. (Early spring is the best time for pruning.) S-Sh/M PP32351 (Dec)(z2)(NAM)(B&W,Cut,Hon)

## Corylus

*coam189 Corylus americana*  
AMERICAN HAZELNUT  
Size1 1-2' \$29

Before the dark-green toothed leaves cover this pretty 6-15' multi-stemmed native shrub, spring brings attractive 2-3" showy yellow male catkins, these pollinate the small red inconspicuous female catkins to become about the cutest little nuts ever, 'helmeted' with papery, fringed bracts, (Corylus comes from the Greek korys meaning helmet). These nuts although much smaller, have as just as sweet a kernel as the commercial form (if you can get to them!), they are mostly enjoyed mostly by squirrels and birds; variable but nice fall color from yellow to rose. S-PSh/M (Dec)(z4)(ENAm)(B&W,Ed)

## Cotinus

*coco267 Cotinus coggygria Velvetreen™*  
DWARF SMOKEBUSH  
Tube \$19.95

An easy-going, colorful plant for gardens of any size with deep burgundy, round, velvety leaves which turn striking shades of red-orange in autumn. Late spring to summer flowers are feathery plumes of pink with tinges of gray, which contrast beautifully with the burgundy foliage. Attracts butterflies and other pollinators. Wonderful for cut arrangements. S/MGDr (Dec)(z4) (Bfly,Cut)

*cowi014 Cotinus coggygria Winecraft Black®*  
DWARF PURPLE SMOKEBUSH  
Tube \$19.95

Lush round leaves emerge opulent purple in spring, but as the weather heats up, they deepen to nearly black! Hefty blooms appear in summer which become the unusual pink 'smoke' flowers

this shrub is known for. Autumn finds this bush lit up with fiery reds and oranges. This shrub is wonderfully easy-care and requires no pruning; and at only 4-6' it fits into any sized landscape or large container. S/M PPAF (Dec)(z4)(PW)(Hedge,Dwarf)

## Cotoneaster

*coda282 Cotoneaster dammeri*  
Mooncreeper  
GROUND COVER COTONEASTER  
Tube \$10.95 Size1 6" spr \$19

Cotoneasters are well known for their abilities as tolerant and efficient groundcovers and this selection sounds like a good one—a very prostrate form with large leaves and a name implying it will cover anything! S/M-D (EG)(z5)(Hon,Bon)

*cosu156 Cotoneaster x suecicus*  
Emerald Beauty™  
GROUND COVER COTONEASTER  
Tube \$10.95 Size1 6" spr \$19

A lovely, low-growing, evergreen Cotoneaster with especially glossy, deep green leaves from the University of Oregon. White late spring flowers attract butterflies and other beneficial pollinators. They are small but adorable, and stand out due to their prominent, bright yellow stamens. As fall approaches, loads of vividly orange berries appear, contrasting beautifully with the deep green foliage. The berries are not fit for human consumption, but birds cannot resist them. S/M (EG)(z5) (B&W,Hon,Rock)

## Deutzia

*degr009 Deutzia gracilis Chardonnay Pearls®*  
GOLD-LEAVED DEUTZIA  
Tube \$15.95 Size1 1-2' \$29

The showy bright-yellow to chartreuse foliage of this compact 2-3' shrub provides intense all-season color! Elegant, white, pearl-like buds explode into a shower of fragrant brilliant-white spring flowers. This is a great way to add a brilliant

splash of color to the foundation, border or container. S-PSh/M PP16098 (Dec)(z5) (Cont,Bfly,Fra)

**decr028 Deutzia gracilis Nikko**  
DWARF DEUTZIA  
Tube \$15.95

This highly attractive, dwarf shrub has gracefully arching branches that reach 2' high and spread elegantly to 5' wide. In spring, each branch is completely covered with masses of fragrant, double, bright-white blossoms. Lush-green summer foliage turns a striking, deep, dark-burgundy color in fall. This shrub works very well in a container, but it is especially effective planted en masse or cascading down an embankment. S/M (Dec)(z6) (Bfly,Fra,Hon)

## Disanthus

**dice060 Disanthus cercidifolius**  
Ena nishiki VARIEGATED DISANTHUS  
Tube \$29.95 Size1 \$49

The only variegated Disanthus, this 8-10' shrub known for its striking pink-to-crimson fall color also offers grey-green foliage showily edged and splashed with cream. PSh/M (Dec)(z7)(JAPAN)

## Elaeagnus

**eléb038 Elaeagnus ebbingei Gilt Edge**  
VARIEGATED SILVERBERRY  
Tube \$15.95 Size1 1-2' \$29

Similar to its hybrid parent but with a dramatic, clear bright-yellow margin around the edge of each leaf. S/M-D/GDr (SEG) (z6)(Fra,Cut,Hon)

## Forsythia

**foku078 Forsythia Kumson**  
GOLDEN BELLS  
Tube \$15.95 Size1 1-2' \$29

STUNNING! in leaf as well as flower, the leaves of this gracefully arching shrub are brilliantly, vividly etched with a network of silver veins; handsome yellow flowers join the picture in spring. S-PSh/M (Dec)(z6) (Cut,DR)

## Fothergilla

**foga105 Fothergilla major Mt. Airy**  
WITCH-ALDER  
Tube \$19.95

'Mt. Airy' is a wonderful hybrid discovered by plantsman Michael Dirr at the Mt. Airy arboretum in Ohio. Much smaller than the

straight species (growing to 3-5 feet tall and nearly as wide), 'Mt. Airy' is much more suited to most landscapes. Larger, fragrant, white flower puffs cover this beautiful eastern native upright shrub in early spring before the leaves emerge, pretty green foliage becomes a spectacular show in autumn! S/M (Dec)(z5)(ENAm)(Fra,Hon,ENAm)

## Gardenia

**gaja053 Gardenia jasminoides**  
Frostproof HARDY GARDENIA  
Size1 1-2' \$29

Resistant to spring frosts, the buds of this pretty 4-5' shrub open to profuse, deliciously-fragrant, white 2-3" flowers. Blooming from spring-into-summer the flowers stand out against the dark-green, shiny foliage. This is an excellent shrub for foundation plantings or borders; it can also be sheared smaller making it a first-rate container plant. Place this shrub somewhere prominent where you will be able to enjoy its enticing fragrance! S-PSh/M/Acid (EG)(z7)(Fra,DR)

**gaja011 Gardenia jasminoides Kleim's**  
Hardy HARDY GARDENIA  
Tube \$15.95 Size1 1-2' \$29

You can enjoy the exquisite jasmine perfume of the lovely pure-white single flowers of this compact 3-4' "survivor" indoors OR outdoors; hardy to zone 7; the species is used for tea flavoring in China. S-PSh/M (EG)(z7)(Fra,Cut)

**gaja092 Gardenia jasminoides Steady As**  
She Goes™ HARDY GARDENIA  
Tube \$15.95

A compact Gardenia with advanced cold hardiness and heat tolerance, glossy evergreen leaves, and best of all, it blooms continuously with deliciously fragrant double white flowers from spring until fall frost arrives! (EG)(z7)(Cut,Hon,Fra)

**gaja077 Gardenia jasminoides Summer**  
Snow® FRAGRANT GARDENIA  
Tube \$15.95

The intoxicatingly fragrant, pure-white, double flowers really stand out against the lush dark green foliage on this 2-4' evergreen shrub. An excellent shrub for accent or container, in fact in a container it can be brought indoors for the winter. Be sure to situate this plant where you will be able to take in the delicious fragrance! S-PSh/M PP22797 (EG)(z6)(Fra,Cut)

## Gaultheria

**gapr010 Gaultheria procumbens Cherry**  
Berries™ WINTERGREEN  
Tube \$15.95

Clusters of very cute, bell-shaped, white flowers in summer produce masses of remarkably large, brilliant-red, ornamental berries that hold from fall all the way into spring. Dense, glossy evergreen foliage turns a marvelous wine-red color with cool winter temperatures. This wonderful edible reaches just 8" high with a spread of 3"! It is the perfect groundcover for your shade garden and it is also beautiful cascading over a bank or container. PSh-Sh/M PPAF (EG) (z3)(Ed,Hon,Cont)

**gapr142 Gaultheria procumbens Winter**  
Fiesta™ WINTERGREEN  
Tube \$15.95

An adorable and easy-going wintergreen from Japan with dark green, evergreen foliage, blushed with bronze, on compact, weeping and densely spreading 4-6"x12-36" plants. Summer flowers are racemes of delicate, white bells on contrasting orange stems. In the fall large, white berries are produced which turn cotton candy pink with cooler temperatures. A true all seasons beauty perfect for well-drained containers, borders, mass plantings, and pollinator gardens. PSh/MGDr PP30515 (EG)(z4) (JAPAN)(B&W,Ed,Hon,Med)

**gapr136 Gaultheria procumbens Winter**  
Splash™ VARIEGATED WINTERGREEN  
Tube \$15.95

This is a fantastic and festive groundcover, a rare variegated wintergreen with green and white leaves which blush with pink in the winter. Winter also brings scarlet-red, edible berries, making this a perfect plant for holiday decorating indoors and out. It needs part shade to full shade, is very cold hardy, and will tolerate unideal growing conditions such as poor soil and root completion. Very easy-going, fragrant, deer resistant, and edible. Try making tea with the leaves, eating the berries or adding them to baked treats! PSh-SH/MGDr (EG) (z3)(B&W,Fra,Ed,)

**gash125 Gaultheria shallon SALAL**  
Size1 6-12" \$29

This superb evergreen shrub native to the western United States is beautiful year-round creating spreading 3-6' thickets (perfect for birds) with large, deep-green, leathery leaves on red-stalks, its sweet spring into summer pink urn-shaped flowers are followed by very tasty blue-black berries, the berries were an important food source for Native Americans and are wonderful as a trail snack or in pies or jams. S-PSh/M (EG)(z7)(WNA)(WNA,Ed,B&W,Fra)

## Hamamelis

**haar055 Hamamelis intermedia Arnold**  
**Promise** YELLOW WITCH HAZEL  
**Tube \$29.95**

One of the finest of the yellow witch hazels, this delightful selection produces a prolific crop of large and sweetly-fragrant yellow ribbon-like flowers each year. This cultivar blooms somewhat later in spring than other varieties and over a longer period to extend the season. Becomes an upright spreading vase-shaped shrub to 12-20' with lovely yellow fall color. This selection was a Royal Horticultural Society of Great Britain Award of Garden Merit plant in 1993. S-PSh/M (Dec)(z6)(Cut,Fra)

**hadi560 Hamamelis intermedia Diane**  
**RED-FLOWERED WITCH HAZEL**  
**Tube \$29.95**

One of the very best of the red-flowering forms! The wonderfully spicy-fragrant, red to copper, thread-like, crinkled blooms on this gorgeous shrub are a real winter treat! Blooming as early as January, when you really need flowers! This 8-12' high and wide-spreading cultivar also provides handsome shades of yellow-orange-red fall color; magnificent at the woodlands edge. S-PSh/M (Dec)(z6)(Fra,DR)

**hamo578 Hamamelis intermedia**  
**Primavera** YELLOW WITCH HAZEL  
**Tube \$29.95**

Sweetly-scented and exceedingly floriferous, the bright lemon-yellow flowers of this vigorous 12-15' vase-shaped shrub appear later than many, extending the wonderful witch hazel season; rich yellow-orange autumn color is a welcome sight as well. S-PSh/M (Dec)(z6)(Fra,Cut)

## Hibiscus

**hisy037 Hibiscus syriacus Purple Pillar™**  
**COLUMNAR ROSE OF SHARON**  
**Tube \$15.95 Size1 1-2' \$29**

Very narrow and very decorative, this incredible fastigate Rose of Sharon grows 10-16' tall and only 2-3' wide! Summer finds it abundantly covered with large, showy, semi-double purple flowers. This wonderful shrub makes a great screen, entrance or patio plant. S/M PP25568 (Dec)(z5) (Con,Hum)

**hiwh006 Hibiscus syriacus White**  
**Chiffon** WHITE ROSE OF SHARON  
**Tube \$15.95 Size1 1-2' \$29**

The delicate pure-white flowers have lovely, lacy centers which almost look like anemones! Blossoms appear profusely in summer on this incredibly low-maintenance bush. This lovely and sturdy 8-10' shrub is perfect for accent or hedge. No proper moonlight garden can go without one! S/M PP12612 (Dec)(z5)(Bfly)

## Hoheria

**hose002 Hoheria sexstylosa Snowflurry**  
**LACEBARK/RIBBONWOOD**  
**Size1 1-2' \$29**

Lace-like fibrous bark, a fast-growing and tolerant nature, narrow, toothed and a profusion of small "snowflake" white flowers in late summer make this graceful tree wonderful for accent or woodland. S-PSh/M (SEG)(z8)(NZ)

## Holodiscus

**hodi035 Holodiscus discolor**  
**CREAMBUSH/OCEAN SPRAY**  
**Tube \$10.95 Size1 1-2' \$19**

A favorite, beautiful Western native! This gracefully arching shrub (6-12') is a cascade of white, late spring blooms and a subtle flame of orange in fall. S/M-D (Dec)(z5) (WNA)(WNa,Bon,Fra)

## Hydrangea

**hyar025 Hydrangea arborescens**  
**Annabelle**  
**SMOOTH HYDRANGEA**  
**Tube \$15.95 Size1 1-2' \$29**

An exquisite cultivar featuring blooms much larger than the species; sterile, white flower clusters appear in huge, rounded heads up to a foot across! Flowers appear in June, blooming for up to two months and sometimes repeat bloom in the fall. Featuring dark green, serrate leaves on a 3-5' rounded, deciduous shrub. 'Annabelle' is a delightful naturally occurring cultivar which was discovered growing near Anna, Illinois. This is a wonderful shrub for naturalizing in your woodland garden! PSh/M (Dec)(z4)(ENAm)(Fra,Cut)

**hyar045 Hydrangea arborescens**  
**Incrediball®** SMOOTH HYDRANGEA  
**Tube \$15.95**

This is a truly incredible specimen. The dazzling-white flower heads on this wonderful 4-5' eastern native shrub are each up to 1 foot across! The beach-ball sized blooms appear from mid-summer into fall on the sturdy stems of this handsome deep-

green shrub; the blossoms are beautiful cut or dried. S-PSh/M PP20571 (Dec)(z3) (Cut,Bfly)

**hyar015 Hydrangea arborescens**  
**Incrediball® Blush**  
**PINK FLOWERING SMOOTH**  
**HYDRANGEA**  
**Tube \$15.95**

This gorgeous hydrangea is well loved for their enormous soft-pink blooms help up on sturdy stems! The blooms on this North American native are up to one foot across and look stunning held over the bright-green foliage of this 4-5' shrub. The incredible blossoms dry well and can be kept in a vase or used for craft projects. This beauty blooms on new wood. S-PSh/M PP28280 (Dec)(z3)(ENAm)

**hyar122 Hydrangea arborescens**  
**Invincibelle® Garnetta**  
**SMOOTH HYDRANGEA**  
**Tube \$15.95 Size1 1-2' \$29**

This hydrangea is an absolute beauty! Summer blooms emerge on sturdy stems, a gorgeous garnet hue, maturing into a fine deep pink. Blooming begins slightly later than other smooth hydrangeas, but it will re-bloom occasionally throughout the summer, especially if spent blooms are removed. PPAF 'NCHA6' (Dec)(z3)

**hyma100 Hydrangea macrophylla Masja**  
**MOPHEAD HYDRANGEA**  
**Size1 1-2' \$29**

For container, small yard, or front-of-the-border accent, this 2-3' semi-dwarf sport of 'Alpenluhen' not only produces one crop of showy 4-6" red ball-shaped "flowers" but often two, along with handsome glossy foliage. S-PSh/M (Dec)(z6)(Cut)

**hypo099 Hydrangea paniculata Little**  
**Lime®** PEE GEE HYDRANGEA  
**Tube \$15.95**

A hardy delight for gardens of any size! It may be petite at 5ft x 5ft, but is also generous with lime green summer blossoms which mature into deep, burgundy-pink hues as fall approaches. Its vigorous stems resist drooping, and are ideal for fresh or dried cut flowers. PP22330 (Dec)(z3)

**hypo092 Hydrangea paniculata Phantom**  
**PEE GEE HYDRANGEA**  
**Size1 1-2' \$29**

Unbelievably huge, conical panicles (up to 15 inches) of creamy-white blooms which change to a soft pale-pink as they age grace this delightful 6-8' shrub. Blooms are held on stiff stems that do not droop from August through September. Prune back to buds 1 foot above the ground in March to keep it dense and to get the largest flowers.

This shrub is stunning as a specimen or astounding when mass planted. S/M (Dec)(z4)(Cut)

**hyqu048 Hydrangea quercifolia Queen of Hearts** OAKLEAF HYDRANGEA  
Size1 1-2' \$29

This royal hybrid of 'Snow Queen' x 'Pee Wee' forms a dense rounded shrub to 6' tall with a wider spread up to 9'. It is distinguished for its hefty, vertical, conical flower panicles (to 9" long) which open white but gradually mature to a striking deep rose-pink. This cultivar blooms one to two weeks later than most Oakleaf Hydrangea cultivars, extending the bloom season! Large, distinct, oak-like leaves are deep-green before turning rich shades of wine-red in autumn. Cinnamon colored exfoliating bark is revealed after leaf-drop for striking winter interest. This fabulous Hydrangea was hybridized by the U.S. National Arboretum in 1998 and introduced into commerce by the Arboretum in 2013. S/PSH-M (Dec)(z5)(Cut,Dry)

**hyqu081 Hydrangea quercifolia Ruby Slippers** OAKLEAF HYDRANGEA  
Tube \$15.95 Size1 1-2' \$29

Spectacular upright 9" inflorescences start out white before turning pink and then to a deep-dark rose make these compact 3-6'shrubs not only more usable for small gardens, but beautiful as well; a wonderful plant produced by 10 years of work by US National Arboretum. S-PS/M (Dec)(z5)(ENAm)(ENa,Cut)

**hyse045 Hydrangea serrata Yae no Amacha**

JAPANESE LACECAP HYDRANGEA  
Tube \$15.95 Size1 1-2' \$29

'Yae no Amacha' translates to "double sweet tea" as the 4-5in leaves of some H. serrata were at one time dried and cured to be used as a sweetener, or brewed for sweet tea. This charming lacecap blooms nearly all summer long, and may easily switch from pink to lavender to blue, depending on soil pH. S-PSH/M (Dec) (z6) (Japan) (Dec)(z6)(JAPAN)(Ornamental, B&W, Cut)

## Ilex

**ilca001 Ilex Castle Spire\***  
PYRAMIDAL FEMALE HOLLY  
Tube \$19.95

With its narrow pyramidal habit, dark green glossy leaves, and vigorous branching, this exceptional all seasons interest female holly is ideal for screens, hedges, foundations, or a charming specimen. Plant near a 'Castle Wall\*' for the added beauty of bright red winter berries! S-PSH/M PP14310 (EG)(z5)(B&W,Cut)

**ilaq078 Ilex aquifolium Ferox Argentea**  
MALE ENGLISH HOLLY

Size1 1-2' \$49

These "porcupine" leaves on this male holly are showy for their spines (present not only on leaf margins, but all over!) but also for their creamy-white edges. S/M (EG)(z6) (Cut,Hon)

**ilcr016 Ilex crenata Sky Pencil**  
COLUMNAR JAPANESE HOLLY

Tube \$15.95 Size1 2-3' \$29

This extremely narrow, columnar holly forms a wonderful upright pencil-shaped shrub to 10'tall and only 2-3' wide. An excellent hedge or screen as it is very adaptable to shearing or a knockout stand-alone specimen. The U.S. National Arboretum in Washington D.C. introduced this garden treasure which also tolerates air pollution! S/M (EG)(z6)(Bon)

**ilme043 Ilex meserveae Blue Princess**  
FEMALE BLUE HOLLY

Tube \$19.95 Size1 1-2' \$39

Beautiful in all seasons, this large shrub (to 15' high x 10' wide) has lustrous deep blue-green foliage on purple-tinted stems and a tremendous display of deep-red fruit (when her prince is present). S/M PPatent3675 (EG)(z5)(Hon,B&W)

**ilme063 Ilex meserveae Blue Stallion**  
MALE BLUE HOLLY

Tube \$19.95 Size1 1-2' \$29

This hardy male has small-spined, dark olive green leaves on purple stems on a vigorous upright plant. S/M (EG)(z5)(Hon)

**ilve066 Ilex verticillata Berry Heavy\***  
Gold GOLD-FRUITED WINTERBERRY  
Tube \$15.95

This winterberry hit the jackpot! Loads of large bright-gold berries cover the branches of this 6-8' treasure in fall, selected by the late Fred Case of MI; Mr. Poppins is the pollinator. S-PSH/M (Dec)(z3)(ENAm) (DR,Cut)

**ilve018 Ilex verticillata Berry Poppins\***  
WINTERBERRY HOLLY  
Tube \$15.95

A wonderful and heavy fruiting dwarf 3-4' winterberry that becomes absolutely covered with bright, glossy red berries that cover the branches and hold on long after leaf drop, a perfect choice for gardeners without a lot of space; Mr. Poppins is the pollinator, one male for up to seven females. S/M PP 25835 (Dec)(z4)(Proven-Winner)(B&W)

**ilve094 Ilex verticillata Mr. Poppins\***  
MALE WINTERBERRY  
Tube \$15.95

A sweet and very useful (3-4') shrub with lush green foliage! Mr Poppins is the male

pollinator required for Berry Poppins, Berry Nice and Berry Heavy to be able to show their abundant fruit. S/M PP25834 (Dec)(z3)(ENAm)(Cut,B&W,Hon)

## Itea

**itvi102 Itea virginica Fizzy Mizzy™**  
VIRGINIA SWEETSPIRE

Tube \$15.95

An extremely versatile Virginia sweetspire with an orderly habit and profusions of pleasantly scented, very upright flower spikes. Petite and tidy, this is a delightfully fragrant shrub for gardens of any size in full sun or shade. S-Sh/M (Dec)(z5)(ENA) (Bfly,Fra,Hon)

**itvi052 Itea virginica Little Henry®**  
LITTLE HENRY SWEETSPIRE

Tube \$15.95

This fine selection of a U.S. native shrub has fantastic compact growth to only two feet tall. Summer finds this prettily arching gem just covered in 4" long, bright-white and fragrant flower spikes. Its brilliant orange-red-maroon fall color makes a statement lasting into November. S-PSH/M-W PP10988 (Dec)(z6)(ENAm) (Fra,Cut,Cont)

## Juniperus

**jume064 Juniperus chinensis (media)**  
Daub's Frosted VARIEGATED JUNIPER  
Tube \$15.95 Size1 6" spr \$29

A favorite!, this low widespreading plant has pendulous branch tips and blue-green foliage that is "frosted" (in all areas exposed to sun) with brilliant gold adding unusual depth and interest. S/M-D (EG)(z4)(Bon)

## Kolkwitzia

**koam082 Kolkwitzia amabilis Jolene**  
Jolene™ COMPACT BEAUTY BUSH  
Tube \$15.95

Tubular, star-shaped pink flowers with bright yellow throats bloom at every node on the arching branches of this compact beauty bush in late spring or early summer. An excellent choice for small and large gardens alike, hedges, mass plantings, and containers. S-PSH/M (Dec)(z4) (B&W,Bfly,Hon)

## Lagerstroemia

**lain088 Lagerstroemia indica Infinitini\***  
Watermelon

DWARF PINK CRAPE MYRTLE  
Tube \$19.95

Intense watermelon-pink flowers bloom abundantly on this fantastic dwarf crape myrtle. This shrub grows 2-4' tall and just as wide giving it a wonderful mounding

look. Practically effortless to grow, no pruning or fussing needed. Bright shades of yellow, orange and red foliage in autumn drop to reveal eye-catching peeling bark. Fantastic in containers, pretty as a border or breathtaking when planted en masse. S/M PP29007 (Dec)(z6)

## Lavandula

**lapl069 Lavandula Platinum Blonde™**  
BLONDE VARIEGATED LAVENDER  
Tube \$10.95 Size1 \$19

With striking cream and green foliage and beautiful blue, early-summer flowers, this award winning compact (16-24") shrublet is perfect for container or border, vase or butterfly. S/M-D/GDr USPPP (EG)(z7) (Bfly,Hum,Cut)

**laan074 Lavandula angustifolia** Lavance  
Deep Purple ENGLISH LAVENDER  
Tube \$10.95 Size1 \$19

An upright, compact and bushy lavender, with dense, sweetly scented, grey-green foliage. Flowers are of one of the deepest purples available. A fantastic choice containers and small gardens, mass plantings and scented borders. (SEG)(z5)

**laan183 Lavandula angustifolia**  
Munstead MUNSTREAD LAVENDER  
Tube \$10.95

A compact form of this prized aromatic shrub with narrow leaves and lavender blue (bluer than most) flowers early in summer. S/M-DGDr (EG)(z5) (B&W,Bfly,Cut,Ed,Fra.)

**lasu040 Lavandula angustifolia** Super  
Blue SUPER BLUE LAVENDER  
Tube \$10.95 Size1 \$19

This gorgeous lavender boasts some of the deepest, darkest violet-blue flowers of all! The blooms contrast perfectly against the soft, green-blue, fragrant foliage with compact 12" mounding habit. This drought-tolerant shrub can be used for low hedges, rock and herb gardens or in containers and borders. S/M-D/GDr (EG) (z5)(Cut,Hon,Bfly)

**laan221 Lavandula angustifolia** Twickel  
Purple ENGLISH LAVENDER  
Tube \$10.95 Size1 \$19

This lavender named after Twickel castle in the Netherlands features fragrant, deep purple flower spikes which stand well above the compact, spicy scented, grey foliage. It's especially tall stems make this a very fine choice for cutting arrangements. S/M-D (EG)(z5)(MEDIT)(Cut,Hon,Fra,Ed)

**lain069 Lavandula intermedia** Gros Bleu  
LAVENDER

Tube \$10.95 Size1 \$19  
A favorite French lavender with especially deep purple-blue flower spikes (for L. intermedia), long stems (to approx. 3ft), and delicate, highly aromatic foliage. All of these wonderful qualities make this an exceptional choice for the garden, fresh or dried bouquets, sachets, and wreaths. S/M-D (EG)(z6)(FRANCE)(Bfly,Cut,Fra,Hon)

## Lindera

**libe060 Lindera benzoin** SPICEBUSH  
Size1 1-2' \$29

This wonderful dense, 6-12' shrub has a wide, rounded habit and produces showy yellow-green flowers clusters on bare branches in spring before the rich spicily-fragrant (when crushed or broken) leaves, red berries on female plants (ours are unsexed) have unique peppery taste and scent; deep golden-yellow fall color contrasts beautifully with the red fruits; this fine shrub native to the Eastern United States is the larval food of the spicebush swallowtail butterfly. S-PSh/M (Dec)(z5) (ENAm)(B&W,Hon,Fra)

## Loropetalum

**loch060 Loropetalum chinense**  
Razzleberri  
RED-LEAVED EG WITCHHAZEL  
Tube \$15.95 Size1 1-2' \$29

Deep pink fringed flowers make this spring show-off a hit in any garden where its 4-6' mounding habit and gracefully arching evergreen-leaved branches are handsome all year. S-PSh/M (EG)(z7)(Asia)

## Mahoberberis

**maa023 Mahoberberis aquisargentii**  
HYBRID MAHONIA  
Tube \$15.95 Size1 1-2' \$29

This unusual hybrid between Berberis and Mahonia becomes a lovely 6-8' evergreen shrub, featuring handsome variably spiny, glossy foliage which appears in leaflets of three rather than Mahonia's many and lacks the thorns of Berberis. Beautiful yellow blooms in early summer are followed by edible black berries. The foliage turns vivid shades of red in cold temperatures. This is a fine choice for specimen or hedge and is attractive to butterflies and birds. S-PSh/M (SEG)(z6)(DR,B&W,Med)

## Malus

**masa280 Malus sargentii**  
SARGENT CRABAPPLE  
Tube \$15.95 Size1 2-3' \$29 Size5 5-6' \$55  
A delightful dwarf crabapple from Japan grown for its unique broad, shrub habit becoming a 6-8'bush with no central leader; covered with masses of white flowers on alternate years, which are followed by pea-sized, sweet tasting, bright-red, long-lasting fruits which contrast beautifully with the golden-yellow autumn leaves; a wonderful addition to a mixed hedge or border; shows good disease resistance as well. S/M (Dec) (z4)(Japan)(B&W,Fra,Bon)

## Myrtus

**myco110 Myrtus communis** Variegata  
VARIEGATED MYRTLE  
Tube \$15.95 Size1 6-12" \$29

Such a delightful plant! This 5-6' shrub has bright glossy-green leaves margined in a showy creamy-white. Summer brings abundant white blooms which are sweetly scented. The blossoms give way to tiny blue-black fruits which are used to make 'Mirto', a much loved herbal liqueur drunk all over Sardinia. This fine evergreen shrub is perfect for specimen planting or formal hedges. This a very choice plant, great for Mediterranean and Xeric gardens. S/M-D/GDr (EG)(z8)(Fra,Bon,Liqueur)

## Osmanthus

**osde032 Osmanthus decorus** Baki  
Kasapligil TURKISH OSMANTHUS  
Tube \$19.95

A delightful addition to the Sweet Olive tribe! Long, leathery, smooth leaves add a wonderful elegance to this rare 6-8' evergreen shrub. Tiny-white blossoms in spring give rise to the sweet, heady fragrance that Osmanthus are so well known for. Its medium-dark-green foliage contrasts nicely in the garden. This deer-resistant shrub is a low-maintenance treasure. Roy Lancaster collected this fabulous cultivar in Turkey. S-PSh/M-D (EG)(z7)(Turkey)(Fra)

## Physocarpus

**phca180 Physocarpus capitatus**  
WESTERN NINEBARK  
Tube \$15.95 Size1 1-2' \$29

Found growing along lakes, streams and in the damp woods of the western United States. This 4-12' currant-like large shrub has brilliant-green foliage and wonderful rounded bright-white flower clusters resembling a snowball. The foliage turns excellent shades of red and orange in the autumn. This shrub makes a nice addition

*"Last week I received my first order from Forestfarm and I was thrilled to see all the excellent seedlings - they far exceeded my expectations as I have ordered plants through the mail for years and become tolerant of lesser merchandise!" (Southlake, Texas)*

to the damp wild garden. Its fibrous roots also make it an important plant for stream bank stabilization. S-PSh/M-W (Dec)(z5) (WNA) (WNA) (B&W, Bfly)

**phop096 Physocarpus opulifolius Center Glow™**

GOLD & BURGUNDY NINEBARK  
Tube \$15.95

The dramatic foliage of this 6-8' vase-shaped shrub opens up a greenish-gold before maturing to a deep, dark-burgundy. The effect is an amazing contrast, especially on those intermediate leaves which are burgundy with a gold center! White-tinted-pink summer flowers stand out against the foliage before they become showy dark-pink fruit. A fine introduction from Bailey Nursery. S/M PP16984 (Dec)(z4) (Bfly)

**phop029 Physocarpus opulifolius Ginger Wine™ NINEBARK**

Tube \$15.95

Outstanding burgundy-red foliage on this fine upright (to 6') shrub really glow in the summer sun, bright white spring flowers become decorative red seedheads for added interest. S/M PPAF (Dec)(z3) (Cut)

## Pinus

**piba068 Pinus banksiana Manomet DWARF JACK PINE**

Tube \$29.95 Size 1 6-12" \$49

This very slow growing (one to two inches per year) hardy conifer eventually reaches a diminutive 2-5' in height. This unique shrub creates an interesting and irregular form which is somewhat globose and features medium dark-green needles. This cultivar was first selected in 1979 by Al Fordham; this is a good-looking specimen that is simply adorable! S/M (EG)(z2) (Bon, Cont)

**pist092 Pinus strobus Blue Shag DWARF BLUE EASTERN WHITE PINE**

Tube \$29.95 Size 1 1-2' \$49

The outstanding 4-6' dwarf white pine forms a very dense mound of attractive, bright blue-green needles. The lovely needles (bundled in fives) are soft to the touch, so this treasure can be planted near walkways or any trafficked area. This award

winning specimen is very low-maintenance and perfect for rock gardens or containers. S/M (EG)(z3) (Bon, DR, Cont)

**pist066 Pinus strobus Niagra Falls WEEPING EASTERN WHITE PINE**

Tube \$29.95 Size 1 1-2' \$49  
Gracefully pendulous stems radiate out on this distinctive and rare weeping broom of *Pinus strobus* 'Pendula'. Long, bright, bluish-green needles give this 3-6' tall by 4-8' wide multi-stemmed shrub look lush. The gently cascading horizontal growth makes it an excellent specimen for rock garden or groundcover. To get height out of this shrub, it must be staked; this cultivar was a 2009 selection for Collector's Conifer of the year. S/M (EG)(z4) (ENAm) (ENAm)

**pist050 Pinus strobus Sea Urchin DWARF EASTERN WHITE PINE**

Tube \$29.95 Size 1 6-12" \$49  
Extremely dwarf, making a 3 x 4' flattened mound this cute little sea-urchin of a conifer forms a tight, dense bun of short light-blue needles; very slow growing, only one to two inches a year, but such a delight! S-PSh/M (EG)(z3) (Bon)

**pisy018 Pinus sylvestris Little Brolly DWARF SCOTS PINE**

Size 1 6-12" \$49  
So incredibly tiny and cute, a weeping broom so unusual you would never guess it was a Scot's Pine; after 10 years this little wonder will be a 10" x 18" flat-topped mound, this is the perfect conifer for miniature plant enthusiasts or rock garden accent. S/M (EG)(z3) (Bon, Cont)

**pith434 Pinus thunbergii Thunderhead JAPANESE BLACK PINE**

Tube \$29.95  
One of the prettiest dwarf conifers, this compact Pine has pure-white buds spectacularly set off by its long, deep-green needles...somewhat like the dark and light combinations of a thunderhead! S/M (EG)(z6) (Bon)

**pith096 Pinus thunbergii Yatsubusa JAPANESE BLACK PINE**

Size 5 3-4' \$85  
Reaching only 3-4 feet in height and spread, 'Yatsubusa' is a popular dwarf form of the Japanese Black Pine. Dense & spreading in form, and showcasing white "candles" in the springtime that serve as an interesting contrast to the dark green needles. S/MG (EG)(z6)

*"\*--I must commend you on your beautiful job of packaging my order - they arrived looking fresher than most of the plants I find in our local nurseries." (Sequim, WA)*

## Pittosporum

**pite018 Pittosporum tenuifolium Silver Sheen SILVER-LEAVED PITTOSPORUM**

Tube \$15.95  
The pale silvery-green leaves on black branches of this large 9-12' shrub are exceptional for flower arrangers; it also offers an abundance of fragrant white summer flowers; great hedge or accent. S/M (EG)(z8) (Fra, Cut)

**pito491 Pittosporum tobira Variegatum VARIEGATED EG MOCK ORANGE**

Tube \$15.95  
The bold lustrous gray-green leaves of this 6-8' shrub are attractively edged in creamy-white making a showy, compact mound of evergreen foliage highlighted in spring by delightfully orange-blossom-scented, white flowers. S-PSh/M (EG)(z8) (Cut, Fra)

**pito490 Pittosporum tobira Wheeler's Dwarf**

DWARF EVERGREEN MOCK ORANGE  
Tube \$15.95 Size 1 6-12" \$29  
The shiny evergreen foliage of this compact mound is attractive all year! A dwarf rounded shrub reaching 2-3' wide and 4-5' in width. In spring come the delightful clusters of creamy-white flowers with their heavenly scent of orange blossoms! This is a choice selection; easy-care, waterwise, and tolerates urban pollution and coastal conditions. Beautiful planted in groupings, also nice in large containers. S/M (EG)(z8) (Fra, Hon)

## Prunus

**prla078 Prunus laurocerasus Otto Luyken DWARF ENGLISH LAUREL**

Tube \$15.95 Size 1 6-12" \$29  
This easy-care dwarf cherry laurel makes a fine compact hedge or specimen. It features a lovely spreading habit reaching only 4' high and 6-8' wide. This fine shrub has deep-green evergreen foliage and masses of small white flowers in spring which turn to interesting black cherry-like fruits in the fall. This elegant plant makes a lovely accent and it is also beautiful when massed. S-Sh/M (EG)(z7) (Fra, Hon)

## Punica

**pugr020 Punica granatum Nana DWARF POMEGRANATE**

Tube \$15.95  
A charming dwarf to only 3-6', even the flowers and fruits are dwarf, the form features little, narrow leaves and abundant small, funnel-shaped, scarlet flowers in late-summer which become very cute small rounded red fruits. S/M-D (Dec)(z8) (Asia) (Bon, DR)

## Pyracantha

*pysa048* **Pyracantha koidzumii** Santa Cruz RED-BERRIED FIRETHORN  
Tube \$15.95

A more diminutive firethorn, reaching 3-6' in height and wide-spreading to 5-10', making it more manageable in size. This good-looking evergreen shrub provides interest throughout the whole season. In spring multitudes of tiny bright-white flowers emerge which are followed in fall by beautiful bright-red fruits that persist into winter. The flowers and berries are highly attractive to bees and birds making this a great plant for wildlife. Makes a very effective screen, hedge or bank cover; however this tough plant is fortified with robust thorns, be sure to keep it away from paths with heavy foot-traffic. A great choice for coastal conditions! S/M (EG)(z7) (B&W,Hon,Coastal)

## Quercus

*qusa115* **Quercus sadleriana**  
SADLER OAK  
Tube \$19.95

Native to the Siskiyou Mountains in the fabled home of Big-Foot, this rare and special species often shares the steep slopes with the western Rhododendron. The large, leathery, chestnut-like dark-green leaves have toothed edges and distinct lateral veins; the foliage emerges with a lovely bronze tint. Small egg-shaped acorns are another attractive feature of this wide-spreading, 6 foot shrub. This unusual beauty of an oak is an important butterfly plant for the California Sister and the Gold-Hunter's Hairstreak. S-PSh/M-D-GDR (SEG)(z6)(Bfly,DR,B&W)

## Rhododendron

*rhro116* **Rhododendron Rosy Lights**  
HARDY AZALEA  
Tube \$15.95

The masses of fragrant, large (to 3") deep rosy-pink flowers with a darker rose splotch produced by this very hardy azalea are sure to brighten any northern spring. This cultivar is a fine selection from seedling azaleas in the Northern Lights series, bred for superior hardiness with buds that can withstand temperatures of -30 to -45 degrees F. Larger than some azaleas this will become a beautiful rounded 6-8' shrub with a spreading habit. Stunning again in fall when the foliage turns shades of yellow, red and purple. S-PSh/M (Dec)(z4)

*rhoc095* **Rhododendron occidentale**  
WESTERN AZALEA

Tube \$19.95  
Among the finest of the cultivated azaleas, this 8-15' shrub is native to Oregon and California. The only azalea native to west of the Rockies, it is found growing along streams and in moist woods. A delight in spring when covered with its delightful, very fragrant, white to pale-pink flowers tinted with pink and yellow (they can be fairly variable in coloring!) Absolutely gorgeous again in fall when the leaves are brilliant shades of orange-red. PSh/M (Dec)(z7)(WNAm)(WNAm,Fra,Bon)

## Rhus

*rhar156* **Rhus aromatica** Grow-Low DWARF FRAGRANT SUMAC  
Size1 1-2' \$29 Size5 2-3' \$55

Low growing (2 1/2') and spreading groundcover sumac for massing or bank control; leaves are aromatic when crushed, as are small yellow spring flowers, and it really shines in fall when glossy trifoliate leaves turn shades of gold, orange, and red. S/M-D (Dec)(z4)(B&W,Hon)

*rhgl558* **Rhus glabra** Laciniata CUT-LEAF SMOOTH SUMAC  
Tube \$15.95 Size1 1-2' \$29

This female selection has bright scarlet fruits and deeply cut and lobed feathery leaves which have excellent fall color—more red than *Rhus typhina*; smaller and less rambunctious than the species. S/M-D (Dec)(z3)(Hon,Cut,B&W)

## Ribes

*riru125* **Ribes rubrum** Red Lake RED CURRANT

Tube \$12.95 Size1 1-2' \$25  
Profusions of long drooping clusters of medium-large bright red and juicy currants ripen in mid-summer, on vigorous, upright shrubs, with attractive, medium green, lobed foliage which is aromatic when crushed. In addition to being enjoyed fresh, the berries are prized for a variety of culinary purposes. S-PSh/M (Dec)(z3) (EUROPE)(B&W,Bfly,Hon)

*risa055* **Ribes sanguineum**  
RED-FLOWERED CURRANT  
Size1 1-2' \$25

Bright rosy-red flowers in dangling clusters very early in spring make this medium-sized shrub outstanding; blue fruits and yellow fall color follow; the native species, from which so many nice varieties have sprung. S-PSh/M (Dec)(z6)(WNAm) (WNA,Hon,Cut)

## Rosa

*roca084* **Rosa canina** DOG ROSE  
Tube \$10.95

An interesting and historic rose from the hedgerbanks and downs of Europe; known as the dog rose as it was once thought that its root could cure dog bites, this easy-going variable-sized shrub (3-15') produces a plentiful supply of 1-2 inch fragrant, pink, single, wild roses during early summer followed by egg-shaped bright red fruit; due the high vitamin C content of the hips, this rose was widely planted in US Victory Gardens during WWII. S/M (Dec)(z6) (Europe)(Fra,Med)

*ronu175* **Rosa nutkana** NOOTKA ROSE  
Tube \$10.95 Size1 1-2' \$19

The strikingly handsome flowers of this variable 3-6' thicket forming shrub may be as much as 3 1/2" across and range from pale-pink to deep-rose. The pretty single roses are followed by are followed by bright-red hips, the hips are edible and said to be tastier when bletted. This rose is native to the pastures, woodlands, prairies and meadows of much of the American west, from Alaska to the Rockies. This species was used by several Native American tribes for food, art and medicine. It is the larval host of the mourning cloak and grey hairstreak butterflies. Its dense root system makes it a fine choice for erosion control. S-PSh/M-D (Dec)(z6)(WNAm) (WNA,B&W,Ed,Coastal)

*ronu190* **Rosa rugosa** TOMATO ROSE  
Tube \$10.95 Size1 1-2' \$19

A wonderful and very easy-going rose; large and exceptionally fragrant flowers that are generally pink, but sometimes white or red are followed by large edible hips giving it the common name of Tomato Rose. These 6' shrubs also have gorgeous red-orange fall color; a perfect choice for hedges, these roses are extremely adaptable, they will even grow in salt spray! S/M (Dec)(z4)(Asia)(Fra,Ed,B&W)

*rovi200* **Rosa villosa** (pomifera)  
APPLE ROSE

Tube \$10.95  
This delightful medium-sized shrub reaches 4-6' and covers itself with showy single pink flowers in summer followed by

a profuse crop (5 to 10 pounds!) of extra-large red fruits that are up to one inch in diameter and are a great source of vitamin C, often used to make a wonderful rose hip jelly; the pretty leaves turn a soft yellow fall. S/M (Dec)(z4)(Europe)(Ed,B&W,Fra)

**rowo215 Rosa woodsii**

MOUNTAIN ROSE

Tube \$10.95 Size1 1-2' \$19

This native rose is found growing from Alaska and Canada to the western and central United States. Single, fragrant flowers are variable in shades of pink and ripen into ornamental bright red hips. The medium-green leaves turn an excellent orange-red color in fall. These 6-9' tall prickly shrubs spread by suckers to form large clumps. S/M (Dec)(z5)(WNA m)(WNa,B&W)

## Rosmarinus

**roof087 Rosmarinus officinalis**

Huntington Carpet

TRAILING ROSEMARY

Tube \$10.95

The exceptionally bright blue flowers of this variety are a beacon for bees and butterflies. Creates a mass of dense, low spreading foliage just 1-2' tall and wide spreading to 4-6' wide. This rosemary is perfect for covering a sunny bank or cascading over a large container. A useful plant which is deer resistant and also a good cultivar for culinary use. S/M-D/GDR (EG)(z7)(Fra,Ed,Hon)

**roof155 Rosmarinus officinalis**

Lockwood deForest

TRAILING ROSEMARY

Tube \$10.95

An elegant rosemary perfect for cascading beautifully over walls or trailing between rocks, with deep green, aromatic (and delicious) foliage, and profusions of light blue spring, fall, and winter blooms. (EG)(z7)

## Rubus

**ruod070 Rubus odoratus**

PINK-FLOWERING THIMBLEBERRY

Tube \$10.95

"Excellent shrub for the wild garden" with 1-2" fragrant pink flowers during summer, red-raspberry-like fruits, and velvety maple-like leaves. S-PSh/M (Dec)(z5)(ENAm)(ENa,Fra,B&W)

## Salix

**saex034 Salix exigua** COYOTE WILLOW

Size1 1-2' \$29

This lovely U.S. native is one of the most silvery willows known (making it just glow in the moonlight!), this clump-forming

10-20'shrub spreads by basal shoots to form colonies; pretty pinkish stems contrast with the creamy spring catkins and the very narrow silver leaves; a very useful willow for stabilizing banks, also used for poles, basketry, twine and medicine. S/M-W (Dec)(z5)(WNA m)(WNa,Bas,Hon)

**sain636 Salix integra** Hakuro nishiki

DAPPLED WILLOW

Tube \$15.95 Size1 1-2' \$29

The rare and graceful has a superbly elegant habit and eye-catching foliage that is brilliantly variegated with large patches of white and pink most of the season. This attractive cultivar features fast-growth to 4-6', this shrub in wonderful as part of a water feature or in a large pot. A striking accent plant that is sure to be noticed. S/M-W (Dec)(z4)(Japan)(Bfly,Hon,Cont)

**sali540 Salix ligulifolia** Placer

PLACER WILLOW

Tube \$15.95

For streambank or wild garden, this native clone selected by the SCS is a 3-15' multi-stemmed shrub with dark-grey bark and light green linear leaves. S/M-W (Dec)(z5)(WNA m)(Hon)

**sama050 Salix matsudana** Umbraculifera

GLOBE WILLOW

Tube \$15.95 Size1 1-2' \$29

The upright branches and pendulous side branchlets make a rounded umbrella of this tall shrub willow; tough and hardy. S/M-W (Dec)(z5)(Hon)

## Sambucus

**sani019 Sambucus nigra** Black Lace™

CUTLEAF PURPLE ELDERBERRY

Tube \$19.95

Intensely purple-black foliage makes this 6-8' shrub a standout in the garden. The foliage is beautifully dissected and the lovely dark leaves are amplified by massive clusters of soft-pink, lemon-scented flowers. Stunning black berries appear in fall with the proper pollinator, 'Instant Karma' will pollinate this cultivar and planted together they will both add stunning texture and color to the landscape! S-PSh/M PP15575 (Dec)(z5)(Ed,Fra)

**sara015 Sambucus racemosa**

Lemony Lace RED ELDERBERRY

Tube \$19.95

Lacey, delicate and very finely cut bright-yellow new growth leaves weep on this 3-5' shrub. White spring flowers and red fall fruit complete this plant. Part shade needed in southern states. S-PSh/M PPAF (Dec)(z3)(WNA m)(B&W,Cont,Ed)

## Spiraea

**spbe035 Spiraea betulifolia** Tor

BIRCH-LEAF SPIREA

Tube \$15.95 Size1 6-12" \$29

This fabulous selection makes a compact 2-3' mound of deep-green birch-like leaves. This shrub is decorated with a profusion of small flattened clusters of brilliant-white flowers in late spring. Autumn brings exceptional shades of orange, red and purple to the foliage. A perfect addition to the pollinator garden as it is very attractive to butterflies. S/M (Dec)(z4)(Bfly,Hon)

**spbu025 Spiraea bumalda** Dart's Red

HOT PINK SPIREA

Tube \$15.95 Size1 1-2' \$29

Spring-into-summer finds this easy-going shrub just covered with brilliant hot-pink blooms which fade to a softer rosy-pink with age. The fine foliage emerges a bright pinky-red before mellowing to blue-green for summer and then back to reddish purple in autumn. This densely-compact mounding shrub grows to 3' tall with a wider spread to 5'. This is a fabulous choice for accent, foundation or mass planting. S/M (Dec)(z4)(Bfly,DR,B&W)

**spdo057 Spiraea douglasii** douglasii

WESTERN MTN. SPIREA

Tube \$10.95 Size1 1-2' \$19

This small (to 3') shrub of western mountain meadows has silver-"furred" buds and leaves (silvery beneath) which complement its 3-4", rose-pink flower clusters in summer and then turn to a glowing orange for fall. S/M-W (Dec)(z5)(WNA m)(Bfly,Cut,DR)

**spja030 Spiraea japonica** Double Play™

Candy Corn ORANGE-LEAVED SPIREA

Tube \$15.95

You cannot miss the dayglow show of color on this 24" x 30" shrub, bright-red spring growth turns to orange-yellow with red and then bright-purple blooms appear in late spring! S-PSh/M PPAF (Dec)(z4)(Japan)(Bfly,Cut,DR)

**spva082 Spiraea vanhouttei** Renaissance

BRIDAL WREATH SPIREA

Tube \$15.95

Masses of pure white spring blooms attract butterflies on this fast-growing, cold hardy and classically gorgeous shrub. Foliage is bluish green, and branches arch gracefully, lending this plant to many landscape applications. Plant in mass, borders, cutting gardens, wildlife gardens, hedges or in urban settings. S/M (Dec)(z3)(Bfly,Cut)

## Symphoricarpos

### *syal030* **Symphoricarpos albus**

COMMON SNOWBERRY

Tube \$9.95 Size1 1-2' \$15

Grown for its large snow-white fruits which persist through the winter making it a singularly beautiful 3-6' shrub. Native to the western and central U.S., this thicket forming shrub is has pretty soft-pink spring blooms and is tough, adaptable and very attractive to song birds. This exquisite shrub was one of the many collected by the Lewis and Clark expedition. The seed were given to Thomas Jefferson who sent it to the nurseryman Bernard McMahon who called it snowberry for its pure-white berries. Jefferson's Monticello was one of the first gardens this plant was grown in before becoming a popular novelty plant in England. It has historically been used by some Native American tribes medicinally. S-Psh/M-D (Dec)(z4)(WNA)(Bas,B&W)

## Syringa

### *sybe094* **Syringa** Betsy Ross LILAC

Tube \$15.95

For warm (or cool!) climates, this mildew-resistant! 10' x 12' with shrub is adorned with a fluffy coverlet of pure white fragrant flowers in spring; the first National Arb Lilac, bred by Don Egolf over 40 years. S/M (Dec)(z5)(Cut,Fra)

### *syjo632* **Syringa** Josee DWARF LILAC

Tube \$15.95 Size1 1-2' \$29

The result of hybridizing between 3 dwarf lilacs (*S. meyeri*, *S. patula*, and *S. microphylla*) has produced this mid-size 4-6' beauty. With leaves half the size of *S. patula* and long trusses of fragrant bright-pink flowers. Ideal planted in the mixed border, container or foundation. S/M (Dec)(z5) (Fra,Bfly)

### *syre060* **Syringa** Red Pixie LILAC

Tube \$15.95 Size1 1-2' \$29

Flowers opening dark red-purple, fading to soft-pink give a two-tone effect to this daintily-leaved, daintily-sized (to 4-6') Lilac. S/M (Dec)(z4)(Fra,Cut)

### *sybl068* **Syringa Bloomerang®** Dwarf

Pink RE-BLOOMING DWARF LILAC

Tube \$15.95

This lilac may be small at 3' x3', but it is concentrated with sweet smelling pink blooms beginning in late spring, and continuing through summer and fall. With its petite and rounded habit comes convenience and versatility. Plant anywhere you would like fragrance and color: along borders, under windows, lining walkways, and in containers. (Dec)(z3)(B&W,Bfly,Cut,Fra)

### *syvu091* **Syringa vulgaris** Albert F.

Holden LILAC

Tube \$15.95 Size1 1-2' \$29

Unique and beautiful, the flowers of this compact 7 foot shrub have petals that are deep violet-blue on the top and silvery underneath, making it appear bi-colored; named for the founder of Holden Arboretum. S/M (Dec)(z4)(Cut,Fra)

### *syvu034* **Syringa vulgaris** Bridal

Memories LILAC

Tube \$15.95

Fragrant, creamy-white single flowers are stunning set against the emerald green leaves of this lush 10' shrub. This is a wonderful variety for bridal bouquets, cut flower arrangements or moonlit gardens. The fragrant blooms are a favorite of bees and butterflies. S/M (Dec)(z4)(Fra,Cut,DR)

### *syvu530* **Syringa vulgaris** Charles Joly

HYBRID LILAC

Tube \$15.95 Size1 1-2' \$29

Deep wine-colored buds open to become pinkish-violet, deliciously fragrant, double flowers! These lovely blooms provide a fabulous color variation for lilac lovers. This is a strong growing upright 8-10' cultivar with deep emerald-green foliage; perfect for a specimen, hedge or in a vase. S/M (Dec)(z4)(Ed,Fra,Cut)

### *syvu540* **Syringa vulgaris** President

Grevy BLUE HYBRID LILAC

Tube \$15.95 Size1 1-2' \$29

A beautiful double-flowered French hybrid Lilac, this prolific bloomer features pale lavender flowers with tints of violet-blue that are so pretty contrasting the dark-green heart shaped leaves. This lovely shrub has the sweet pure lilac scent making it a wonderful 1 cut flower. This is an easy-going 10-12' shrub that is such a treat in spring! S/M (Dec)(z4)(Hybrid)(Fra,Cut)

## Tecoma

### *tech114* **Tecoma** Chicklet™ Orange

ESPERANZA

Tube \$15.95

A striking shrub with lightly fragrant, bright orange, trumpet-like flowers similar to those of trumpet vine, yet in a compact, manageable shrub form. The colorful tubular flowers re-bloom, or bloom continuously all summer attracting hummingbirds, butterflies and other beneficial pollinators. In cooler climates, grow this esperanza in containers, and protect them through winter to enjoy the following year. Prune while dormant in early spring. Deer resistant, heat and drought tolerant. S/M (Dec)(z8) (B&W,Bfly,Fra)

## Ternstroemia

### *tegy036* **Ternstroemia gymnanthera**

Bigfoot™ Cleysera

FALSE JAPANESE CLEYERA

Size1 1-2' \$29

A fine ornamental choice for evergreen privacy hedges, containers, borders or to train along a wall. Extremely glossy leaves emerge bronze in the spring, maturing a bold dark green and remain consistently attractive through winter. Pruning will encourage compact growing on these upright, somewhat oval shrubs. PP13680 S-Psh/M (EG)(z7)(B&W)

## Thuja

### *thoc035* **Thuja occidentalis** Tiny Tim

DWARF ARBORVITAE

Tube \$15.95 Size1 6-12" \$29

Dense, slow-growing and very dwarf (to 12" high x 16" wide in 10 years), this diminutive conifer is a wonderful bonsai or container subject. S/M (EG)(z4)(ENaM) (ENa,Bon)

## Vaccinium

### *vaov052* **Vaccinium ovatum** Cascade

Sunburst™

VARIEGATED EG HUCKLEBERRY

Size1 6-12" \$39

Ornamental and productive, this upright and neat evergreen huckleberry wears brilliant coral new foliage, which gradually settles green with creamy white variegation. Pale pink, urn-shaped spring flowers are followed by tiny, delicious purple-black summer berries. For maximum fruit production, you will want to plant 'Cascade Sunburst' with a second variety of evergreen huckleberry. S-Sh/MGDr (EG)(z7) (WNA)(B&W,Hon,WNa)

## Viburnum

### *viop072* **Viburnum opulus** Aureum

GOLDEN-LEAVED EUROPEAN

VIBURNUM

Size1 1-2' \$29 Size5 4-5' \$65

A striking, more compact form of an old-favorite, with bright-yellow to lime-green leaves; it may, as do many yellow-leaved plants, burn in full sun. S-Psh/M (Dec)(z5) (Cut,Ed)

### *viti044* **Viburnum tinus** Spirit®

VIBURNUM

Tube \$15.95

More compact and earlier to bloom, this 5-6' all-season shrub offers dense dark-green evergreen foliage and pretty, pink flower buds that appear as early as December! Bright-white flowers in early spring

followed by blue-black fruit. This shrub makes a great hedge or border and is also salt tolerant. S-PSh/M (EG)(z7)(Cut,DR)

## Vitex

*viag088* **Vitex Blue Diddley**  
COMPACT CHASTE TREE  
Tube \$15.95

This charming little 3-6' dwarf chaste-tree is a wonderful addition to your container garden or patio! The gorgeous lavender-blue flower spikes bloom in mid-summer over deliciously fragrant foliage. This medicinal shrub is loved by bees and perfect for the pollinator or Xeriscape garden. S/M-D PPAF (Dec)(z5)(Fra,Bfly,Cont)

*viag160* **Vitex agnus-castus**  
CHASTE TREE  
Tube \$15.95

A large shrub or small tree which tolerates many conditions and provides good late summer color with its blue flower spikes. S/M-D (Dec)(z7)(SAMERICA) (Hon,Bfly,Med)

## Weigela

*wefl048* **Weigela Wine and Roses™**  
WINE & ROSES WEIGELA  
Tube \$19.95

Glossy burgundy-wine foliage makes a picture-perfect background for the large rose-pink flowers of this fine 4-5' Dutch selection. S/M PP10772 (Dec)(z5)(Cut, Bfly)

*wefl096* **Weigela florida Ghost™**  
CARDINAL SHRUB  
Size1 1-2' \$29

The remarkable foliage of this 4-5' shrub starts out a deep, yellow-green before changing to a shimmering, ghostly, pale-yellow as the season progresses. Dark-ruby-red flowers in provide a striking contrast to the foliage in spring and they rebloom again sporadically until frost. This shrub makes a fine specimen or informal hedge and is very attractive to hummingbirds and butterflies. S-PSh/M PP20025 (Dec)(z4) (Bfly,Hum)

*wefl037* **Weigela florida Minuet**  
PINK CARDINAL SHRUB  
Tube \$15.95 Size1 1-2' \$29

This wonderful dwarf variety typically reaches 3' tall and 5' wide, developed in Canada for improved cold tolerance. The pretty foliage is green-tinged-purple and gives some color to the garden all season long. In early summer this shrub produces a profusion of lightly fragrant, hot-pink flowers with a yellow throat; the bright blooms will then return sporadically throughout the summer. This is a great

choice for pollinators as it is much loved by hummingbirds and butterflies. S/M (Dec)(z5)(Hum,B&W)

*wefl008* **Weigela florida Rumba**  
HARDY CARDINAL SHRUB  
Tube \$15.95 Size1 1-2' \$29

A wonderful and hardy shrub with terrific color! Ideal for smaller gardens, this 3 x 3' shrub has deep-green leaves which are tinged with a pretty bronzy-purple. Loads of hot-pink-red blooms with yellow-throats appear from June to September. This is a perfect shrub for pollinator gardens and it is easy-care too; adaptable to many soil types and urban conditions. S/M (Dec)(z5) (Bfly,B&W)

## Westringia

*wefr125* **Westringia fruticosa Morning Light** COAST ROSEMARY  
Tube \$10.95

A handsome evergreen shrub for warm climates with creamy variegated margins, on grey-green, tightly crowded fragrant leaves. Its 1/2in flowers are white with delicate freckles, primarily blooming in the spring. Moist well-drained soils are preferred, and coastal conditions are very well tolerated. (EG)(z9)

*wefr112* **Westringia fruticosa Smokey**  
COAST ROSEMARY  
Tube \$10.95 Size1 1-2' \$19

A very attractive warm climate evergreen, upright shrub which densely grows leaves with creamy variegation along the margins, and a grey-green smokey appearance. White mint family flowers may bloom in all seasons, but are most prolific in the spring. (EG)(z9)(B&W,Cont,Fra)

## Yucca

*yuba028* **Yucca baccata DATIL YUCCA**  
Tube \$10.95

Also known as the Banana Yucca, this hardy Yucca hails from the juniper or oak woodlands and open grasslands of the American southwest into Mexico. Incredibly useful, not only does it produce sweet fruit, the fiber from the leaves is excellent for basketry. The roots contain high levels of saponins that can also be used for soap. Forming no trunk, the stout sword-like

leaves of blue-green make an attractive accent in a sunny garden, especially when they hold 1-3' spikes of large, pendulous creamy-white flowers! Native Americans of the southwest prized this plant for its utility. Outside of its native area it must be hand pollinated as the moth that usually does this work isn't present. S/M-D/GDr (EG)(z5)(WNA)(WNA,Ed,Cont)

*yufi030* **Yucca filamentosa**  
ADAMS NEEDLE YUCCA  
Tube \$10.95 Size1 \$19

A dramatic accent plant, this darling yucca is native to the beaches and dunes of the southeastern United States. Forming a basal rosette, the rigid, sword-like leaves of this yucca have edges which peel off and curl like threads. The 2-3' clumps give rise to dramatic, 5-8' spikes of large, creamy, waxen bells in summer. The blossoms are very attractive to butterflies; this plant does well in a surprising number of locations adapting to drought, salt and pollution. S/M-D (EG)(z5)(ENAm)(ENa,DR,Bas)

*yugl035* **Yucca glauca SOAPWEED**  
Tube \$10.95

This hardiest of all yuccas, this interesting specimen is native to the central United States, from Canada to Texas! Providing an attractive 1-6' rosette of very-narrow and pointed silver-gray leaves for winter interest and slender spikes of creamy-white summer flowers which nod like bells. Commonly called soapweed because the root can be pounded to make suds for washing; this plant was used by many Native American tribes for food, basketry and rope making. S/M-D/GDr (EG)(z3)(WNA)(WNA,Ed,Fra)

## Zanthoxylum

*zasi028* **Zanthoxylum simulans**  
CHINESE PRICKLY-ASH  
Tube \$19.95

A temperate, diecious shrub native to eastern China and Taiwan. They are known for extensive medicinal uses and the Szechuan peppers common in Chinese and Indian cuisine. Plants are upright and vase-shaped with dark green glossy, pinnately compound leaves that are strongly aromatic when bruised.

Summer flowers are small and green, may lead to red fruits. Ours are unsexed seedlings. (Dec)(z5) (ECHINA)

# SPRING FLOWERS

Not only a beautiful sight to see after the end of another winter, these beloved blooms provide food for pollinators as well.

**A. cog1500 Corylopsis gotoana**  
CHINESE WINTER HAZEL

Tube \$15.95

The soft yellow-green flowers on bare-branches in spring are a delight. Crinkled green leaves are nearly round and turn a gorgeous soft lemon-yellow in autumn. S-PSh/M (Dec)(z6)(China)

**B. chdo125 Chaenomeles speciosa Double Take Scarlet™**  
FLOWERING QUINCE

Tube \$15.95

This breathtaking flowering quince bursts with profusions of intensely colored, bright red, double blooms throughout the spring. In addition to its beauty this plant is very undemanding, deer resistant, thornless and drought tolerant. (Dec)(z5)

**C. have080 Hamamelis vernalis**  
OZARK WITCH HAZEL

Size1 1-2' \$29

The unusual, late winter, ribbon-like golden blooms feature a red inner calyx and are deliciously fragrant; usually growing to about 6' tall and suckering to form colonies 15' wide; vibrant yellow fall color only adds to its beauty. S-PSh/M (Dec)(z5)(NA)(Fra,Cut)

**D. ceca284 Cercis Oklahoma**  
OKLAHOMA REDBUD

Size5 5-6' \$85

Masses of intensely colorful, larger than usual, magenta-purple flowers cover the bare branches in spring before the highly glossy dark-green leaves appear. S-PSh/M (Dec)(z6)(ENAm)(Hon,Bfly)

**E. besp001 Bergenia Spring Fling**  
PIGSQUEAK

Tube \$9.95

Magenta-pink blooms stand up to 2 feet tall on branched red stems. Its fall and winter foliage is a satin-like purple-black, which

makes a striking backdrop for its abundance of bright pink, spring flowers. S-PSh/M PP26337 (EG)(z4)(Cut)

**F. mane230 Mahonia nervosa**  
LONGLEAF OREGON GRAPE

Tube \$10.95 Size1 6-12" \$19

This low-spreading 2' shrub has long, deep-green leaves with many holly-like leaflets. The foliage takes on a rich reddish-bronze in the winter months. In spring, 8" stalks of bright-yellow, fragrant flowers are born. S-Sh/M (EG)(z6)(WNA)(WNA,M,B&W,Hon)

**G. aeca061 Aesculus carnea Briottii**  
RED-FLOWERED HORSECHESTNUT

Tube \$29.95 Size1 1-2' \$49

This French clone delights the eye with its large, dark, ruby-red candles which appear in 8-10" upright panicles in spring. Its luxurious branches sweep low and this tree forms a dense canopy to 30-40' tall with glorious, dark-green, crinkly leaves. S/M (Dec)(z4)(Bfly,DR)

**H. ajte100 Ajuga tenorii Princess Nadia**  
VARIEGATED BUGLEWEED

Tube \$8.95 Size1 \$12

'Princess Nadia' is an absolutely beautiful, variegated groundcover with dramatic leaves splotted in cream, green, purple, and fuchsia-burgundy pink. In spring the plant is covered with blue flower spikes which may repeat, to some degree, through summer.. S-PSh/M (EG)(z4)(Bfly,cut)

**I. pry140 Prunus yedoensis Yoshino**  
YOSHINO FLOWERING CHERRY

Tube \$29.95 Size1 1-2' \$49 Size5 5-6' \$85

These trees bear prolific and early double white to pink almond-scented flowers, the gracefully arching branches on this 20-40' tree have a pleasing open pattern and the glossy-green leaves turn brilliant yellow in fall; this is the magnificent tree that is the center of the National Cherry blossom festival in the Washington DC; perfect for Japanese or Zen gardens. S/M/GDr (Dec)(z6)(Japan)(Hon,Bon)

# SPRING FLOWERS

A

B

C

**A. chdo049 Chaenomeles speciosa**

**Double Take Peach™**  
FLOWERING QUINCE

Tube \$15.95

Spring finds this gorgeous shrub covered with masses of exquisite, fully-double deep-peach blooms. Incredibly low-maintenance these shrubs rarely needs pruning or any upkeep at all. Another huge plus to this fabulous 4-5' quince cultivar is that it is completely thornless. S/M-D PPAF (Dec)(z5)(Cut)

**B. syvu545 Syringa vulgaris Sensation**  
PICOTEE LILAC

Tube \$15.95 Size1 1-2' \$29

Each gorgeous flower of rich deep-violet is perfectly edged with white, an incredible sight when arranged in dense pyramidal clusters; the mid-season (May) blooms are sweetly-fragrant and appear profusely on an 8-15' shrub. S/M (Dec)(z4)(Ed,Fra,Cut)

**C. prse030 Prunus Amanogawa**  
JAPANESE FLOWERING CHERRY

Size5 5-6' \$85

This columnar form of this Japanese Cherry grows to 20' tall by only 4-5' wide, featuring erect branches decorated with upright clusters of fragrant, semi-double shell-pink flowers in mid-to-late spring, deep-green leaves turn bright orange and red in autumn. S/M/GDr (Dec)(z5)(B&W,Hon)

**D. prse095 Prunus serrulata Kwanzan**  
PINK FLOWERING CHERRY

Tube \$29.95 Size1 1-2' \$49 Size5 5-6' \$85

Large, deep-pink, fully-double blossoms have up to 30 petals each. Bright-green foliage is tinged with bronze when it emerges on this 20-30' vase-shaped tree. The flowers are sterile so there is no fruit to clean up. S/M/GDr (Dec)(z5)(Hon)

**E. crla038 Crataegus media (laevigata)**

**Crimson Cloud** HAWTHORN

Size5 5-6' \$85

A delightful cloud of very showy bright-red, white-centered flowers cover this fine upright oval 20-25' tree in spring. Featuring glossy,

fine-textured, bright-green foliage in summer which turns a rich lemon-yellow in autumn where it nicely contrasts with the small bright red apple-like fall fruit. S/M (Dec)(z5) (DR,Hon)

**F. keja028 Kerria japonica**

**GYPSY ROSE**

Tube \$15.95

Though it's "very easy and very pretty... it isn't as common as it deserves to be" (H. Flethcher); its green stems in winter and mounds of single bright-yellow "buttercup" flowers in spring make a pleasant sight in a difficult spot. S/M (Dec)(z5)(Japan)(Cut)

**G. risa065 Ribes sanguineum King**  
EDWARD VII

RED-FLOWERED CURRANT

Tube \$12.95 Size1 1-2' \$25

This selection features beautifully hanging and fragrant racemes of an especially deep and showy rose-red, this is a slightly more compact (4-6') shrub making it more suitable for smaller landscapes; a fantastic choice for bringing in the hummingbirds! S-PSh/M-D (Dec)(z6)(WNA)(WNa,Hon,Cut)

**H. caap051 Camellia April Remembered**  
HARDY CAMELLIA

Size1 1-2' \$49

Delicate creamy centers that gently darken out to the petal edge with rose-pink on gorgeous 4 1/2" blossoms with bright-yellow stamens. The incredibly lovely and abundant flowers bloom over a long October to May season. PSh/M (EG)(z6)

**I. mapr295 Malus Profusion**  
PURPLE-LEAVED FLOWERING CRAB

Size5 5-6' \$65

Profuse flowers drenched in violet-pink and vibrant deep-purple leaves make this 15-30' tree an incredible show in spring! The foliage matures to a lovely bronzy-green in summer before turning a warm amber color in the autumn. Edible 1/2" maroon-red fruits are good for making jelly or if left on the tree, songbirds. S/M (Dec)(z4)(Hon,B&W,Ed)

Admiration for Japanese maples has led to over 300 years of cultivation. Our nursery carries more than 100 cultivars.

**A. *acpa614* Acer palmatum Moonfire**  
MOONFIRE JAPANESE MAPLE  
Size 5 5-6' \$85

Opalescent new leaves in shades of almost black-red to bright green with bright pink veins changing to green and then gold-and-red in fall make this compact (10-12' x 4-6') Buchholz Nursery introduction a must-have treat for the border. S-PSh/M (Dec)(z6)(Bon,DR)

**B. *acpa110* Acer palmatum Grandma Ghost**  
JAPANESE MAPLE  
Tube \$29.95 Size 1 1-2' \$49

Variegated new leaves in shades of amber, cream and green with bright pink veins changing to green and then gold-and-red in fall make this compact (10-12' x 4-6') Buchholz Nursery introduction a must-have treat for the border. S-PSh/M (Dec)(z6)(Bon,DR)

**C. *acpa144* Acer palmatum Hana Matoi**  
JAPANESE MAPLE  
Tube \$29.95

This weeping, dwarf Japanese Maple is perfect for container or small gardens as it only reaches 3-8'. Featuring unique foliage; spring leaves are bright yellow, summer foliage is pink and green giving this tree a delightful variegated effect before turning orange to scarlet in autumn. S-PSh/M (Dec)(z6)

**D. *acpa080* Acer palmatum Sango kaku**  
CORAL-BARK MAPLE  
Tube \$29.95 Size 5 5-6' \$85

In addition to its bright coral-red bark, this strong upright spreading tree has foliage which changes from light-green to a brilliant long-lasting gold in fall. S-PSh/M (Dec)(z6) (Bon)

**E. *acpa675* Acer palmatum Beni komachi**  
DWARF JAPANESE MAPLE  
Tube \$29.95

This lovely 5-9' maple also has a lovely name, roughly translated to 'beautiful little

red-haired girl'. The compact, lacy, delicate and somewhat crinkled foliage emerges bright-crimson before aging to dark-green with purple-red tints. The foliage turns brilliant scarlet in the fall; this makes a charming accent, bonsai or container plant. PSh-Sh/M (Dec)(z6)(Bon)

**F. *acpa570* Acer palmatum Aka shigit. sawa**  
SAMURAI MAPLE  
Tube \$29.95

An unusual color combination: new 7-10 lobed leaves open maroon changing to green with dark veins and tones of pink and red washed over all; a slow-growing shrub, eventually to 8-12'. PSh/M (Dec)(z6)(Bon)

**G. *acpa230* Acer palmatum Lileeanne's Jewel**  
VARIEGATED JAPANESE MAPLE  
Tube \$29.95

The gorgeous little 6-12' maple has spectacular variegated foliage that will stop you in your tracks! Spring finds this jewel covered bright-pink foliage. As the season progresses, the leaves begin to show a breathtaking striping in shades of rose to claret. Finely-cut leaves that curl like a sickle; this cultivar holds its variegation well. An attention getting tree that deserves to be a focal point! PSh-M (Dec)(z6)(DR,Bon,Cont)

**H. *acpa117* Acer palmatum Shidava Gold**  
JAPANESE MAPLE  
Tube \$29.95

This very desirable 3-6' mini is lovely as bonsai, container or in a rockery with its pea-green bark, contrasting in fall with bright yellow-green leaves. S-PSh (Dec)(z6)(Bon)

**I. *acpa229* Acer palmatum Hime shojo**  
DWARF RED JAPANESE MAPLE  
Tube \$29.95

This compact, 5-10' maple has foliage that emerges a bright ruby-red in spring before maturing to rich burgundy for summer and in autumn deepening to dark-maroon. S-PSh/M (Dec)(z5)(Bon,DR,Cont)

# WESTERN NATIVES

The diverse terrains west of the Rockies offer an extensive variety of stunning, and often drought tolerant native flora.

**A. caoc155 Calycanthus occidentalis**

WESTERN SPICEBUSH

Tube \$15.95 Size1 1-2' \$29

Also known as Californian allspice for its spicily-aromatic leaves, this handsome medium-large shrub (6-12') has a dense, multi-stemmed, thicket-forming habit and unusual, showy, maroon-red flowers. S-PSh/M (Dec) (z7)(WNA<sub>m</sub>)(WNa,Fra,Cut)

**B. acma070 Acer macrophyllum**

BIGLEAF MAPLE

Size1 1-2' \$29

Named for its enormous leaves (up to 1' across!) which act like lattices, letting light through but not heat. Can reach heights of up to 160', although 50-60' is a more common. S-PSh/M-W (Dec)(z6)(WNA<sub>m</sub>)(WNa,Syrup)

**C. maaq220 Mahonia aquifolium**

OREGON GRAPE

Tube \$10.95 Size1 6-12" \$19

Bright-yellow fragrant flowers in early spring bring rich dusty-blue fruit clusters that make a wonderful jelly. Dark-green compound leaves turn bronze in winter, giving this 3-6' native four-season appeal. S-PSh/M-D (EG) (z5)(WNA<sub>m</sub>)(WNa,Ed,B&W,Fra)

**D. potr150 Populus tremuloides**

QUAKING ASPEN

Size1 1-2' \$29 Size5 5-6' \$55

Easily recognized by its delightful heart-shaped leaves on flattened stems, which flutter brightly in the slightest breeze and by its creamy-white bark which becomes chalky-white with black patches as it ages. S/M-W (Dec)(z2)(NA<sub>m</sub>)(WNa,Hon,Bas)

**E. pipu095 Picea pungens**

BLUE SPRUCE

Tube \$19.95 Size1 1-2' \$39

This specimen tree is a blue spruce from seed that has been collected from the Apache Na-

tional forest in Arizona, where the trees tend to be more blue than green. The blue-green foliage is dense on this conical beauty. S/M (EG)(z3)(SWNA<sub>m</sub>)(B&W,WNa)

**F. asfa024 Asclepias fascicularis**

NARROW-LEAVED MILKWEED

Tube \$9.95

This delicate-looking wildflower is extremely drought-tolerant, trouble-free and important for wildlife. Clusters of intricate, purplish-pink-tinted, white flowers sit on stalks above the 2-4' clumps of long, narrow, threadlike leaves. Provides nectar for butterflies and hummingbirds. S/M-D (Prn)(z5)(WNA<sub>m</sub>)(Bfly,WNa)

**G. fone030 Forestiera neomexicana**

DESERT OLIVE

Tube \$9.95 Size1 1-2' \$15

Also known as the New Mexico olive, this native is a tough, fast-growing, silvery-green deciduous shrub producing showy black fruit with a blue bloom. The fruit is very attractive to birds and it is perfect for wildlife gardening. S/M-D/GDr (Dec)(z5)(WNA<sub>m</sub>)(WNa,B&W)

**H. segi070 Sequoiadendron giganteum**

GIANT SEQUOIA

Tube \$19.95

One of the most massive trees in the world, reaching 275' tall with a trunk up to 20' wide and can live up to 3,000 years! Typically smaller in cultivation reaching heights of 40-60', this spectacular California native with its blue-green foliage and conical crown is always a majestic sight. S-PSh/M (EG)(z6)(California)(DR,WNa)

**I. rhma090 Rhododendron macrophyllum**

WESTERN RHODODENDRON

Tube \$19.95

This species is the state flower of Washington, and among the finest of PNW natives. Large pink blooms cover this alluring, evergreen shrub in May, and can only be described as spectacular. S-PSh/M/Acid (EG) (z7)(WNA<sub>m</sub>)(WNa)

# EASTERN NATIVES

The lands east of the Rockies are a patchwork of various ecoregions rich in beautiful, native plants and garden favorites.

**A. juni522 Juglans nigra**  
BLACK WALNUT

Size1 1-2' \$29

Reaching 75-100', this tree showcases deeply-furrowed bark and large compound leaves that release a strong, spicy scent when crushed. An endlessly useful tree for food, dye and timber. Black walnut trees can also be tapped like a maple for its sap. S/M (Dec) (z4)(ENAm)(B&W,Ed,ENa)

**B. ceca280 Cercis canadensis**  
EASTERN REDBUD

Tube \$15.95 Size1 1-2' \$29

This 20-30' tree grows masses of stunning, pea-like magenta flowers on bare branches in spring; followed by long-lasting brown pods in fall. Blue-green heart shaped leaves also turn pale-yellow in fall. S-PSh/M (Dec)(z5)(ENAm)(ENa,Hon,Bon)

**C. abba560 Abies balsamea** BALSAM FIR  
Tube \$19.95 Size1 6-12" \$39

A mere whiff of these fragrant, shining, dark-green needles (silvery beneath), conjures up memories. Spire-like to 50-70' with pendulous lower limbs sweeping the ground. S-PSh/M (EG)(z3)(ENAm)(Ed,B&W,Fra)

**D. rhty165 Rhus typhina**  
STAGHORN SUMAC

Tube \$15.95 Size1 2-3' \$29 Size5 4-5' \$55

A wide-spreading, irregularly branched, 15-25' shrub whose stems are covered with a dense reddish-brown down much like the velvet on a stag's horns; leaves are deep-green above and glaucous below, turning orange, yellow, and red in autumn. S/M-D (Dec)(z4)(ENAm)(ENa,B&W,Hon)

**E. cope030 Comptonia peregrina**  
SWEET FERN

Size1 1-2' \$39

The highly aromatic, fern-like foliage of this charming native gives off a wonderful spicy

scent when crushed. Growing 2-5' high and 8' wide or more forming dense colonies. In fall, the leaves turn coppery-brown and persist well into winter. S-PSh/M-D-GDr (Dec) (z3)(ENAm)(ENAm,Fra)

**F. oxar030 Oxydendrum arboreum**  
SOURWOOD

Tube \$19.95 Size1 1-2' \$39

Generally reaching 20-30' in cultivation, though it can reach as high as 60'. Grown for its late-summer, fragrant, white flower clusters which are much loved by honeybees and make the much sought-after sourwood honey. The bright-green leaves of this fine ornamental boast bright-scarlet autumn color. S-PSh/M (Dec)(z6)(ENAm)(ENa,Hon,Fra)

**G. pist427 Pinus strobus**  
EASTERN WHITE PINE

Tube \$15.95 Size1 1-2' \$29

This very tall (50-80' in cultivation and over 200' in the wild), fast-growing tree is also a popular ornamental with its soft-to-the-touch, 2-5" blue-green needles in bundles of 5. Prefers cool, humid climates and cannot tolerate air pollution. S/M-GDr (EG)(z3)(ENAm)(ENa,Bon,Bas)

**H. quco045 Quercus coccinea**  
SCARLET OAK

Tube \$19.95 Size1 2-3' \$39 Size5 5-6' \$65

One of the finest trees for autumn color when its large, deeply-lobed, glossy-green leaves turn a deep flaming scarlet. This native has an open rounded habit and reaches 50-70'; a wonderful drought tolerant and low-maintenance tree for street or shade. S/M-D (Dec)(z5)(ENAm)(ENa,B&W,Bon)

**I. tadi060 Taxodium distichum**  
BALD CYPRESS

Tube \$15.95 Size1 2-3' \$29 Size5 4-5' \$55

A pyramidal tree growing 50-70'. In autumn, it delights with its glowing copper-orange fall color. It develops characteristic knobby root growths (known as knees) in wet areas, but grows well in drier sites as well. S/M-W (Dec)(z5)(ENAm)(ENa,DR)

# FERNS

If you are looking for easy-going, ancient beauty for the shadier spots in your garden, ferns are fantastic options. Also great additions in woodland or Japanese gardens.

**G**rasses are a beautiful and easy solution for tough sites. We carry varieties that can thrive in nearly any conditions.

**A. hama028 Hakonechloa macra Aureola**  
GOLD-STRIPED FOREST GRASS  
Tube \$10.95 Size1 \$19

The bright golden-yellow leaf blades on this gracefully arching grass are decorated with emerald-green longitudinal stripes. This grass creates a beautiful low mound 18" high by 24". In autumn the leaves are brushed with crimson. PSh/M (Prn)(z5)(DR,Cont)

**B. caac044 Calamagrostis acutiflora**  
Avalanche VARIEGATED REED GRASS  
Tube \$9.95 Size1 \$15

Vividly and boldly variegated foliage with white centers edged in dark green, and silvery early summer flower plumes. (Prn)(z5)

**C. misi092 Miscanthus sinensis Little Zebra**  
DWARF ZEBRA GRASS  
Tube \$9.95 Size1 \$15

The compact, upright arching foliage of this 4' grass is decorated with bands of golden-yellow. In late summer, the blades are topped by wine-purple plumes which rise 1' above the foliage. S/M PP13008 (Prn)(z4) (Cont,DR)

**D. feid026 Festuca idahoensis Siskiyou Blue**  
BLUE IDAHO FESCUE  
Tube \$9.95

Gorgeous silvery-blue, the narrow leaves of this native selection are also taller than Festuca glauca making it look softer and more graceful, creamy flowers on 2' stalks in late spring/early summer on this easy-care clump-forming grass to 18-24". S-PSh/D (EG)(z5)(WNA)(WNa)

**E. pavi097 Panicum virgatum**  
Shenandoah SWITCH GRASS  
Tube \$9.95

The burgundy fall color on this 3-4' German introduction is unbeatable. Its brilliant color change may begin as early as July. (Prn)(z5)

**F. hama059 Hakonechloa macra Albostrata**  
STRIPED FOREST GRASS  
Tube \$10.95

Bright-green, narrow leaves are variably striped with creamy-white. This two-foot clumper also turns a pretty rose color in autumn. PSh/M (Prn)(z5)(Japan)(DR)

**G. peal021 Pennisetum alopecuroides**  
Little Bunny  
DWARF FOUNTAIN GRASS  
Tube \$9.95 Size1 \$15

One of the smallest fountain grasses available, this little cutie comes in at just 12-18" tall, its bunny-like buff colored blooms look terrific in any garden. S/M (Prn)(z5)(DR)

**H. eqhy070 Equisetum hyemale**  
ORNAMENTAL HORSETAIL  
Tube \$9.95 Size1 \$15

Once planted near homesteads to be used for scouring, these tough, hollow leafless green stems (to 3') could still be used that way (!), but also as a containerized accent near pond or patio. (EG)(z3)(ENAm)(ENa)

**I. caal084 Carex albula Frosty Curls**  
HAIR SEDGE  
Tube \$9.95 Size1 \$15

This is clump-forming grass features fine, silvery-green, leaf blades with soft curls at the tops, almost giving the impression of a waterfall when it is planted on hillsides. S-PSh/M-W (EG)(z7)(Cont)

RAMSHORN WILLOW  
Tube \$15.95

A different and very interesting cultivar of the much-loved weeping willow. With the same gracefully pendulous branches, this variety makes a beautiful 40'x40' rounded tree that grows upright before its weeping branches bend down. S/M-W (Dec)(z4) (Basketry,Hon)

**B. sasi032 Salix sitchensis**  
SITKA WILLOW

Tube \$15.95 Size1 2-3' \$29  
An interesting and very distinctive shrub, this 2-20' shrub has dark-satiny leaves; used for baskets, medicine and erosion control. S/M-W (Dec)(z6)(WNA)(WNa,Bas,Med)

**C. samt058 Salix gracilistyla Mt. Asama**  
RED-FLOWERED PUSSY WILLOW

Tube \$19.95 Size1 1-2' \$39  
This cultivar was selected by florists in Japan for its incredible dark-pink pussy willow flowers. The large blossoms age to a beautiful soft silver. Reaching 6-8' it is a stunning shrub. S/M-W (Dec)(z4)(Japan) (Cut,Bfly,Hon)

**D. sabe528 Salix bebbiana**  
DIAMOND/BEAK WILLOW

Tube \$15.95 Size1 2-3' \$29  
Native willow of the far-north (across Alaska and N. US), this 10-30' large shrub/small tree is important wildlife forage and (w/ the help of a fungus) 1 of the main producers of striking diamond-pattern willow canes. S/M-W (Dec)(z3)(NA)(AmNa,Hon)

**E. sali036 Salix Licorice Whip**  
PURPLE-STEMMED WILLOW

Tube \$15.95 Size1 2-3' \$29  
This lovely hybrid of *Salix caprea* and *Salix purpurea* kept the best of both parents,

featuring pretty purple-black stems in winter and handsome silver catkins in spring which mature to a soft pinkish-brown. The very long lasting blooms make great cut flower specimens. If coppiced annually it forms long straight rods about 6' tall; perfect for crafts such as basketry. S/M-W (Dec)(z4) (Basketry,Hon)

**F. sasa065 Salix sachalinensis Sekka**  
FANTAIL WILLOW

Tube \$15.95  
A large shrub/small tree, this vigorous ornamental willow is known for its curiously flattened, recurved stems used in floral arrangements. S/M-W (Dec)(z5)(Asia)(Cut,Hon)

**G. saal027 Salix alba Chermesina**  
RED-BARKED WILLOW

Tube \$15.95 Size1 1-2' \$29  
A remarkably showy form of this 50' columnar and elegant tree, in winter its slender tip-drooping branches are a brilliant orange-scarlet. The summer foliage is silky-haired and makes a billowy, silvery mass. This is a very lovely willow and it adds a lot of winter-time interest to the landscape. S/M-W (Dec)(z4)(Hon,Cut,Med)

**H. saba020 Salix boothii WILLOW**  
Size1 1-2' \$29

From BC south to Calif., from river bottoms to sagebrush valleys, from hot canyons to cool highlands, this 10-20' western native is adaptable. S/M-W (Dec)(z5)(WNA)(WNa)

**I. sach226 Salix chaenomeloides**  
Black Cat®

BLACK PUSSY WILLOW  
Tube \$19.95  
This is a striking, large, and unique pussy willow, perfect for cut arrangements, borders and screens. Late winter to early spring catkins emerge pink to silver, quickly becoming extra-large and black! A truly remarkable plant! S/W PP27403 (Dec)(z4) (Bfly,Cut,Hon,Bas,)

# WILLOWS

**A**

**B**

**C**

**A. saba025 Salix babylonica**

WEeping WILLOW

Tube \$15.95 Size1 2-3' \$29 Size5 5-6' \$55

The distinct and gracefully beautiful weeping willow is a spectacular sight! A sturdy trunk topped by a graceful broadly-rounded crown of branches 30-50' high with an equal spread. Narrow, finely-toothed leaves emerge bright green in early spring before maturing to a dusty-green with gray-green undersides. The fall color is a soft greenish-yellow. S-PSh/M-W (Dec)(z6)(China)(Bfly,Hon)

**B. sapu055 Salix purpurea Nana**

DWARF ARCTIC WILLOW

Size1 1-2' \$29

This lovely little willow also known as purple osier or basket willow, is a dainty 3-5' shrub featuring very narrow blue-green leaves and slender purple twigs. This is a beautiful plant for ponds edge or moist garden spot and it is wonderfully suited to basket-making. S/M-W (Dec)(z4)(Bas,Hon)

**C. sasa020 Salix sachalinensis Golden**

Sunshine GOLDEN FANTAIL WILLOW

Tube \$15.95 Size1 1-2' \$29

Bright golden foliage all season makes this compact large shrub (to 16' x 3-5'w) a dazler for border background or accent, a bit of sunshine whether or not clouds are grey. Curious flattened stems. S/M PP19370 (Dec)(z5)

**D. sabr029 Salix brachycarpa Blue Fox**

BLUE FOX WILLOW

Tube \$15.95

One of few willow survivors of pre-glacial ages, its attractive purplish twigs and hairy 1" leaves perhaps gave this 3' shrub of the northern prairies its new 'Blue Fox' name. S/M-W (Dec)(z5)(WNAAm)(Hon)

**E. sama045 Salix matsudana Golden**

Curls GOLDEN CORKSCREW WILLOW

Tube \$15.95

A golden-barked form of the corkscrew willow with its intriguing zig-zag branch

pattern, very useful in floral arrangements.

S/M-W (Dec)(z5)(Hon,Cut)

**F. saho537 Salix hookeriana Clatsop**

CLATSOP WILLOW

Tube \$15.95

A stout branching 5-20' shrub selected by the NRCS for revegetation use, its new twigs are covered with dense soft hairs and later dark green leaves which are also downy below; in spring 4" catkins are showy before the leaves. S/M-W (Dec)(z5)(WNAAm)(Hon)

**G. sach531 Salix Winter Glory**

GIANT PUSSY WILLOW

Tube \$15.95

Wonderfully large, three inch, catkins on this male hybrid (formerly *S.chaenomeloides*) open a glorious rosy-pink color before aging to pretty silver. The blooms break open from glossy red buds making delightful garden decorations and also making late-winter feel like spring is coming after all. When mature the catkins are covered in pollen, and serve as an early food source for bees. This is a vigorous shrub to 12' which allows for plenty of early cutting. S/M-W (Dec)(z6)(JAPAN)(Cut,Hon)

**H. safl035 Salix Flame FLAME WILLOW**

Tube \$15.95

Named for its orange-red bark, the branches of this dense, oval-shaped shrub (to 20') curl upward and inward; fine new variety for landscape or windbreak. S/M (Dec)(z4)(Hon)

**I. saer090 Salix eriocephala**

WILLOW

Tube \$15.95

This 10-20' native is both important in American basketry and ornamental with its 1-2" catkins (the males with dark orange anthers) appearing before the leaves in spring; British Columbia south to Virginia and Calif. S/M-W (Dec)(z5)(NAAm)(Baskets)

## Acer

*acci631* **Acer circinatum** Three Cheers™  
UPRIGHT VINE MAPLE  
Size 5 4-5' \$85

'Three Cheers' is a great name for this upright, flame-shaped vine maple. It is more tree-like than the species with uniquely narrow branch angles, and stands twice as tall as it does wide. Its dark green leaves turn vibrant shades of yellow-orange in autumn. S-Sh/M (Dec)(z5)

*acci035* **Acer circinatum** VINE MAPLE  
Tube \$15.95 Size 1 1-2' \$29 Size 5 5-6' \$55  
The most gorgeous autumn colors of all the Northwest are those displayed by this marvelous little multi-trunked shrub/tree reaching 10-25'. This tree is always with a touch of red about it: the new shoots, flowers calyx, twigs, seeds (samaras) and its blazing fall display. Usually found growing as an understory plant under much taller trees, it is extremely effective for use in the landscape as well! S-PSh/M (Dec)(z6) (WNA m)(WNA m, Bon, DR)

*acpa177* **Acer palmatum**  
Sekka Yatsubusa JAPANESE MAPLE  
Tube \$29.95

This dense 6-12' tree has leaves which open green-edged-with-rusty-orange, turning green and then a deep golden-yellow in fall. S-PSh/M (Dec)(z6)(Bon, DR)

*acta108* **Acer tataricum**  
TATARIAN MAPLE  
Tube \$19.95 Size 1 2-3' \$39 Size 5 5-6' \$65  
This interesting maple from the forests of western Asia to southeastern Europe forms a large shrub/small tree to 15-20'. Featuring very distinct foliage on older specimens, the shape of the leaves suggests *Holodiscus* not maple. A beautiful sight in autumn when the foliage turns incredible shades of chartreuse to yellow to red along with the showy abundant red samaras which are up to one inch long! S/M (Dec)(z4)(Eurasia) (Bon)

## Amelanchier

*amla010* **Amelanchier laevis**  
ALLEGHENY SERVICEBERRY  
Size 1 1-2' \$29

A rose family, eastern North American native tree/shrub, with clusters of showy, white, lightly fragrant, spring flowers. Tasty, edible fruits which resemble blueberries appear in June, and are often used in pies, jams and jellies. They are also highly attractive to birds, and small mammals. Dark green summer leaves turn gorgeous shades of orange-red in fall. An easy-going shrub, ideal for wildlife and native gardens,

shrub borders, screens and informal hedges. S-Sh/M (Dec)(z4)(ENAM)(B&W, E native, Ed, Fra)

## Arbutus

*arun098* **Arbutus unedo**  
STRAWBERRY TREE  
Tube \$15.95

Everybody asks for a plant that looks good all year, Strawberry Trees really do! A large shrub/tree 15-20' with glossy evergreen leaves tinted amber and masses of white flowers in fall which are followed by showy, edible, strawberry-like fruits. Native to Western Europe, it was planted by Thomas Jefferson in his Monticello gardens. Honeybees love the flowers, but as they impart a bitter flavor to honey beekeepers may wish to avoid this plant. S/M-D/GDr (EG)(z7) (Europe)(B&W, Fra)

## Betula

*bepel133* **Betula pendula** Youngii  
EUROPEAN WEeping BIRCH  
Size 1 1-2' \$49 Size 5 5-6' \$85

The branches of this elegant tree are slender and pendulous, forming a dwarf dome-shaped weeping tree to 10' tall and 15' wide, a gorgeous sight in autumn when its fine-textured foliage turns golden-yellow; a perfect accent for a smaller garden or special spot. S/M (Dec)(z4)(Europe)(Bfly, Bon)

## Carpinus

*caco114* **Carpinus coreana** Model  
Rocket™  
COLUMNAR KOREAN HORNBEAM  
Size 5 5-6' \$85

An attractive, sturdy and drought-tolerant Korean hornbeam selection 20' tall and 5' wide. Performs beautifully anywhere a vertical accent is wanted, a small specimen or as a street tree. Its branches are tough and stand up to ice weight very well. Small green leaves have gorgeous yellow fall color sprinkled with orange, and when they drop for dormancy, they do so without making a mess. S-PSh/M (Dec)(z6)(B&W)

## Cercis

*ceca055* **Cercis canadensis** Merlot  
PURPLE-LEAVED REDBUD  
Tube \$29.95 Size 5 5-6' \$85

This dense upright 12-15' shrub/tree is covered with clusters of early bright pink-purple flowers appearing on bare limbs. When the heart-shaped leaves do appear they are a divine glossy wine-purple! This is a perfect specimen for use in smaller landscapes or as an accent plant. Having *C. texensis* as a parent makes it heat and

drought tolerant, perfect for water-wise gardens. S/M-D/GDr PP 22297 (Dec)(z6) (Hon, Bfly)

*ceoc290* **Cercis occidentalis**  
WESTERN REDBUD  
Size 1 6-12" \$29

A western redbud in full bloom is a sight not soon forgotten! Gorgeous in spring when the bare branches are just covered with showy magenta flowers. This drought-tolerant 10-15' shrub/tree has pretty heart-shaped leaves which are blue-green in summer and become pink-red in fall. Large dark-brown pods are notable in late-summer and the winter shows off its silvery-bark and picturesque form. Used by southwest tribes for basketry, incense and food. S/M-D/GDr (Dec)(z6)(WNA m) (WNA m, Hon, B&W)

## Chamaecyparis

*chpi015* **Chamaecyparis pisifera** Baby  
Blue Ice BLUE JAPANESE CYPRESS  
Tube \$15.95

Perfect for miniature plantings or containers, this very dense, tightly conical tree (to 4 x 1' in 10 years) is formed of lovely icy-blue, slightly twisted foliage; slow growing and very attractive. S-PSh/M (EG)(z5) (Bon)

*chpi001* **Chamaecyparis pisifera** Lemon  
Thread JAPANESE FALSE CYPRESS  
Tube \$15.95 Size 1 1-2' \$29

Delightful, bright, golden-yellow foliage is almost thread-like on this very attractive broadly conical dwarf conifer, eventually reaching about 5 x 5'. The striking foliage makes this pretty conifer a knockout for rock garden, hedge, as an accent or in a large container. This shrub has excellent year round interest. S-PSh/M (EG)(z5) (Bon, Cont)

## Chimonanthus

*chni001* **Chimonanthus nitens**  
EVERGREEN WINTERSWEET  
Tube \$29.95

An ornamental and useful native to sparse Chinese mountain woodlands, this wintersweet's leaves are dried and used for tea, and the root is used medicinally. Cup-shaped, solitary, pale yellow, winter-spring flowers are delicately attractive,

and share a wonderfully sweet fragrance. Some shade is tolerated, though a sunny location, sheltered from strong winds is preferred. S-PSh/MGDr (EG)(z6)(CHINA) (Ed,Fra,Med)

## Chitalpa

*chta216 Chitalpa tashkentensis* Pink Dawn CHITALPA  
Tube \$19.95

The willowy branches and deep-green narrow-leaves on this vigorous (to 25' x 25') shrub/tree are lovely especially when adorned with masses of trumpet-shaped lavender-pink flowers featuring pale yellow throats blooming in summer. S/M-D (Dec) (z6)

## Corylus

*coco195 Corylus colurna* TURKISH FILBERT

Tube \$15.95 Size1 1-2' \$29

"A remarkable large tree of very symmetrical pyramidal form" (Hillier); striking corky corrugations of the bark, dense drought-resistant leaves, and male catkins early in spring are other notable features. S/M-D (Dec)(z4)(Eurasia)(Ed,B&W)

## Crataegus

*crau027 Crataegus Autumn Glory* AUTUMN GLORY HAWTHORN  
Size5 5-6' \$85

This charming 15-25' tree is truly glorious in autumn when it is covered with very large, glossy, bright red fruit (haws). The fruit persists into winter extending the show even after the pretty yellow-orange fall leaves drop. Lovely in spring with its abundant clusters of single snow-white flowers. This cultivar does get some thorns, but not many and it can get fireblight where that is an issue. S/M (Dec)(z5)(Hon,Bfl)

## Cupressus

*cuar025 Cupressus arizonica glabra* Chaparral ARIZONA CYPRESS  
Tube \$29.95

A favorite for an exquisite winter show, the lovely feathery foliage of this medium-sized conifer is a pale sage-green that looks wonderful planted against a dark background; growing to 20-30' tall and only 8-12' wide this is a great a heat and drought-tolerant almost-native hedge or windbreak. S/M (EG)(z5)(WNA)(WNA)

*"Have no idea where I will stick another plant but your beautiful plants lure me and I have never lost one."* (Aztec, NM)

## cuma115 Cupressus macnabiana

MACNAB'S CYPRESS

Tube \$15.95

This picturesque evergreen shrub/tree is native to the chaparral and oak or conifer woodlands of northern California in the Coast Ranges and the Sierra Nevada (with two remote stands in SW Oregon). Slowly growing to become a variable 10-40', wide-spreading specimen. This species is quite rare in cultivation; its flattened sprays of gray-green foliage are unique among Cypress and they possess a strong spicy scent when crushed. This makes a wonderful choice for the native garden or conifer collector. S/M-D/GDr (EG)(z7)(WNA)(WNA,Bon,Fra)

## Heptacodium

*hemi090 Heptacodium miconioides*

SEVEN-SONS PLANT

Tube \$19.95 Size1 1-2' \$39

Introduced to the U.S. by the Arnold Arboretum, this unusual 15-20' shrub/tree makes a welcome addition to the landscape palette with its white, fragrant, late-summer flowers which are produced at a young age and are stunning contrasting the bright-green foliage, after bloom, the striking rosy-red calyces hang on into autumn, with age it develops its fabulous rough-peeling bark that is a wonderful winter sight, especially when covered in frost; this plant was once thought to be extinct, but was happily rediscovered in its native China. S/M (Dec) (z5)(China)(Fra)

## Huodendron

*huti005 Huodendron tibeticum*

HUODENDRON

Tube \$24.95

From the forests of southern China comes this rare evergreen tree/shrub. Attractive, long, glossy leaves emerge a lovely copper color before maturing to soft-green. This Styrax relative has bright-white, star shaped flowers that hang in clusters in spring. Graceful in habit, it will slowly reach 15-30' in height. Older specimens develop a lovely deep-brown exfoliating bark. A delightful addition to the landscape! S-PSh/M (EG) (z8)(China)(Rare)

## Ilex

*ilop075 Ilex opaca* Canary

YELLOW-FRUIT AMERICAN HOLLY

Size1 1-2' \$49

For an Abundant crop (w male companion) of canary-yellow fruit, this American holly with its light green, sparsely-spined leaves should do the trick!; slowly to 10-50', pyra-

midal when young, open and picturesque later. S-PSh/M/GDr/Acid (EG)(z6)(NA)(B&W,Hon)

*ilop015 Ilex opaca* Longwood Gardens YELLOW-FRUITED HOLLY

Size1 1-2' \$49

A lovely yellow-fruited holly with an interesting history. Originally purchased by F.L. Belin from an unknown man, and planted at Longwood Gardens, by Pierre s Du Pont. Propagation since 1950's. S/M (EG)(z6) (Cut,B&W)

## Lagerstroemia

*laca565 Lagerstroemia Catawba*

PURPLE CRAPE MYRTLE

Tube \$15.95

Gorgeous, long-lasting, flower clusters of deep, amethyst-purple make a dazzling summer display on this compact, rounded 12-15' tree/shrub. Beautiful dark-green foliage is tinted red in spring and turns stunning shades of orange-red in the fall. Exfoliating cedar-colored bark adds to the overall beauty and is a nice addition to the winter garden. This fine cultivar is one the fabulous releases from the National Arboretum breeding program. S/M (Dec) (z7)(Bon)

*lady032 Lagerstroemia Dynamite*

RED CRAPE MYRTLE

Tube \$15.95

Dynamite is an appropriate name for this spectacular 10-20' tree! Crimson-red young foliage emerges in spring turning to deep, dark-green in summer. Summer also brings scarlet-red buds which open to bright, cherry-red flowers. As if that weren't enough, autumn and winter bring bright copper-orange fall leaves and showy peeling bark; definitely a wow plant! S/M PP10296 (Dec) (z7)(DR)

*lamu070 Lagerstroemia Muskogee*

LAVENDER CRAPE MYRTLE

Tube \$15.95 Size1 1-2' \$29

A wonderfully vigorous large shrub or small tree reaching 15-25' tall which produces prolific lavender-pink flowers in 4-10" long clusters in late summer. Beautiful in all seasons, the glossy green foliage turns bright red in the autumn while winter shows off the lovely exfoliating bark. This cultivar has excellent mildew resistance

and is also tolerant of pollution. This is a fabulous specimen and is also pretty in a mixed border. S/M (Dec)(z6)(Bon)

**lana071 Lagerstroemia Natchez**

WHITE CRAPE MYRTLE

Tube \$15.95 Size1 1-2' \$29

This beautiful vase-shaped 20' tree is outstanding for its terrific four-season interest. Deep dark-green foliage is the perfect foil for its masses of pure-white summer flowers. The leaves turn vibrant shades of orange to red in autumn before falling to reveal the attractive peeling cinnamon-colored bark. This is choice as specimen or massed; nice for urban gardens as it is pollution tolerant. S/M (Dec)(z6)(Bon)

## Laurus

**lasa068 Laurus Saratoga**

SARATOGA LAUREL

Tube \$19.95 Size1 1-2' \$39

With its large, glossy, fragrant foliage and striking display of abundant creamy-yellow, early spring flowers, this vigorous 20-25' x 10-15' evergreen shrub/tree is a beauty, its wonderfully dense growth make a handsome and aromatic hedge or it can be pruned into a tree form and used as a fine drought-tolerant yard or street tree. S/M-D (EG)(z8)(Fra,Ed)

**lano170 Laurus nobilis**

BAY LAUREL

Tube \$15.95

Fragrant yellow flowers in spring are followed by glossy black berries on female plants (if a male is present). A wonderful edible grown for its leathery, glossy-green, aromatic foliage (the bay leaf) and a beautiful upright evergreen shrub/tree reaching 10-30' in the landscape (it can reach 60'!). It is easily pruned for topiary or to keep its size in check; can be overwintered indoors in a large pot. Ours are unsexed seedlings. S/M (EG)(z8)(Mediterranean)(Fra,Ed)

## Notholithocarpus

**lide185 Notholithocarpus densiflorus**

echinoides SHRUB TANBARK

Tube \$15.95

A rare shrub-like form of the Tan Oak with similarly attractive leathery leaves, bluer than the species, and handsome spiny-capped 'acorns'. S/D/GDr (EG)(z7) (WNA)(WNa,B&W)

## Pinus

**pipa047 Pinus parviflora** Negishi

DWARF JAPANESE WHITE PINE

Tube \$29.95

This gorgeous dwarf pine has a lovely soft mix of colored foliage, silver, blue, and

green needles are slightly twisted to reveal their shining silver undersides. Pyramidal form to only six feet means that there is room in every garden for this treasure. A perfect specimen for Japanese gardens, large containers or as an accent; this conifer just glows in the moonlight too. S/M (EG) (z6)(Japan)(Moonlight,Container)

## Poliiothisis

**posi070 Poliiothisis sinensis**

PEARLBLOOM

Tube \$19.95 Size1 2-3' \$39

Pearlbloom perfectly describes the round pearly buds on the 6-8" panicles which open to be fragrant creamy-white flowers making their appearance on red stems in late summer to early fall, iridescent bronzy spring leaves deepen to dark-green before turning yellow in the autumn; this beautiful 20-40' tree/shrub is native to the mixed forests of eastern and central China, brought to the U.S. by E.H. Wilson in 1908 it has become an appreciated addition to the landscape. S/M (Dec)(z6)(China)(Fra)

## Prunus

**prca045 Prunus caroliniana**

CAROLINA CHERRY LAUREL

Tube \$15.95 Size1 1-2' \$29

Generally reaching 15-20' tall but may occasionally, in tree form, reach as much as 40' tall. The bark is smooth and gray to reddish brown contrasting well with the glossy-green foliage. This plant is easy-care! Transplants easily, withstands drought, heavy pruning, deer, and is tolerant of coastal conditions. Wonderful for pollinator gardens. White spring blossoms become purplish fruits which are eaten by songbirds. S/M (EG)(z7)(ENAm) (Bfly,DR,ENAm,Coastal)

## Punica

**pugr037 Punica granatum** Double

Orange

DOUBLE ORANGE POMEGRANATE

Size1 6-12" \$29

Incredible showy double orange flowers decorate this dense, spreading 8-12' shrub/tree in summer; a fruitless selection that is highly ornamental; a wonderful selection for hot dry gardens and deer don't touch it! S/M (Dec)(z8)(Bon, DR)

## Salix

**sala038 Salix lasiandra**

PACIFIC WILLOW

Tube \$15.95

Long glossy leaves subtended by large leafy stipules are distinctive features of

the vigorous growth on this large shrub/small tree. S/M-W (Dec)(z5)(WNA)(WNa,Bas,Hon)

**sala539 Salix lasiolepis** Rogue

ROGUE WILLOW

Tube \$15.95 Size1 2-3' \$29

The light olive-green young branches of this 6-35' multi-stemmed western shrub/tree are conspicuous and decorative throughout the winter; useful for wetland restoration to stabilize streambanks and provide shady fish habitat. S/M-W (Dec) (z6)(WNA)(WNa)

**sasa094 Salix matsudana** Scarlet Curls

SCARLET CURLS WILLOW

Tube \$15.95 Size5 5-6' \$55

Twisted golden branches with scarlet stems and curly green leaves make an eye-catching picture of this vigorous small tree (to 30' x 15'); the colorful effect peaks after the first frost, when the scarlet becomes most intense. S/M-W (Dec)(z5)(Hon)

## Sinowilsonia

**sihe033 Sinowilsonia henryi**

HENRY WILSON TREE

Tube \$24.95

This interesting deciduous shrub/small tree native to Central China is named to compliment the plant explorers E.H. "Chinese" Wilson and Augustine Henry, who were responsible for bringing this rare plant species out of China, and introducing it to cultivation in 1908. A member of the witch hazel family and the only species in its genus. In China it is partial to mountain stream sides, and grows as a bush-like tree. The flowers are catkin-like, similar to birch flowers. They prefer well-drained, evenly moist, rich soils, and should be grown in protected areas in cooler zones. (Dec)(z7) (CHINA)

## Thuja

**thpl015 Thuja plicata** Spring Grove®

ARBORVITAE / W. RED CEDAR

Size1 1-2' \$29 Size5 5-6' \$55

The dark, glossy green foliage of this tightly pyramidal 20-30' tree maintains excellent winter color; fast growing, cold hardy and disease-resistant... an excellent selection from Spring Grove in Ohio. S-PSh/M (EG) (z6)(Hedge)

## Clematis

*clha012* **Clematis** Happy Jack®

CLEMATIS  
Tube \$19.95

Deep purple, velvet-like 3-5in flowers bloom abundantly all summer and into fall on this stunning DGA Green Thumb Award winner. Its center highlights and bright yellow stamens contrast beautifully with the intensely purple petals. This is a very easy-going vine to grow, simply cut it back to 2ft every spring as it flowers on new and old wood. PP20343 S-PSh/M (Dec)(z5)

*clpi003* **Clematis** Pink Mink®

CLEMATIS  
Tube \$19.95

This multi-award winning, 9-10ft tall and 6ft wide Clematis was bred by horticulturalist Szczepan Marczyński PhD, and possesses all of the wonderful qualities associated with his hybrids. Profusions of vibrant pink flowers bloom continuously from early summer into early fall on new wood, and each petal is striped with a darker shade of pink down the center. Because this Clematis blooms on new wood, the plants should be pruned to about 18in, leaving at least two pairs of buds on each stem, in late winter. S-PSh/M (Dec)(z4)(B&W,Bfly,Hon)

*clsp011* **Clematis** Sparky® Purple

CLEMATIS  
Tube \$19.95

The 2 inch, violet-purple, pinwheel-like flowers on this gorgeous and easy to care for Clematis will bloom for weeks, if not months on old wood, so that means little to no pruning will be necessary. Just be sure to give it a place to climb, when planting. Clematises tend to not ask for much, but they do appreciate well-drained soil, and cooler roots which can be achieved with a thin layer of mulch. S-PSh/M (Dec)(z5) (B&W,Bfly,Hon)

*clst110* **Clematis** Still Waters®

CLEMATIS  
Tube \$19.95

This eye-catching Clematis wears long-lasting and unique late spring to late summer blooms, of icy lavender-blue with dark red stamens. S-PSh/M PP20372 (Dec)(z5)

*clvi023* **Clematis** Viva Polonia

CLEMATIS  
Tube \$19.95

'Viva Polonia' is a strikingly beautiful clematis with loads of deep pink-red petals which each adorn a white stripe radiating from the center, giving the flowers their brilliant star-like appearance. Versatile and easy to grow. Flowers bloom on old

and new wood, so just cut the vine down to 18in each spring for a dazzling summer display. PP27753 s-PSh/M (Dec)(z4)

## Hedera

*heco061* **Hedera colchica** Sulfur Heart  
PERSIAN IVY

Tube \$15.95 Size1 \$29

Wearing its hearts on its sleeve, its showy sulfur-yellow heart that is! This tough evergreen groundcover will brighten any shady corner with its large, 6" glossy leaves with their splashy variegation. A wonderful 20-30' vine for covering fences or as a groundcover; easy care and deer resistant. PSh-Sh/M (EG)(z6)(DR)

## Jasminum

*jabe027* **Jasminum beesianum**

JASMINE

Tube \$19.95 Size1 \$39

This scrambling low shrub or vine to 10' has long pointed leaves and small velvety, carmine flowers which are said to be fragrant and are followed by showy, long-lasting, shiny-black berries. S-PSh/M (Dec)(z7)(China)(Fra)

## Lonicera

*loci541* **Lonicera ciliosa**

ORANGE HONEYSUCKLE

Size1 \$29

This stunning western native vine is a deciduous, woody climber reaching as high as 20 feet. Late spring blooms are clusters of intensely orange, tubular, fragrant flowers attractive to hummingbirds, butterflies and native bees.

The flowers are followed by clusters of small red berries not exactly adored by most birds, though they do suffice for many. Leaf margins are covered in tiny hairs, giving the plant its name *L. ciliosa*. The leaves and bark were used by indigenous peoples for a variety of ailments, and fibers were used for thread and cordage. (Dec)(z4)(WESTERNNAM)

*lohe070* **Lonicera heckrottii** Goldflame

GOLDFLAME HONEYSUCKLE

Tube \$15.95

Fragrant flowers, carmine outside and yellow inside, make a handsome display from early summer till frost on this vigorous vine. S/M (Dec)(z5)(Fra,Bfly,Hon)

*loja195* **Lonicera japonica** Halliana

HALL'S HONEYSUCKLE VINE

Tube \$15.95

Deliciously fragrant, ivory-colored summer flowers make this vigorous vine delightful as a fast-growing groundcover or screen. S-PSh/M (SEG)(z4)(B&W,Bfly,Fra,Hon)

*loja200* **Lonicera japonica** Purpurea

PURPLE-LEAVED HONEYSUCKLE

Tube \$15.95

Pinkish flowers are very fragrant and complement handsome purple-tinted leaves on this vine similar to, but less rampant than, 'Halliana'. S-PSh/M (SEG)(z6)(Japan)(Fra,Cut,Bfly)

*lope225* **Lonicera periclymenum**

Scentsation

YELLOW-FLOWERED HONEYSUCKLE

Tube \$15.95

As its name suggests, 'Scentsation' may just be the most fragrant honeysuckle yet! An abundance of yellow tubular flowers bloom from spring through summer on non-invasive 10'x4' vines, and are followed by bright red berries birds can't resist. PP 16240 (Dec)(z4)

*lope076* **Lonicera periclymenum**

Sweet Sue HONEYSUCKLE VINE

Tube \$15.95

Masses of delectably fragrant creamy-white flowers which turn pale-yellow as they mature adorn this vigorous shrubby 12-18' vine from June to frost, blue-green leaves form the backdrop for the blooms which are the essence of honeysuckle and should be planted near the porch or patio where you can inhale their perfume on warm summer evenings; this vine has a lovely story too, Roy Lancaster found it growing on a beach in Sweden and named it for his wife. S/M (Dec)(z5)(Fra)

## Parthenocissus

*paqu013* **Parthenocissus quinquefolia**

Engelmannii

ENGELMAN'S VIRGINIA CREEPER

Tube \$15.95 Size1 \$29

This delightful version of the eastern United States native Virginia creeper vine features smaller leaves and a somewhat less vigorous habit. Reaching 25-40' and featuring pretty, deep-green leaves made of up five small leaflets. Inconspicuous green summer flowers become small dark-blue berries which are beautiful on the wine-colored stems. This plant is at its best in autumn when the entire vine lights up a distinct bronzy-red color. The vine attaches with suckers to grow up trellises and walls or it can be used as a groundcover.

Some pruning may be necessary to keep it in bounds. S-Psh/M (Dec)(z3)(ENAm)(B&W)

**patr095 Parthenocissus tricuspidata**

BOSTON IVY  
Tube \$15.95 Size1 \$29

One of the very best vines for clinging to stonework, this popular and beautiful vine has handsome, lustrous, 3-lobed leaves which turn brilliant scarlet-red in fall. Greenish-white inconspicuous flowers in summer ripen into showy dark blue-black fruits which persist after the leaves drop. This is the vine of those hallowed ivy-covered walls. Rapid growth to 30-50', give it some space! S/M (Dec)(z5)(Japan)(B&W)

## Schizophragma

**schy085 Schizophragma hydrangeoides**

Rose Sensation  
CLIMBING HYDRANGEA VINE  
Tube \$19.95

This showy hydrangea vine (40 to 50') with large, lovely deep-pink sepals in June and July makes a great addition to woodland settings or trained up a north facing wall. PSH/M/GDR (Dec)(z5)(Cut, Bfly)

## Trachelospermum

**trja127 Trachelospermum jasminoides**

STAR JASMINE  
Tube \$15.95 Size1 \$29

A gorgeous, woody, evergreen vine, thick with deep green, glossy foliage, which will thrive outdoors in zones 8-10. In cooler climates, it grows wonderfully in containers overwintered indoors. Its many white, star-like blooms are sweetly fragrant, so be sure to place in a spot to enjoy their spring-summer perfume. S-Psh/M (EG)(z8)(CHINAJAP)(B&W,Fra,Hon)

**trja027 Trachelospermum jasminoides**

Variegatum  
VARIEGATED STAR JASMINE  
Tube \$15.95 Size1 \$29

A very pretty plant with glossy evergreen leaves margined and splashed in cream, and often suffused with crimson in the winter. Its sweetly fragrant, pure white flowers are a delight in late spring-early summer. S-Sh/M (EG)(z8)(Bfly,Fra,Hon)

## Vitis

**vivi210 Vitis vinifera Purpurea**

CLARET VINE/TEINTURIER  
Tube \$19.95

The large (6") leaves of this offspring of a long (thousands of years!) cultivated vine (vigorous to 30') are deeply lobed, rounded and claret-red to purple (somewhat greener

on young plants), lovely with gray-leaved plants and mauve-flowers. S/M (Dec)(z6)(Europe)(Cut,Fra)

## Wisteria

**wilo078 Wisteria floribunda longis**

Kyushaku/Macrobot  
PURPLE PATCHES WISTERIA  
Tube \$29.95

"Shaku" is a Japanese measure (approx. 10")... Kyushaku means nine shakus which means that (though variable) this large vine bears some of the longest most beautiful, mauve flower clusters available... what a sight and smell! S/M (Dec)(z6)(Japan)(Fra)

**wifl022 Wisteria floribunda Anwen**

PINK JAPANESE WISTERIA  
Size1 \$49

Beautiful cascades of fragrant, pale pink racemes on counter-clockwise, twining vines. Flowers are present mid-late spring and vines can reach more than 20 feet. Full sun and well-drained, slightly acidic soil are preferred. Shade and over-fertilizing may reduce blooming. (Dec)(z6)(JAPAN)

**wifl071 Wisteria floribunda Burford**

JAPANESE BLUE WISTERIA  
Tube \$29.95 Size1 \$49

This lovely blue Wisteria was originally propagated from the beautiful vine growing at Burford House in Tenbury Wells, England. The gorgeous, fragrant, bi-color, lilac and violet-blue flowers appear in spring on enormous, drooping racemes that are up to three feet long. Dark-green compound leaves grace the long twining stems all summer. S/M (Dec)(z6)(England)(Fra)

**wifl041 Wisteria floribunda Geisha**

JAPANESE WISTERIA  
Tube \$29.95 Size1 \$49

Long narrow racemes with up to 150 soft lavender-blue flowers each cover this uniquely upright-branching form of a wonderful large vine; needs good support. (Dec)(z5)

**wifl097 Wisteria floribunda Lawrence**

LAVENDER WISTERIA  
Tube \$29.95 Size1 \$49

This is truly a spectacular wisteria with more flowers per raceme (up to 170 blooms) than any other! Beautiful, sweetly-scented, pale lavender-blue 20" pea-like flower clusters cascade over the dark-green 20-30' vines in spring. This lovely cultivar was found growing on a cottage in Ottawa,

Canada in 1970. Like all wisteria it needs a sturdy support and lots of sun. S/M (Dec)(z6)

**wifl095 Wisteria floribunda Mon Nishiki**

VARIEGATED WISTERIA  
Tube \$29.95 Size5 \$85

A striking vine splashed and streaked with cream! Our experience is that the speckled leaves have the strongest color in spring and the variegation fades with summer; spring brings the wonderfully fragrant lilac flowers that you expect with a floribunda Wisteria; an unusual treat for the garden. S/M (Dec)(z5)

**wifl051 Wisteria floribunda Violaeca**

Plena BLACK DRAGON WISTERIA  
Tube \$29.95

Magnificent sweetly-scented, double, lavender-purple blossoms hang in racemes up to 12" long from this superb 20-30' vine. The flowers on this top-notch cultivar bloom somewhat later than other wisterias, extending the flower season. Pretty, soft-green pinnate leaves turn glowing yellow in the autumn. Like all wisterias, this requires a sturdy support and full sun; a stunning vine well-worth planting! S/M (Dec)(z6)(Bfly,Fra)

**wifr039 Wisteria frutescens**

Amethyst Falls PURPLE WISTERIA  
Tube \$29.95 Size1 \$49

Vivid bluish-purple, pleasantly fragrant flowers adorn this American native in late spring and sometimes again in summer; as a *W. frutescens* it is slower growing and less aggressive with shorter plumper flower clusters. S/M (Dec)(z5)(ENAm)(Ena,Fra)

**wima067 Wisteria macrostachya**

Blue Moon HARDY WISTERIA  
Tube \$29.95 Size1 \$49 Size5 \$85

A magnificent native vine that is both very beautiful and very cold tolerant! Established vines can produce incredible abundant clusters of lovely lavender-blue pea-like flowers in racemes up to one foot long and it reblooms up to three times in a season! Less aggressive than some other Wisterias this vine will reach 15-25' and over time the vine will develop a lovely twisted trunk; full sun required for good bloom set. S/M (Dec)(z3)(ENAm)(ENa,Bfly,Fra)

**wisi073 Wisteria sinensis Prolific**

SELECT PURPLE WISTERIA  
Tube \$29.95 Size1 \$49

"A very free-flowering Dutch cultivar well worth seeking" (G.S. Thomas), try this vigorous large vine planted with early rose species in soft yellow or pink...good enough to eat!—but don't: Wisteria is poisonous. S/M/room (Dec)(z6)(Fra,Bfly)

## Acanthus

*acwh004* **Acanthus mollis** Whitewater  
VARIEGATED BEAR'S BREECH  
Tube \$15.95 Size1 \$29

Acanthus leaves (often carved into wood or stone, such as in Corinthian Pillars) are always showy, however, 'Whitewater' is even showier! This is a delightfully bold perennial with its bright splashes of white on the huge leaves making it a superb 2-3' accent with 3-5' dramatic stalks of pink and cream summer flowers; guaranteed to brighten any garden spot or large container. PSh-Sh/M PPAF (Prn)(z7)(Cont)

## Achillea

*acmi782* **Achillea millefolium**  
YARROW  
Tube \$8.95

A charming and useful perennial native to N. America, Asia and Europe, yarrow is an important food source for native bees, and has a very long history of medicinal uses. It is as beautiful as it is beneficial, standing 1-3ft tall with delicate, feathery foliage which spirals the stem. One or more compact flower clusters top the plants with yellowish-white blooms, which may occasionally be tinted pink. Bloom times range between April-early July in more southern regions, and in the north mid-July-September. S-PSh/M (Prn)(z4)(NAMEUROPE) (B&W,Bfly,Cut,NAM,Ed,)

## Agastache

*agti069* **Agapanthus** Two Times Blue  
LILY-OF-THE-NILE  
Tube \$9.95 Size1 \$15

Fully double (which means long-blooming and no seeds) and very lovely sky-blue globes of flowers decorate this compact 2' x 2' mounder summer to late summer; delightful in border or container. S-PSh/M (Prn)(z8)(Cut)

*agku041* **Agastache Kudos™** Ambrosia  
DWARF HUMMINGBIRD MINT  
Tube \$9.95 Size1 \$15

An exceptional Agastache! Soft, tropical-orange-pink color-changing flowers crown this 18" disease-resistant perennial. This wonderfully fragrant mounder blooms from June into fall. Perfect for the perennial border, pollinator garden or container! S/M/GDr PPAF (Prn)(z5)(Bfly,Fra,B&W)

*agku070* **Agastache Kudos™** Red  
RED HUMMINGBIRD MINT  
Tube \$9.95 Size1 \$15

This is a gorgeous color addition to the hummingbird mint family! Forming a low, dense one-foot mound of bright-green highly aromatic foliage and bearing erect

spikes of brilliant red plumes that are very attractive to hummingbirds and butterflies. These easy-going perennials flower from midsummer all the way until frost. Perfect for pollinator, xeric or container gardening; good drainage is a must. S/M-D-GDr PPAF (Prn)(z6)(Bfly,Hum,Cont,Fra)

## Anemone

*ancu010* **Anemone** Curtain Call Pink  
JAPANESE ANEMONE  
Tube \$9.95 Size1 \$15

This compact Japanese anemone extends the garden season gracefully with vivid rose-pink, double blooms, which are situated just above its delicate, dark green foliage. They tend to slowly spread by rhizomes, and will fill (or share) containers beautifully, while attracting pollinators such as butterflies. S-PSh/M PP30739 (Prn)(z4)(JAPAN)(Bfly,Cut)

*anhu095* **Anemone hupehensis** Fantasy™  
Pocahontas JAPANESE ANEMONE  
Tube \$9.95 Size1 \$15

Numerous frilly, bubblegum-pink summer flowers bloom beautifully on very sturdy stems. These easy-going plants are compact, vigorous, long blooming and provide that pop of color later in the season, when many other perennials have faded away. A great gift plant! PP25352 (Prn)(z5)

*anru054* **Anemone rupicola** Wild Swan™  
BICOLOR ANEMONE  
Tube \$10.95

Beautiful snow-white blooms feature an exquisite amethyst band on the petal reverse giving it an unusual bicolor effect. The blossoms nod in the morning and evening really showing off the banding, while during the day they stand up and show their pretty faces. Deep-green foliage forms clumps 2' wide making the perfect backdrop for the elegant 2' flowers. Perhaps its best attribute is that it blooms continuously from late-spring all the way until frost! This wonderful award winning perennial makes a great cut-flower is deer and salt resistant and attracts butterflies. A perfect plant for cottage gardens, borders, containers, rock gardens and more! S-PSh/M PP23,132 (Prn)(z5)(DR,Bfly,Cut,Cont)

## Aralia

*arco037* **Aralia cordata** Sun King  
GOLDEN-LEAVED ARALIA  
Tube \$15.95 Size1 \$29

This brilliant, bold, 3-6' accent for semi-shade has magnificent compound

fern-like foliage that is a beautiful, glowing luminous-gold. This is a fast growing clumper with spikes of bright-white flowers which become decorative red to purple to black fruit (much loved by birds) which add to its already bright picture. Keeps its sunny color all season unless planted in too dense of shade. PSh-Sh/M/GDr (Prn)(z4)(Japan)(DR)

## Asclepias

*asin035* **Asclepias incarnata** Ice Ballet  
SWAMP MILKWEED  
Tube \$9.95 Size1 \$15

This bright-white selection is as pretty as its name suggests and is always appreciated in the border or vase for its long-stemmed, 3-4' flowers. This choice cultivar is easy-going in nature and perfect for perennial, cutting, pollinator, rain, or native gardens. Asclepias are the only larval food for the glorious Monarch butterfly, planting Milkweed ensures a food source for these important pollinators. S/M-W (Prn)(z4)(ENAm)(ENa,Bfly,Cut)

*asin030* **Asclepias incarnata** Soulmate  
SWAMP MILKWEED  
Size1 \$15

When you really look closely at an Asclepius blossom, it is incredible how intricate they are! The beautiful, deep-rose pink flowers of this fine selection are borne in large clusters on 3' stems, perfect for cutting! This fine near-native is a real winner for rain, garden, meadow or border. Asclepias are the only larval food for the magnificent Monarch butterfly, planting Milkweed ensures a food source for these important pollinators. S/M-W (Prn)(z4)(ENAm)(ENa,Bfly,Cut)

*assp029* **Asclepias speciosa**  
SHOWY MILKWEED  
Tube \$9.95

This stunning native wildflower is wonderful for wildlife gardens! Monarch butterflies rely on it for larval food and nectar while Orioles use the dead stems for nesting materials. This pretty milkweed can be found growing along creeks or in drier situations such as meadows and roadsides. The entire 3-4' plant is densely tomentose and produces its complex pink-white flowers in late summer. This vigorous grower spreads from underground runners, a natural choice for raingardens! S/D-M-W (Prn)(z5)(WNAm)(Bfly,Hon,Cut)

*astu030* **Asclepias tuberosa**  
BUTTERFLY WEED  
Tube \$9.95 Size1 \$15

This gorgeous perennial wildflower from the open woods, glades and fields of the southeastern United States is one of the

brightest and most undemanding choices for a dry sunny garden spot. Radiant, bright-orange flowers sit atop 1-2' stalks from June to August. As a rich nectar source, the intricate blooms draw in many butterflies. Most importantly, *Asclepias* is the only larval food for the glorious Monarch butterfly; plant some in your garden, not only for the beauty but to help save our beautiful Monarchs. S/M-D/GDr (Prn)(z4) (ENAm)(ENa,Bfly,Cut)

## Baptisia

### *baau100 Baptisia australis*

BLUE FALSE INDIGO  
Tube \$10.95 Size1 \$19

One of the very best wildflowers for the garden! These easy to grow perennials from the woods, thickets and streambeds of the southeast United States feature showy racemes of intense indigo-blue pea-like flowers which rise on 4' stalks in May-June. The clover-like green-blue foliage is pretty when the plant isn't blooming and after flowering, the seed pods turn black and are quite ornamental as well (they also make fine rattles!). S/M-D (Prn)(z5)(ENAm) (ENa,Dry,Cut)

## Bergenia

### *bepi081 Bergenia* Pink Dragonfly

DWARF CORAL-PINK PIGSQUEAK  
Tube \$9.95 Size1 \$15

The narrow "dragon-fly-wing" leaves of this smaller-sized Elephant Ears are a shiny plum-red during winter and topped by unique coral-pink flowers which are a treat in the early spring garden. PSh-Sh/M (Prn) (z4)(Cut)

### *beco025 Bergenia cordifolia* Winter Glow PIGSQUEAK

Tube \$9.95 Size1 \$15

This plant is a multi-season standout with vivid ruby-red winter foliage and 10in stalks of deep rose-pink spring flowers. PSh-Sh/M (EG)(z3)(Cut)

### *bedr100 Bergenia Dragonfly™* Angel Kiss PIGSQUEAK

Tube \$9.95 Size1 \$15

An abundance of exquisitely sweet, semi-double white to light pink flowers emerge in early spring, attracting butterflies and hummingbirds. Leaves are leathery, glossy and dark green making a showy groundcover in shaded mass plantings and front borders. In zones south of 7 they typically

remain evergreen, taking on winter hues of red wine-purple. Gorgeous plants indeed! (SEG)(z4)

### *bedr082 Bergenia Dragonfly™* Sakura PIGSQUEAK

Tube \$9.95 Size1 \$15

The semi-double pink spring flowers of this compact "elephant ear" plant look like cherry blossoms (thus *sakura*); its round glossy evergreen foliage is deep-purple in winter... a stunner for the border. S-PSh/M (Prn)(z4)(Cut,DR)

## Brunnera

### *brma114 Brunnera macrophylla*

Alchemy™ Pewter SIBERIAN BUGLOSS  
Tube \$10.95 Size1 \$19

Showy, heart-shaped, low-growing, pewter colored foliage with conspicuous green veining, and dainty forget-me-not spring-time flowers. A vigorous beauty for shaded groundcovers, and containers. PSh-Sh/M (Dec)(z4)

### *brma116 Brunnera macrophylla*

Alchemy™ Silver SIBERIAN BUGLOSS  
Tube \$10.95 Size1 \$19

Small, baby blue forget-me-not, spring flowers seem to float above charming and durable heart-shaped leaves, covered almost entirely with radiant silver. A shining eye-catcher for shady areas that could use something bright. A tough little plant too, great for northern, and warm, humid southern climates. PSh-Sh/M (Dec)(z4)

### *brma003 Brunnera macrophylla*

Diane's Gold BUGLOSS

Tube \$10.95 Size1 \$19

The amazing chartreuse-gold foliage of this mini 1-2' clumper will make any shade spot shine all season, but especially in spring with its mass of sky-blue flowers; vigorous for border or container. PSh-Sh/M PPAF PVR (Prn)(z4) (DR)

### *brma049 Brunnera macrophylla*

Jack Frost SILVER-LEAF BUGLOSS

Tube \$10.95 Size1 \$19

With foliage that is completely netted in pure-silver and veined in bright-green, the leaves of this amazing groundcover are a sight to behold! This beautiful 12" mound is topped by delicately beautiful, sky-blue, forget-me-not-like flowers in spring. This delightful perennial was plant of the year in 2012 with good reason! This is a wonder-

ful choice to brighten up a shady corner or spruce up a container. PSh-Sh/M PP13859 (Prn)(z4)(Cut,DR,Cont)

### *brma018 Brunnera macrophylla*

Sea Heart SIBERIAN BUGLOSS

Size1 \$19

Unique and beautiful, the amazing and eye-catchingly variegated silver-on-green foliage of this great two foot mounding groundcover is thick and crinkled; this brightens up dark corners and thrives in shade and can also withstand heat and humidity; great in containers, borders or mass plantings! PSh/M PPAF (Prn)(z4)(Cut,DR)

### *brma052 Brunnera macrophylla*

Silver Heart SIBERIAN BUGLOSS

Tube \$10.95 Size1 \$19

Almost completely silver, the sweet, heart-shaped foliage of this 12 x 24 inch shade-brightening groundcover is also covered in fetching cobalt blue forget-me-not flowers all spring; although these plants look delicate, they are tough and hold up well in heat and humidity; perfect for container, border or fantastic planted en masse. PSh-Sh/M/GDr PPAF (Prn)(z4)(Cut,DR)

## Campanula

### *capi012 Campanula* Pink Octopus

BELLFLOWER

Tube \$9.95 Size1 \$15

Wonderful, deeply Octopus-leg divided flowers of white and deep-rose ... up to 50 at a time!... top 18" stems of deeply-cut foliage over a long summer period. S-PSh/M PPatentAF PVR (Prn)(z5)(DR)

## Centaurea

### *cera012 Centaurea ragusina* Snowy Owl

SILVER CORNFLOWER

Tube \$10.95 Size1 \$19

A highly attractive knapweed with velvety-white, sizable foliage and bright yellow thistle-like blooms. While the blooms are vibrant and beautiful, it is the velour-like foliage that really steals the show. This is a lovely perennial addition to colorful mixed containers and borders, or mass plantings in zones 9-11. Sun-loving and drought tolerant, with a penchant for well-draining soils. S/MGDr (Prn)(z9)

## Ceratostigma

### *cepl225 Ceratostigma plumbaginoides*

PLUMBAGO/INDIGO FLOWER

Tube \$10.95

This 12-18" mat-forming (spreading by rhizomes) perennial bears its lovely and most-welcome bright, cobalt-blue flowers from July to September. It also boasts pretty bronzy-red fall color; a wonderful peren-

nial to plant with spring bulbs as its foliage comes up just as they are finishing their bloom; prefers good drainage. S-PSh/M-D/GDr (Prn)(z7)(China)(Bfly)

## Coreopsis

*coru011* **Coreopsis** Ruby Frost  
RED COREOPSIS  
Tube \$9.95 Size1 \$15

Named by the readers of Birds and Blooms for its distinct and showy ruby-red petals edged which are edged with brilliant white. The large blooms rise above deep-green foliage forming a 16" mounding perennial. S/M PP21758 (Prn)(z6)(DR)

## Corydalis

*cobl077* **Corydalis** Blue Heron  
BLUE CORYDALIS  
Tube \$9.95 Size1 \$15

Large cluster of vibrant sapphire-blue flowers over dissected blue-green foliage place this 6-10" mounder a cut above the rest. Lovely in a shady garden where it will bloom spring into summer. PSh-Sh/M (Prn)(z6)(CHINA)(Fra,DR)

## Cynara

*cyca087* **Cynara cardunculus**  
CARDOON  
Tube \$15.95

Grown in Europe since medieval times for its celery-like (if WELL cooked) stem and artichoke-like flower head, this spiny 4-5 footer also offers a silver sculptural accent with showy purple flowers; can spread seed. S/M-D/GDr (Prn)(z7)(Ed)

## Dicentra

*difo143* **Dicentra formosa**  
WESTERN BLEEDING HEART  
Size1 \$15

Very similar to its eastern and better-known sister, D.eximia, with foliage so finely divided as to be ferny; showy pink "hearts" on arching stems in spring; as pretty as it is tough. S-PSh/M-D (Prn)(z6)(WNA)(WNa,Cut)

## Dichelostemma

*dico094* **Dichelostemma congestum**  
FORK TONGUED OOKOW  
Tube \$8.95

This western native may be found in open woods, meadows and grassy slopes from sea level up to 6,500 feet. Bees and but-

terflies are attracted to the bright purple inflorescences of 6-20, 1cm wide and long flowers. The edible bulbs were cooked in underground ovens and eaten, or processed and made into breads or cakes. The delightful, allium-like flowers are notable for their forked filaments and creamy-white ribs which offset the petals. (Dec)(z5)(WEST-ERNNAM)

## Echinacea

*ecfi047* **Echinacea** Firebird  
RED-ORANGE CONEFLOWER  
Tube \$10.95 Size1 \$19

Charming pollinator magnets of deep-red-orange tipped with maroon cones on 12-18" stems. Perfect for cottage gardens, patio pots, or the carefree meadow border. S/M/GDr PPAF PVR (Prn)(z4)(B&W,Bfly,Cut)

*ecpr025* **Echinacea** Prima™ Tiger  
CONEFLOWER

Tube \$10.95 Size1 \$19  
Profusions of 4in multi-colored flowers of bright golden yellow to tangerine to soft salmon, bloom for months on very compact plants at 10-16 inches tall and wide. Foliage is deep green and abundant. Growing 'Prima™ Tiger' in containers, mixed beds, borders or in mass is a wonderful way to add long-lasting charm and variety to your garden. S/M (Prn)(z4)(B&W,Bfly,Cut,Hon)

## Eriogonum

*erco043* **Eriogonum compositum**  
ARROWLEAF BUCKWHEAT  
Tube \$9.95 Size1 \$15

Also called Northern Buckwheat, this shrubby perennial is native from California up to Washington and over to Idaho. Dark-green arrow-shaped leaves which are white and fuzzy below form a branching crown that stays low to the ground creating a dense mat. Flower stems are large, flat topped, clusters of small white to yellow flowers (ours are white flowering). The early summer flowers are very important for butterflies; a wonderful plant for dry rocky soils. S/M-D-GDr (EG)(z5)(WNA)(Bfly,B&W)

*erum030* **Eriogonum umbellatum**  
SULFUR FLOWER  
Tube \$9.95 Size1 \$15

This charming wildflower is native to the rocky soils and mountain slopes of the western United States and Canada. This silvery-green perennial forms a dense 1-3' wide mat creating the perfect backdrop for the showy and fragrant flower clusters

which appear in mid-summer. The blossoms begin a clear, sulphur- yellow before aging to burnished red. This is a brilliant addition to pollinator gardens as the blossoms attract a myriad of butterflies and bees; the seeds also attract birds. S/D/GDr (Prn)(z5)(WNA)(WNa,Hon,Bfly,Fra)

## Euphorbia

*ecy006* **Euphorbia cyparissias**  
Fen's Ruby  
RED-LEAVED CYPRESS SPURGE  
Size1 \$15

This vigorous rainbow of a groundcover has foliage which opens in spring with ruby-red leaf tips which mature to gorgeous, soft shades of blue-green. The foliage creates a 1' mound of incredible feathery foliage that contrasts beautifully with other plants, especially succulents like sedum. Summer finds it topped with bright-yellow-chartreuse flower heads. This is a wonderful and extremely easy-care groundcover for sunny spots and lean soils. S/M-D (Prn)(z5)(DR,Cont)

## Geum

*gesu011* **Geum** Sunkissed Lime GEUM  
Tube \$9.95 Size1 \$15

'Sunkissed Lime' is as adorable as its name suggests, with vivid orange spring flowers standing about 4in above contrasting, and dramatic lime green, heat-tolerant foliage. S-PSh/M (Dec)(z5)

*gete055* **Geum** Tempo™ Orange  
ORANGE GEUM

Tube \$9.95 Size1 \$15  
Charming and long blooming (from April-July) with profusions of cream to peachy-orange blooms which stand 6 inches above its strawberry-like foliage. A lovely deer resistant choice for pollinator gardens, borders and mixed beds. (Dec)(z5)

*gete036* **Geum** Tempo™ Rose GEUM  
Tube \$9.95 Size1 \$15

These long-blooming butterfly magnets are semi-double, dark rose-pink flowers, sitting 21 inches above soft strawberry-like foliage. Easy to grow, deer resistant, and gorgeous! S/M (Prn)(z5)(Cut,DR)

## Gunnera

*guch030* **Gunnera chilensis** (tinctoria)  
GUNNERA  
Tube \$15.95 Size1 \$29

Dramatic (to say the least!) landscape plants for pool edge or part shade with round lobed leaves 3-6' across! "I believe

the secret for ensuring its reaching gigantic proportions... is to 'feed the brute' (E. A. Bowles). PSh/M-W (Prn)(z7)(Chile)

## Hastingsia

### haal080 Hastingsia alba

WHITE RUSHLILY

Tube \$9.95 Size1 \$15

This little lily-relative from wet-meadows is only found growing in Northern California and Southern Oregon. Beautiful 1-3' spikes of tiny white flowers rise from a grass-like tuft. The flowers fall away leaving green capsules which contain black seeds. This is a very special plant for a damp spot. S-PSh/M-W (Prn)(z7)(WNA m)(WNA m. Bfly,Hon)

## Helleborus

### hewi095 Helleborus Winter Jewels

Apricot Blush HELLEBORE

Tube \$19.95 Size1 \$39

Softly colored single petals are peachy apricot and may be freckled, flushed, edged or streaked with gorgeous deep rosy red hues, providing some of the first color as winter ends. Blooms may begin in late winter and last for months through spring, and the leathery, serrated, evergreen foliage provides color and texture year-round. PSh-Sh/M (EG)(z4)(Cut)

### hewi097 Helleborus Winter Jewels

Black Diamond HELLEBORE

Tube \$19.95 Size1 \$39

This dramatically toned Hellebore blooms in late winter-early spring with large, single, cup-shaped flowers of saturated, deep eggplant purple to charcoal black petals. They stand out beautifully as some of the first flowers of the season with their purple-maroon new foliage and deep green, highly textured, evergreen leaves. A striking plant for shady beds, borders and containers all year long. PSh-Sh/M (EG)(z4)(Cut)

### hewi099 Helleborus Winter Jewels

Picotee Pearl HELLEBORE

Tube \$19.95 Size1 \$39

A semi-double center ruffle is surrounded by pearly white nodding petals, both of which may be trimmed delicately-dramatically in pink-red-violet.

These long-lasting, cheerful flowers especially stand out against their bright evergreen foliage. Gorgeous late winter-early spring blooms to brighten shady containers and borders, and welcome the change of seasons. PSh-Sh/M (EG)(z4)(Cut)

## Hesperaloe

### hepa125 Hesperaloe parviflora

RED YUCCA

Tube \$10.95

Native to the Chihuahuan desert in west Texas and north Mexico this evergreen perennial succulent forms interesting clumps of narrow yucca-like foliage. Gorgeous deep-pink tubular flowers rise on 4-6' spikes appearing in summer in cold climates and nearly year-round in warm climates. The blooms are very attractive to hummingbirds and butterflies. These wonderfully easy-care plants can handle drought, clay, pollution rabbit and deer! These are nice when massed and also good for containers. S/D/GDr (EG)(z6)(WNA m)(ENAm,Cut)

## Heuchera

### heel033 Heuchera Electric Lime

CORAL BELLS

Tube \$9.95 Size1 \$15

Huge lime-tinted leaves (with red veins in cool weather) form a tight mound topped by densely packed white flowers in spring; H.americana ; H.villosa parentage will help with heat ; humidity. Sh/M PP21872 (EG)(z4)

### hege032 Heuchera Georgia Plum

CORAL BELLS

Tube \$9.95 Size1 \$15

A compact, year-round beauty of rose pink-purple foliage wearing a silvery-pink overlay, and pink-purple blooms from late spring, well into fall. Tough and very tolerant of heat and humidity, making this a great plant for Deep South gardens. S-Psh/M PP24507 (EG)(z4)(B&W)

### heli046 Heuchera Lime Rickey

CORAL BELLS

Tube \$9.95 Size1 \$15

Ruffled leaves emerge chartreuse for spring, and mature bright lime green through summer on vigorous clump-forming mounds. Evergreen foliage looks great year-round, and really shines in mixed containers and gardens, planted among purple foliage. Late spring-early summer, pure white flowers stand about 18in tall, and are attractive to many pollinators, and hummingbirds. A lovely and versatile cultivar in the garden, and inside the home! Psh-Sh/M PP16210 (EG)(z4)(B&W,Hon)

### heli095 Heuchera Little Cuties

Shimmer CORAL BELLS

Tube \$9.95 Size1 \$15

The deep pink 15" inflorescences on this little cutie last from spring until the first frost, standing above compact mounds of silvery,

blue-green foliage. Low maintenance and easy to grow in mixed beds, containers or even as a house plant. (EG)(z4)

### hepe042 Heuchera Peach Flambe

CORAL BELLS

Tube \$9.95 Size1 \$15

Large smooth leaves of bright peach touched by flaming red make this vigorous 12-15" mounder incredible by itself or a superb companion for yellow, blue, and orange; topped by airy white flowers. PSh-Sh/M PP17195 (Prn)(z4)(Cut)

### hesp025 Heuchera Spellbound

CORAL BELLS

Size1 \$15

Marvelous ruffled foliage of dazzling silvers with hints of rose and purple that will leave you "spellbound" (purples more prominent in spring, silvers more prevalent in shade); a sturdy 16" mound. PSh-Sh/M PPAF (Prn)(z6)(Cut)

### heam056 Heuchera americana Choc.

Ruffles CORAL BELLS

Tube \$9.95 Size1 \$15

Another Wow!...Incredibly ruffled leaves, chocolate on the top, burgundy underneath, are topped by 30" purple spikes of tiny flowers peeking through the ruffles. PSh-Sh/M PP8965 EU3954 (Prn)(z4)(Cut)

## Heucherella

### hebu001 Heucherella Buttered Rum

FOAMY BELLS

Tube \$9.95 Size1 \$15

Compact and low-growing mounds of maple-like foliage are of warm copper tones spring through summer, and early summer sprays of white flowers. With cooler temperatures, the foliage transforms into vibrant shades of brick to rose-red. PP25040 (Prn)(z4)

### hepe047 Heucherella Peach Tea

FOAMY BELLS

Tube \$9.95 Size1 \$15

An abundance of creamy-white summer flowers stand above beautifully contrasting peachy-red, fall-like foliage, on this compact and vigorous charmer. A colorful addition to containers, mass plantings and summer borders. S-PSh/M (EG)(z4)

### hepl014 Heucherella Plum Cascade

FOAMY BELLS

Tube \$9.95 Size1 \$15

Pale pink flowers stand about 12in tall summer-fall, over trailing mounds of purple-plum foliage covered with an attractive dusting of silver. A charming and showy addition to borders, mixed beds, pollinator gardens, and containers. Sh-PSh/M PP49775 (EG)(z4)(B&W)

**hesu094 Heucherella Sunrise Falls**

CORAL BELLS

Tube \$9.95 Size1 \$15

3' trailing stems of large yellow (red in fall) red-veined maple-shaped leaves are dramatic in a hanging basket or as a small groundcover, a new and wonderful use for Heucherella. S-Psh/M PPAF PVR (Prn)(z4)(Cut)

**hesw062 Heucherella Sweet Tea**

FOAMY BELLS

Tube \$9.95 Size1 \$15

Cinnamon-russet star centers are edged by orange-rose-tea. These 4" scalloped leaves are like no other, and get even more vibrant in heat and humidity. An absolutely lovely palette comes with this 20" beauty. Psh/M PP21296 (EG)(z4)

**heta126 Heucherella Tapestry**

FOAMY BELLS

Tube \$9.95 Size1 \$15

All summer long warm pink flowers stand 20in above a multicolored array of brightness and warmth, which transitions beautifully through the seasons. Spring leaves emerge somewhat bluish-green with contrasting rich, warm centers of reddish-purple. Summer foliage turns more green against its dark centers, before fall and winter bring out a blue iridescence. Psh-Sh/M PP21150 (EG)(z4)(B&W)

## Hosta

**hoha012 Hosta Hadspen Blue** HOSTA

Tube \$10.95 Size1 \$19

Charming mounds of powdery soft-looking, steel blue-gray leaves are thick, remarkably textured and cupped. Its muted tones pair beautifully with variegated and boldly colored cultivars. Summertime brings flower spikes of pale lavender trumpets which stand 4-6 inches above the foliage. Sh-Psh/M (Prn)(z4)(B&W)

**hosu011 Hosta Sunlight Sister** HOSTA

Size1 \$19

This impressive sun-tolerant gold grows to clumps of 3-4' wide x 2' high with 32" flower stems; a stable gold sister to H. 'Elata'. S-Psh/M (Prn)(z4)(Cut)

## Kniphofia

**knpa041 Kniphofia Papaya Popsicle**

ORANGE DWARF TORCH FLOWER

Tube \$9.95 Size1 \$15

Short and compact, at just 18" it is perfect for containers! This prolific bloomer produces its showy spikes of ripe-papaya-

colored flowers from early summer all the way into fall. These make a wonderful easy-care blast of color and bring in colorful hummingbirds too. S/M-D/GDr PP22915 (Prn)(z6)(Hum,Cont)

**knpi051 Kniphofia Pineapple Popsicle™**

DWARF TORCH FLOWER

Tube \$9.95 Size1 \$15

Compact (to 2' instead of 3') ; clumping AND beautiful with massive numbers of re-blooming pokers of creamy yellow over a long summer bloom period; a great blender in beds or as an upright accent. S/M-D PP22969 (Dec)(z6)(B&W,Cut)

**knre043 Kniphofia Redhot Popsicle**

TORCH FLOWER

Tube \$9.95 Size1 \$15

Short (14-20") stalks of lively, cinnamon red flowers make this dwarf but very-red hot poker a welcome hummer attractant in small yards, containers ALL season (May-Oct!)...a great improvement! S/M-D/GDr PPAF (Prn)(z6)(Hum,Cut,DR)

## Leucanthemum

**lebe068 Leucanthemum Belgian Lace**

DWARF SHASTA DAISY

Tube \$9.95 Size1 \$15

Light, butter-yellow flower buds open to beautifully lacy, yellow-centered, double, large white flowers with fringed petal tips. This lovely Shasta Daisy forms a dense, dark-green, low mat only 10" x 16" making it perfect for edging, container or mass planting. The charming flowers will bloom all summer long bringing in the butterflies! S/M PP27038 (Prn)(z5)(Hon,Cut,Bfly)

**chbr022 Leucanthemum Bridal Bouquet**

DWARF SHASTA DAISY

Tube \$9.95

This diminutive Shasta daisy features pretty, irregularly-ruffled flowers which emerge a soft-creamy yellow before turning brilliant-white with bright, golden-yellow centers.

This easy-care perennial forms a clump only 8" tall with a spread to 20" wide. The June to September flowers rise on upright stems to 12" tall over the coarsely-toothed, medium green leaves. This is the perfect choice for you if you do not like the aroma of Shasta daisies, this one is scentless. S/M PP 24260 (Prn)(z5)(Cut,DR,Cont)

**lego062 Leucanthemum Goldfinch**

GOLDEN SHASTA DAISY

Tube \$9.95 Size1 \$15

This charming Shasta daisy is the most yellow ever! Beautiful, sunny-yellow, semi-double flowers bloom from June to August. The blossoms sit on 2' stems over the 18"deep-green foliage and they very slowly and elegantly mature from bright lemon-

yellow to soft ivory-white. This perennial is so easy-care and is just perfect for massing, containers or the cutting garden. Butterflies love it too! S/M PP24499 (Prn)(z5)(Bfly,Cont,Cut)

**lemt136 Leucanthemum Mt. Hood**

SHASTA DAISY

Tube \$9.95

Profusions of large and showy double flowers with delicate white petals, and creamy yellow centers re-bloom in waves, throughout the season on splendid mounds. A naturally well-kept, long-blooming perennial perfect for charming and easily maintained containers, cut flowers, mass plantings, and borders. S/M (Dec)(z5)

**levi099 Leucanthemum Victorian Secret**

COMPACT SHASTA DAISY

Tube \$9.95 Size1 \$15

This charming, knee-high Shasta daisy features compact habit to just 14" with pretty, ruffled daisies perched just above the dark-green clump. The beautiful pure-white, wavy blooms have deep-golden centers and are odor free. These incredibly easy-care flowers seem to last and last, even in extreme heat; tolerate rabbits, deer and drought! A perfect perennial that is great for cottage, xeric and cutting gardens. S/M-D PPAF (Prn)(z5)(Cut,DR,Cont)

## Liatris

**lisp020 Liatris spicata** Kobold

DWARF PURPLE BLAZING STAR

Tube \$9.95 Size1 \$15

Spectacular plants in summer these more petite (1-2' not 3-4') but just as brilliant, bottle-brush spikes of brilliant mauve-pink flowers arise from grassy foliage. S/M (Prn)(z4)(ENAm)(ENa,Bfly,Cut)

## Lobelia

**loca043 Lobelia cardinalis** Fried Green

Tomatoes CARDINAL FLOWER

Tube \$9.95

The brilliant red flowers on sturdy 3' stalks of this eastern wildflower will draw every eye, as well as every hummer and butterfly for miles!, a great solution for a border or damp spot in sun or shade. S-Psh/M-W PPAF (Prn)(z4)(ENAm)(ENa,Hum,Bfly)

## Lysimachia

**lyci044 Lysimachia ciliata** Firecracker

FRINGED LOOSESTRIFE

Tube \$9.95 Size1 \$15

Bold four foot clumps of bronze to burgundy to chocolate colored foliage (large, but not invasive) contrast perfectly with the bright yellow star-shaped summer flowers making this almost-native firecracker a

bright spot in the mid-summer wild garden or ponds edge. S-PSh/M-W (Prn)(z5) (Wetland)

## Manfreda

*mavi103* **Manfreda virginica**

AMERICAN AGAVE  
Tube \$10.95

Also known as false aloe, this species of agave (syn. *Agave virginica*) is native to the southeastern US and parts of north-eastern Mexico. Its strap-like leaves form short basal rosettes 3-4ft wide, and may be flecked with red-purple. From the center, flowers stalks stand 3-6ft tall with up to 30 fragrant tube-shaped, yellow-green blooms. Tolerant of drought and shallow rocky soils. S/M-D (Dec)(z6)(SENAM) (ENative, Fra, Xeri)

## Monarda

*moma029* **Monarda** Marje® Purple

BEE BALM  
Tube \$9.95 Size1 \$15

A striking bee balm with large, bright purple, long-blooming flowers, and a compact habit. Fragrant and gorgeous! Expect this plant to attract lots of pollinators! S-PSh/M (Prn)(z4)(B&W, Bfly, Cut, Ed, Fra,)

## Mukgenia

*muf1004* **Mukgenia** Nova® Flame  
MUKGENIA

Tube \$10.95 Size1 \$19

An amazing combination of Mukdenia and Bergenia; beautifully dainty dark-pink spring flowers are held on sturdy stalks floating above glossy-green, leathery leaves with interesting jagged edges that form clumps 8" high and 15" wide; a wonderful groundcover or container plant. S/M (Prn)(z3)(Con)

## Nepeta

*nebl1010* **Nepeta** Blue Dragon  
LARGE-FLOWERED CATMINT  
Tube \$9.95 Size1 \$15

The flowers on this hybrid catmint are significantly larger than those of the species, and when looked at closely, resemble blue dragon heads! The extremely showy flower spikes are borne upon upright, compact plants which may reach 3ft tall by 2.5ft wide and share the wonderful fragrance of which catmint is known. S/M-D PP22334 (Prn)(z5)(B&W, Bfly, Cut, Fra, Hon)

*nepu015* **Nepeta faassenii** Purple Haze  
DWARF CATMINT

Tube \$9.95

Very soft and highly aromatic silver-green foliage forms a mat (10"t x 4'w) which is

covered in spring and summer with small lavender- blue flowers that create a purple haze in the dryland or container. S/M-D/GDr (Prn)(z6)(Fra, Hon, Bfly)

## Penstemon

*pech041* **Penstemon** Cha Cha™ Lavender  
PENSTEMON

Tube \$9.95 Size1 \$15

Lovely lavender trumpets on upright two foot stalks keep coming all summer, these very dense plants are the perfect choice for natural or cottage gardens, no pinching or staking is necessary for these easy-care beauties! S/M-GDr PP26700 (Prn)(z6) (Cut, Bfly)

*pedi059* **Penstemon digitalis** Dakota™  
Verde PENSTEMON

Tube \$9.95 Size1 \$15

A very distinctive and hardy Penstemon with unique wide, glossy leaves, and a short, compact form. Flowers begin to bloom in June, lavender-violet, and the show really picks up through the heat of July and August. Fall is a beautiful display of dark seed heads over dark purple tinted foliage. A stunning perennial for borders, mixed beds, and even steep slopes, S/M (Dec)(z3) (B&W, Cut, Hon)

*pest075* **Penstemon strictus**  
ROCKY MTN. PENSTEMON

Tube \$9.95

A tall, showy native Penstemon with fully 1/3 of its 2-3' stalk covered with 1" deep-blue flowers. S/D/GDr (Prn)(z5)(WNA) (WNa, Bfly, B&W)

## Persicaria

*pere049* **Persicaria microcephala** Red  
Dragon VARIEGATED BUCKWHEAT  
Tube \$10.95 Size1 \$19

Splendid! Concentric leaves-within-a-leaf: heart of deep purple, outlined in silver and bordered by plum-green make each leaf of this non-running! 3' arching mounder a work of art (best in cooler areas). S-PSh/M/GDr PP12062 (Prn)(z5)(Hon)

## Petasites

*peja147* **Petasites japonicus** giganteus  
JAPANESE COLTSFOOT  
Size1 \$29

The huge rounded leaves of this incredible perennial can be 2-3' across! These 4-6' clumps of 'dinosaur food' plants are perfect for dramatic plantings, but not for the

small or dry garden. Baseball-size flower buds erupt in late winter to reveal fragrant white flower clusters on tall stalks. This is cultivated in Japan as a choice edible; the stalks are cooked in soups or preserved in miso. Easily grown in moist to wet soils; this can spread very aggressively, so take care to plant it in containers or use barriers. PSh-Sh/M-W (Prn)(z6)(Japan) (Ed, Wet)

## Phlox

*phch094* **Phlox** Chattanooga  
CHATTAHOOCHEE PHLOX  
Tube \$9.95

This fine 10" hybrid has lavender-blue flowers with a maroon eye. Its parents are *P. divaricata laphamii* - a dark blue, tolerant variety of the Wild Blue Phlox and *P. pilosa* - the purple-red flowered Downy Phlox of dry woods. S-PSh/M (Prn)(z4) (ENAm)(Fra, B&W)

## Phormium

*phca095* **Phormium** Candy Stripe  
NEW ZEALAND FLAX  
Size1 1-2' \$29

The upright (vertical to 3-5') sword-like leaves of this architectural accent are enhanced by pink stripes edging grey-green leaf centers; dramatic in border or container (indoors or out). S/M-D/GDr (Prn)(z8)

## Pulmonaria

*puda025* **Pulmonaria** Dark Vader  
LUNGWORT  
Tube \$9.95 Size1 \$15

A wonderful plant admired for its foliage and flowers. Deep green attractive leaves are hairy and heavily spotted with silver, semi-fully evergreen. Funnel-shaped spring flowers are showy and reliable and range in colors between pink, purple and dark blue. Some morning sun may be tolerated, but afternoon shade is required. Leaves perform best through the season, if cut back after flowering has finished. PSh-Sh/M PP12333 (Dec)(z4)(B&W, Hon)

*pura048* **Pulmonaria** Raspberry Splash  
LUNGWORT

Tube \$9.95 Size1 \$15

Berry profuse, "Berry" lovely dusky raspberry-rose flowers early in spring herald the arrival of the distinctively variegated, upright foliage of this wonderful new form. PSh-Sh/M PP12138 (Prn)(z4)(Cut, Hon)

**push075 Pulmonaria Shrimps on the Barbie PINK LUNGWORT**

**Tube \$9.95 Size1 \$15**

This is perennial is a stunner for shady spots! Deep-green foliage is spotted with silvery-white spots making this 1' x 2' clumper stunning all season. Spring finds it adorned with masses of bright and beautiful raspberry colored blossoms. This cultivar is resistant to mildew and deer/rabbit browsing. Great for planting en masse to create a breathtaking groundcover! PSh-Sh/M (Prn)(z4)(DR,B&W,Cont)

**pusi096 Pulmonaria Silver Bouquet LUNGWORT**

**Tube \$9.95 Size1 \$15**

A fountain of intensely silver foliage, edged and splashed with lime-green makes this disease-resistant shade lover striking spring-fall, especially in early spring with pink-to-purple flowers; 20" clump to 7" tall. PSh/M/GDr (not dry) (Prn)(z5) (Cut,Hon,Hum)

**putr031 Pulmonaria Trevi Fountain LUNGWORT**

**Tube \$9.95 Size1 \$15**

The foliage of this fabulous perennial creates a fountain of long streaked and silver-spotted leaves. The one foot tall basal clump is topped by profuse clusters of large drooping clusters of cobalt-blue spring flowers. The charming combination brings to mind the famous fountain in Rome where it got its name. This cultivar has good resistance to powdery mildew. PSh-S/M PP13047 (Prn)(z4) (Cut,DR,Cont)

**Rodgersia**

**robr017 Rodgersia Bronze Peacock RODGERIA**

**Tube \$10.95 Size1 \$19**

The darkest Rodgersia yet!: the huge glossy bronze leaves of this 2' clumper emerge like a peacock's tail before the 4' flower stalks; an easy and dramatic addition for the woodland/pond garden. PSh-Sh/M-W PPAF (Prn)(z5)(DR)

**Romneya**

**roco110 Romneya coulteri MATILIJJA POPPY**

**Size1 \$29**

Exquisite, large, fragrant flowers with petals that look as if they are made of crinkled white silk surround the bright yellow sta-

mens, giving them the appearance of fried eggs. Many individual stalks with grey-green leaves rise up to form large clumps up to 8 feet tall, though it can be difficult to establish once it is happy it can spread rapidly by underground rhizomes. S/M-D-GDr (Prn)(z7)(WNA)(Fra, Hon)

**Rudbeckia**

**ruli057 Rudbeckia Little Henry DWARF BROWN-EYED SUSAN**

**Tube \$9.95 Size1 \$15**

Dwarf is relative!, in this case dwarf means a more user-friendly 3-4' with the same wonderful quilled golden flowers beloved by bouquet-makers and butterflies; a delight in border or meadow mid-summer-to-frost. S/M PPAF (Prn)(z4)(Cut,Bfly)

**rufu113 Rudbeckia fulgida Goldsturm BLACK-EYED SUSAN**

**Tube \$9.95 Size1 \$15**

One of the finest perennials available (Armitage), this compact (to 2') cone-flower freely produces its 2-3" deep-yellow, blacked-eyed flowers for a magnificent show in late summer. S/M (not dry) (Prn)(z5)(ENAm)(ENa,Bfly,Cut)

**Sambucus**

**saeb001 Sambucus ebulus EUROPEAN DWARF ELDER**

**Tube \$15.95 Size1 \$29**

One of the most well-known ancient medicinal herbs, with records dating back 5000 years in parts of Europe. An attractive perennial 3-6ft tall, typically grows with unbranched, erect stems which sprout from an extensive underground rhizome. Its white-light pink, self-fertile flowers are arranged on 4-6in corymbs July-August, and later produce glossy, black, small berries which have been used to make blue dyes and inks. S-PSh/M (Prn)(z4)(EURASIA) (B&W,Bfly,Hon,Med)

**Scabiosa**

**scvi007 Scabiosa Vivid Violet PINCUSHION FLOWER**

**Tube \$9.95 Size1 \$15**

Vivid-Violet pincushion flowers top the 18" compact, MILDEW-RESISTANT mounds of this much-improved summer favorite ALL summer and into fall; a favorite enjoyed in vase, container or butterfly garden. S/M PP19260 (Prn)(z6)(Bfly,Cut,Hon)

**Sedum**

**sesu053 Sedum SunSparkler**

**Lime Zinger STONECROP**

**Tube \$9.95 Size1 \$15**

A very hardy, low-growing and densely spreading stonecrop of small lime green leaves, edged in cherry red for much of the year. Large clusters of soft pink flowers bloom just above the foliage in late summer and last into fall. Thick mats of attractive foliage form a weed-suppressing groundcover, perfect for slopes, borders, containers and rock gardens. Evergreen in milder climates. S/M-D PP24632 (SEG)(z4) (B&W,Bfly,Hon)

**Thalictrum**

**thbl075 Thalictrum Black Stockings MEADOW RUE**

**Tube \$10.95 Size1 \$19**

Four to six foot tall incredibly unique and nearly black stems are clad in lacy, ferny, soft- green foliage. In early summer the stems are topped with large flat-topped clusters (corymbs) of fluffy lavender flowers. PSh/M (Prn)(z5)(Bfly,Cut)

**Tiarella**

**tipi002 Tiarella Pink Skyrocket**

**FOAM FLOWER**

**Tube \$9.95 Size1 \$15**

Stalks of bright-pink stars (a new and exuberant color for this unassuming woodlander) over a mound of deeply toothed and cut foliage make for a great edger or shade-brightener. PSh-Sh/M PP13382/EU13697 (Prn)(z5)(Cont)

**Triteleia**

**trhy081 Triteleia hyacinthina**

**WHITE BRODIAEA**

**Tube \$8.95**

A graceful star-burst of white lily-like flowers tops the slender 2' stem of this native bulb. Its flowers are prized by gardeners for their beauty, as well as their ability to attract pollinators. Requires wet springs and dry summers. S-PSh/D (Prn)(z6)(WNA)(B&W,Bfly,Ed,Hon,WNA)

**Viola**

**vicu091 Viola cucullata Red Giant VIOLET**

**Tube \$9.95 Size1 \$15**

Beautifully showy, the deep-rose-red-violet flowers of this 6" ground covering perennial appear mid to late spring; if it's happy you may need to control its joy. S/M (Prn)(z4)(DR)

## Acorus

*acgr137* **Acorus gramineus** Ogon  
VARIEGATED SWEET FLAG  
Size1 \$15

A good water plant with slender, grass-like, chartreuse and cream variegated foliage of tufted habit. S-PSh/M-W (EG)(z6)(Japan) (DR)

## Chusquea

*chgi001* **Chusquea gigantea**  
GIANT CHUSQUEA BAMBOO  
Tube \$29.95

An exotic clumping bamboo native to the mountains of Chile, considered to be one of the hardiest and largest in the genus, typically growing to 25 feet. In the right conditions this solid cane bamboo may reach up to 50 feet tall! It screens like running bamboo, but stays in place like clumping. Fast growing new shoots are pink-red, and sheaths may persist on culms for up to a couple of years. 10ft of spacing is recommended for screens. Does not appreciate high heat and humidity. S-Sh/M (EG)(z7) (CHILE)

## Fargesia

*famu086* **Fargesia murielae**  
UMBRELLA BAMBOO  
Tube \$29.95 Size1 1-2' \$49

Growing at over 10,000' in China (where the giant pandas relish it), this 10-15' clumper is one of the hardiest bamboos... and also a pretty one! with arching green culms forming an umbrella of fine foliage. PSh/M (EG)(z5)(Asia)(DR)

*fani086* **Fargesia nitida** Jiuzhaigou  
RED FOUNTAIN CLUMPING BAMBOO  
Tube \$29.95 Size1 1-2' \$49

This strikingly beautiful 9-12' clumping bamboo was collected in Jiuzhaigou Park in Sichuan, China. If planted where it receives sufficient morning light it will reward you in spring with intense, deep copper-red new culms which are stunning contrasted with the small green leaves. Older culms eventually turn yellow. The leaves tend to curl against heat and cold, so a protected spot is best; excellent in a container! PSh/M (EG)(z5)(China)(Cont)

*faro042* **Fargesia robusta** Green Screen™  
CLUMPING BAMBOO  
Tube \$29.95 Size1 1-2' \$49

This non-invasive bamboo was selected for its fast growth, to 15-18' perfect for hedge or screen (when grouped) or specimen, its sun and heat tolerance (to z9) and its handsome texture. S-PSh/M/GDr (EG)(z5)(DR)

*faru033* **Fargesia rufa** Green Panda™  
CLUMPING BAMBOO

Tube \$29.95 Size1 1-2' \$49  
Very cold hardy (to 15 below 0° F) and vigorous, this beautifully fountain shaped and entirely non-invasive clumper (to 8' x 8') features non-curling leaves and reddish culms making it a handsome container plant, specimen or an excellent hedge when grouped; native to W. China, its parent species is Panda food. S-Sh/M (EG)(z5) (China)(DR)

## Festuca

*feid035* **Festuca idahoensis** Tomales Bay  
IDAHO FESCUE  
Tube \$9.95

A compact bunchgrass native to the Nicasio area of Marin County CA with fine, arching blue-green leaves, and airy, 18in summer flower spikes. A great choice for small areas of groundcover, butterfly gardens, containers and rock gardens. Drought tolerant, though some summer water is appreciated. Does well in full sun in coastal areas, and light afternoon shade inland. S-PSh/M-D (EG)(z5)(CA)(B&W,Bfly)

## Hakonechloa

*hama013* **Hakonechloa macra** All Gold  
GOLDEN FOREST GRASS  
Size1 \$19

Brilliantly gold, the leaves of this spectacular Japanese selection are also more upright and spiky than the species. This luminously bright grass is a real eye-catcher whether planted in masses, in the border or in a container! Foliage is golden in sun and more chartreuse in shady locations. S-PSh/M (Prn)(z5)(Cont, DR)

## Luzula

*luni098* **Luzula nivea** Ruby Stiletto  
RUBY SNOWY WOODRUSH  
Tube \$9.95 Size1 \$15

Especially lovely planted in drifts, this is also choice as a specimen, groundcover or in a container. This 8-12" charmer from the mountains of British Columbia forms mounds of fine grassy foliage of downy-gray that is just gorgeous. This cultivar is showier still with its delightful ruby-tint in winter and spring. An exceptional plant that is so easy-care! S-PSh/M (Prn)(z5) (WNA m)

## Muhlenbergia

*muca030* **Muhlenbergia capillaris**  
MUHLY GRASS  
Tube \$9.95 Size1 \$15

Muhly grass is one of the loveliest of all of the ornamental grasses. This stunning North American native is found growing in prairies and open woodlands from Massachusetts to Texas. This grass produces an ethereal cloud of vivid pink-red flowers over a long fall season. The beautiful blooms are held on 3' stalks floating above the 2' basal clumps of fine-textured blue-green needle-like foliage. Tan colored seed heads add interest into winter. This easy-care beauty tolerates drought, black walnut and pollution making it a great choice for xeric or urban gardens. A gorgeous sight when planted en masse. S/M-D (Prn)(z6) (ENAm)(ENAm)

## Pennisetum

*peal014* **Pennisetum** Red Head  
RED FOUNTAIN GRASS  
Tube \$9.95 Size1 \$15

Earlier flowering, the deep purple buds of this handsome 3-4' grass begin to open their huge (3" x 8-10") smoky-purple bottlebrush-plumes as early as mid-to-late summer and are attractive for several months. S/M(not wet) PPAF (Prn)(z5)(DR)

## Sasa

*saku160* **Sasa kurilensis**  
HARDY KURIL-ISLAND BAMBOO  
Tube \$29.95 Size1 6-12" \$49

Thriving further north than any other bamboo, this spreader to 10' tall has attractive shiny 8" long leaves and is also the most important Sasa economically, providing shoots for food and culms for wood and pulp. S-Sh/M-W (EG)(z7)(Japan)(DR)

*sapa006* **Sasa palmata** *nebulosa*  
BAMBOO  
Tube \$29.95

The large! (to 12-15" long by 2-4" wide) leathery leaves of this 4-6' spreader make an eye-catching accent; best in containers. PSh-Sh/M (EG)(z6)(Asia)(DR)

## Sasaella

*sara066* **Sasaella ramosa**  
BAMBOO  
Tube \$29.95 Size1 6-12" \$49

Bright green, this rampant spreader for containers, groundcover (with root stopping defenses) or erosion control grows generally to only 1.5' but can get to 6'. S/M (EG)(z7)

## Almond

*prha250* **Prunus amygdalus** Hall's Hardy ALMOND  
Size 5-6' \$45

A beautiful ornamental in its own right with its masses of showy pink spring blooms and lush green foliage, it is also a useful tree producing delicious nuts. Eventually becoming a 15-20' rounded tree it bears large almonds with fine flavor (some of the complex bitter almond flavor comes through in these), fuzzy, inedible, green husks split open in September/October to reveal their hidden treasure. These trees are self-fruitful, but produce more when planted in multiples or with 'Texas'; requires 600-800 chill hours. S/M (Dec) (z7)(Ed,Hon)

## Apple

*maar263* **Malus** Arkansas Black APPLE  
Size 5-6' \$45

This is a delightful, old time apple tree that originated in Arkansas sometime around 1870. Very dark purple-red skin has yellow flesh which is crisp, firm, juicy and wonderfully sweet. A fine apple for dessert or cooking and its unique aroma adds an excellent note to cider. A late ripening variety which is an excellent keeper, though not a heavy producer. Needs a pollinator which can be almost any variety; 500-600 chill hours required. S/M (Dec)(z5)(ENAm) (Ed,Hon)

*magr336* **Malus** Granny Smith APPLE  
Size 5-6' \$45

These are the perfect sweet-tart apple with a satisfyingly crisp texture. In spring, fragrant white flowers emerge from pink buds and in autumn these 15-20' trees are loaded with numerous glossy bright-green apples which are superb for cooking and make outstanding tarts or pies, they also store very well. Discovered in Tasmania in 1868, 400-500 chill hours are required, as is a pollinizer of which there are many; Gala, Fuji, and Fameuse to name a few. S/M (Dec)(z5)(NewZealand)(Ed,Hon)

*mano330* **Malus** Northern Spy APPLE  
Size 5-6' \$45

Large, bright-green apples irregularly splashed and striped with red are tender, crisp, juicy; delicious eaten fresh and perhaps the best pie fruit ever! This late-season antique apple was developed in New York around 1800. This is a pretty 12-18' tree for the home orchard with its lovely white spring flowers. Needs a pollinizer for fruit set, Gala, Fuji and Spitzenburg are good choices; recommended chill hours: 1,000. S/M (Dec)(z4)(Ed,Hon)

*mapi005* **Malus** Pink Pearl  
PINK-FLESHED APPLE

Size 5-6' \$45  
Wonderfully unusual bright-pink flesh is hidden beneath the pretty yellow-green skin, only the pink blush giving a hint at what lies below! Delicious and juicy sweet-tart apples with crisp texture are ripe in the early fall and are good for fresh eating or for baking (and pink applesauce!). Lovely pink blooms in spring add to the interest of this beautiful small 15-20' tree; blooms relatively early, good pollinizers are Jonathon, McIntosh and Dolgo. S/M (Dec) (z4)(Ed,Hon)

*mare331* **Malus** Red Delicious APPLE  
Size 5-6' \$45

This is the most widely grown apple in the world for its juicy, aromatic, sweet-tasting and glowing-red fruit. Forget the mealy grocery store versions, fresh 'Red Delicious' apples off your own tree are an incredible treat! Produced in September to October on a 12-16' upright, spreading trees; needs a pollinizer Granny Smith or Gala among others; thin for better fruit size; 900 chill hours. S/M (Dec)(z5)(Ed,Hon)

*mamc341* **Malus** Red McIntosh APPLE  
Size 5-6' \$45

An old favorite from Canada introduced in the 1790's. This vigorous, cold hardy tree is an early season apple with dessert-quality fruit; very fragrant, flavorful, white and juicy fleshed. The apples are a beautiful glossy bright red, somewhat firm, best eaten fresh as it is not a great storage apple. This 15-20' tree sets abundant crops in late-summer. A pollinizer is required, Red Delicious and Gala are good choices; 900 chill hours. S/M (Dec)(z5)(Ed,Hon)

*masn037* **Malus** Snow Fameuse APPLE  
Size 5-6' \$45

From French seed planted Canada in the early 1700's this antique and much loved mid-season apple is crisp, aromatic and juicy. Medium sized fruit can be cream with red striping or completely red; used as a dessert or cider apple. This tree is often called the 'snow' apple for its white flesh and its affinity for cold climates and high elevations. Requires another variety for fruit set; 600 chill hours. S/M (Dec)(z4) (Ed,Hon)

## Blueberry

*vaco535* **Vaccinium corymbosum** Blue Crop MID-SEASON BLUEBERRY  
Tube \$12.95

These strong handsome plants produce excellent crops of large sweet mid-season blueberries followed by lovely fall color. S/M (not dry) Acid (Dec)(z5) (Ed,B&W,Bfly)

## Cherry

*prbi220* **Prunus avium** Bing SWEET CHERRY  
Size 5-6' \$45

One of the very best cherries with consistently large deep-red, sweet and juicy mid-season fruit that is excellent for eating fresh, freezing or canning; very vigorous trees that bear heavy crops! Pollinizers: 'Black Tartarian', 'Sam', 'Van', 'Stella' and 'Lapins'. S/M (Dec)(z5)(Ed,Hon)

*prra082* **Prunus avium** Rainier SWEET CHERRY  
Size 5-6' \$45

Such an outstanding cherry with its beautiful pale-yellow cherries blushed with red. Very firm flesh has great texture and quality with a sweet flavor which is considered to be superior to most varieties. The yellow color helps to outsmart birds since they usually go for the red cherries. Bears early in the season on a lovely 15-20' tree and the fruit is resistant to cracking. Needs a pollinator, 'Stella' and 'Montmorency' are good choices; requires 500 chill hours. S/M (Dec)(z5)

*prme040* **Prunus cerasus** Meteor HARDY DWARF TART CHERRY  
Size 5-6' \$45

Large, deliciously tart, mildly acidic, bright-red fruit ripens about a week behind 'Montmorency'. Bearing heavy loads of cherries which are just perfect for pies, jams or cider. This extra hardy cherry tree is the result of a cross between 'Montmorency' and a Russian variety. Perfect for small yards, this genetic dwarf only reaches 10-14' and is self-fertile; introduced by the University of Minnesota in 1952. S/M (Dec)(z4)(Hon,Ed,Dwarf)

## Currant

*rini062* **Ribes nigrum** Ben Nevis BLACK CURRANT  
Tube \$12.95 Size 1 \$25

Heavy clusters of tart, juicy, black berries adorn this vigorous, upright and self-fertile shrub in mid-late summer. They are a favorite fruit for preserves, wines, baking, sauces, and eating fresh. Or leave them for the birds! This plant is also adored for it

ornamental qualities. Its rich green, lobed foliage is refined and finely textured on the rounded shrubs, and it turns attractive shades of yellow in the fall. Regular watering is preferred. S-PSh/M (Dec)(z3) (B&W,Ed)

## Fig

*fibr076 Ficus Brown Turkey*

HARDY FIG

Tube \$15.95 Size1 1-2' \$29

This wonderful wide-spreading fig tree 15-25' tall and as wide that produces one to two crops of large, very sweet, mahogany-colored fruit. An exceptionally prolific bearer; this beautiful tree has attractive large lobed leaves and requires very little care. Figs are very effective specimens for creating stunning winter silhouettes. S/M (Dec)(z7)(Ed)

## Huckleberry

*vapa056 Vaccinium parvifolium*

RED HUCKLEBERRY

Tube \$15.95

This shrub is a graceful ornament of forest openings from central California to southeastern Alaska. Dainty, pale-green leaves adorn slim angled twigs on an airy 3-8' shrub. In spring small, creamy-pink urn shaped flowers decorate the branches before ripening to cheerful, tart, red berries. Red-huckleberries make a fine landscaping plant. The edible berries (which are delicious raw, dried or jellied) were an important food source of the Native Americans, they were also used as bait for fishing as they resemble salmon roe. The bark and leaves were used as a tea to treat colds. S/PSH/M/Acid (Dec)(z6)(WNA) (WNA, B&W,Ed)

## Kiwi

*acge068 Actinidia arguta Geneva*

FEMALE HARDY KIWI

Tube \$19.95

Developed at the Geneva New York Research Station for its early ripening (Sept.-Oct.) tasty and sweet honey-flavored and scented 1" fruit that cover this 20-25' vine. Needs arguta male for pollination. S-PSh/M (Dec)(z5)(Ed)

*acar072 Actinidia arguta Jumbo*

LARGE-FRUITED HARDY KIWI

Tube \$19.95

Selected in Italy, this 20-25' vine produces an abundant crop of unusually large (up to 1 ounce) sweet and tasty fruit with a smooth, greenish, edible skin in autumn, this climber generally begins producing fruit in its 3rd or 4th year; kiwi vines are

vigorous and need a strong support; this female vine requires a male for pollination. S-PSh/M (Dec)(z5)(Ed)

*acar142 Actinidia arguta*

MALE HARDY KIWI

Tube \$19.95

The fragrant, saucer-shaped, white flowers of this attractive 20-30' vine have clusters of thin stamens just covered in golden-yellow pollen. Hardy kiwi vines are male and female and the male is required to pollinate the named female arguta cultivars. One male plant can pollinate about 8 females. These lush, beautiful vines are excellent for quick cover and add a tropical feel to the landscape. S/M (Dec)(z5)(Asia)(Fra)

## Lingonberry

*vavi061 Vaccinium vitis-idaea Koralle*

LARGE-FRUITED LINGONBERRY

Tube \$12.95

Lingonberries are well known in Scandinavia, but not here which is too bad! These wonderful bright-red edible berries are somewhat like cranberries and are much loved as preserves, juice and syrup and have been long used medicinally. Lingonberries keep their pretty evergreen leaves on 12 inch clumps even in the coldest winters; they are self-fertile so you only need to plant one, but they do look wonderful when mass planted. S-PSh/M/Acid (not dry) (EG)(z2)(Germany)(Med,Hon,Ed)

*vavi022 Vaccinium vitis-idaea Red*

Candy LINGONBERRY

Size1 \$25

This highly ornamental, evergreen shrub/groundcover blooms in late spring-early summer with an abundance of pinkish-white, bell-shaped flowers. Its many blooms lead to bright red berries, larger than most typical lingonberries. They are edible, though very tart, so they are best eaten with sugar or made into jam. This petite plant is compact, vigorous and attractive in every season. Consistent moisture is necessary. S-PSh/M (EG)(z4)(B&W,Bfly,Ed,Hon)

## Nectarine

*prfa203 Prunus persica Fantasia*

NECTARINE

Size5 5-6' \$45

Prolifically bears an early summer crop of large, sweet fruit which has a wonderful red blush overlaid on bright yellow. A freestone variety, its firm, succulent flesh is excellent for both canning and fresh eating. The fruit follows magnificent, pink spring flowers which are also fragrant. This is an attractive 10-15' tree which was introduced from California in 1969. It is self-fertile and

does not require a partner tree in order to produce fruit, 600 chill hours needed. S/M/GDr (Dec)(z6)(Ed,Fra)

*prpe069 Prunus persica Flavortop*

FLAVORTOP NECTARINE

Size5 5-6' \$45

Firm and juicy with excellent flavor, the large freestone fruit of this vigorous productive tree are produced midseason following showy flowers. S/M/GDr (Dec)(z6)(Ed,Hon)

*prpe097 Prunus persica Goldmine*

WHITE-FLESHED NECTARINE

Size5 5-6' \$45

This delicious nectarine is prized for its outstanding flavor and sweet, juicy, white-fleshed, freestone fruits. A delightful 20-heirloom selection which has been in cultivation since its discovery in New Zealand in the late 1800's. Fruit is terrific straight from the tree or made into pies or preserves. This is a self-fertile tree and has a low chill hour requirement of only 400 hours. S/M (Dec)(z6)(Ed,Hon)

*prpe071 Prunus persica Hardired*

NECTARINE

Size5 5-6' \$45

Large and delicious, these sturdy, self-pollinating nectarines were developed in Ontario, Canada so you know they're hardy! Producing its delicious, semi-freestone, red-blushed nectarines with firm, juicy and sweet, yellow flesh even in colder areas. The lovely pink spring blooms make it a pretty 15-20' ornamental tree as well. This cultivar is resistant to bacterial leaf spot. S/M/GDr (Dec)(z5)(Ed,Hon)

## Olive

*oleu096 Olea europaea Mission*

FRUITING OLIVE

Tube \$15.95

A great choice for landscape use and fruit production, this lovely low-spreading picturesque tree is the perfect olive if you would like to grow-your-own; reaching 25-30' tall with pretty grey-green, willow-like foliage and small but fragrant creamy spring flowers, this cultivar was developed in California by the Spanish missions along the El Camino Real in the 18th century; ½ to 1 ½ inch olives ripen to black and have excellent flavor and a high oil content of 21.8%. S/M-D/GDr (EG)(z8)(Ed,Oil)

## Paw Paw

*astr060 Asimina triloba PAW PAW*

Tube \$19.95 Size1 1-2' \$39

This interesting, shrubby, 15-30' understory tree is native to the wooded slopes, ravines and stream edges of the southeast-

ern United States. With large deep-green drooping leaves which flutter in a breeze and turn a lovely golden-yellow in fall; 2" cup-shaped purple-red flowers become 3-5" edible 'custard banana' fruits eaten fresh or made into ice cream or pie; fruit was once used as a yellow-dye; a beautiful addition to the wild or edible garden; plant two for pollination. PSh/M (Dec)(z5)(ENAm) (ENAm,Ed,B&W)

## Peach

*prvi027 Prunus Vivid* PEACH  
Size5 5-6' \$45

Abundant harvests of beautiful bright peach colored fruit completely covered in a red blush. Freestone peaches are deliciously sweet and juicy, perfect for fresh eating and wonderful for cobbler. This cultivar has a devoted fan club who refer to it as the perfect peach! Pink spring blossoms, lush green leaves and yellow-orange fall color makes this 10-16' tree ornamental as well as delicious! Self-fertile. S/M (Dec)(z6) (Ed,Hon,B&W)

*prca201 Prunus persica Canadian Harmony* HARDY FRUITING PEACH  
Size5 5-6' \$45

This very hardy and productive freestone peach produces high quality, medium-firm fruit that is an attractive golden color with a pretty red blush over 80% of it; ripening 1-2 weeks later than Redhaven to extend your peach season; handsome pink flowers in spring make this semi-dwarf 10-16' tree highly ornamental; self-fertile, thin fruit set early in the season for best fruit size. S/M (Dec)(z5)(Ed,Hon)

## Pear

*pyba075 Pyrus communis Bartlett* FRUITING PEAR  
Size5 5-6' \$45

A classic and wonderful summer pear bearing delicious early-season yellow-green pears that have incredibly juicy white fleshed fruit which are sweet and tender; let the fruit mature on the tree, but not fully ripen or they will become gritty (let them ripen at room temperature), these are perfect for fresh eating and are a traditional canning pear. S/M (Dec)(z5)(Ed)

*pybo080 Pyrus communis Bosc* BOSC FRUITING PEAR  
Size5 5-6' \$45

Excellent when eaten fresh or used for canning, these large late-season fruits (yellow with russetting and a long neck) are tender, juicy, and sweet, and will ripen at room temperature; large upright trees. (Dec)(z5) (Ed)

*pyco052 Pyrus communis Comice* FRUITING PEAR

Size5 5-6' \$45

Considered by many to be the best winter pear (this is the variety found in fancy gift boxes), this delightful 30-40' tree can be slow to bear fruit, but when it does, the large yellow, late-season pears are buttery-sweet, tender, juicy and aromatic; do not allow them to ripen on the tree or the cores will rot, use cold storage to ripen the fruit; this tree is a garden beauty as well with its single white flowers in spring, pleasing upright form and lovely fall color; requires 500-600 chill hours. S/M (Dec) (z6)(Ed,Hon)

*pyse090 Pyrus communis Seckel* PEAR  
Size5 5-6' \$45

These unique, tiny, tear-shaped pears pack the finest pear flavor of all, so sweet they are also called 'Sugar Pears', creamy-white flesh under olive colored skins blushed with red, best eaten fresh, but are often pickled or spiced and look so pretty in the jars; the tree has an open rounded habit and only reaches 8-10', it is one of few pears that can ripen on the tree, is self-fertile and good for pollinating others. S/M (Dec)(z5)(Ed)

*pysu054 Pyrus communis Summercrisp* SUMMERCRISS PEAR

Size5 5-6' \$45

Hardy and productive, this firelight-free dwarf pear produces its sweet, red-blushed early-season fruit is great eaten crisp; most other pears will pollinate; a Univ. of Minnesota selection. S/M (Dec)(z6)(Ed)

## Pineapple Guava

*fese030 Feijoa sellowiana* PINEAPPLE GUAVA

Tube \$15.95 Size1 2-3' \$29

Edible and gorgeous! Pretty pink and white fleshy blossoms are wonderfully tasty and if you can manage not to eat them, you will be rewarded with 2-3" egg-shaped green edible fruits that taste of pineapple and mint. This South American 12-20' evergreen tree/shrub is quite ornamental with its glossy-green leaves which are silvery beneath. Can be grown indoors, two are needed for cross-pollination. S/M (EG)(z8) (SAMERICA)(Ed)

## Plum

*prsa215 Prunus salicina Santa Rosa* PLUM

Size5 5-6' \$45

Perhaps the most loved plum, luscious large reddish-purple fruit with golden flesh are firm, juicy and slightly tart perfect for fresh eating, baking, or canning; this vigorous 15-20' tree is hardy, upright and productive

with lovely white flowers in spring, self-fertile and a wonderful pollinizer for other plums, 400 chill hours recommended. S/M (Dec)(z5)(Ed,Hon,Fra)

*prsa217 Prunus salicina Satsuma* PLUM

Size5 5-6' \$45

These sweet and juicy, deep-red plums are delicious right off the tree, or they can be used for something special, like delicious desserts or plum preserves! The productive spreading 15-20' tree produces its flavorful, small-medium fruit in midseason; Beauty or Santa Rosa are good pollinators, needs 300 chill hours. S/M (Dec)(z6) (Ed,Hon,Fra)

## Raspberry

*ruje027 Rubus Jewel* BLACK RASPBERRY

Tube \$12.95

Not only the most disease resistant of the black raspberries, this jewel of a cultivar also produces large, juicy, sweet, few-seeded berries in summer to freeze or just eat... yummm! S/M (Dec)(z4)(Ed)

## Serviceberry

*amca045 Amelanchier canadensis* SHADBUSH SERVICEBERRY

Size1 1-2' \$29

This fabulous eastern native is a deciduous, early-flowering, large shrub/small tree to 20-30'. Very showy, white, 5-petaled, lightly fragrant flowers hang in drooping clusters on bare stems in early spring before the leaves emerge. In summer delicious dark purplish-black berries which somewhat resemble blueberries appear abundantly, these fruits are much loved eaten out of hand or in pies, jams and jellies. The finely toothed, medium to dark green leaves change to brilliant orange-red in autumn; a wonderful edible addition to the woodland garden. PSh/M (Dec)(z4)(ENAm)(Ed,Fra)

*rupa075 Rubus parviflorus* THIMBLEBERRY

Size1 1-2' \$19

This slowly-spreading, multi-stemmed, clump forming 4-8' non-spiny shrub makes a decorative, undemanding woodland hedge with its large, soft-green, maple-like leaves. Lovely bright-white, tissue-paper flowers in spring ripen to bright, tart, red-raspberry fruits which are good eaten fresh or in preserves. A native of western North America, from Alaska to California and over to the Great Lakes. The fruit is high in vitamin C and a tea from the roots and leaves has been used to treat dysentery. PSh-Sh/M (Dec)(z3)(WNA) (WNA,Ed,Hon)

# ORDERS AND INFORMATION

## Packing Tubes with Size1 Plants (1-Gallons)

Ordering size1/1-gal plants in increments of 4 saves on your shipping cost per plant. SOMETIMES, however, we can tape UP TO 4 tubes ONLY into an empty gallon pot, if you'd rather order 3 size1 and 4 tubes; or UP TO 6 tubes only with 2 size1/1-gal. pots. However, for the extra effort & time involved in packing & paperwork, we must charge an extra \$6 (surface) or \$10 (air) set fee for this (1 tube or 6).

## In Case Of Damage To A Box

If your box appears crushed when it arrives, mention it to the driver but **PLEASE DON'T REFUSE DELIVERY**. #1) Boxes can look like they've been run over by a truck & the plants inside can still be all right. #2) If you have it returned to us, UPS will not reimburse us, even if the damage was their fault. Instead, we'll be charged with return postage! #3) Plants really are resilient... give them a chance to recover. Just call us if your plant is seriously damaged—we Promise to make it right. Please **DO SAVE** the BOX or take a picture, however, if possible.

## Additional Shipping Information

For size5 (5-gallons) over 5', "SHIPPING SURCHARGE," denoted by an asterisk (\*) before the height of a size5 (5-gal.) plant, is added to boxes so tall that UPS charges an extra amount due to their size (see shipping pages for amounts). If possible, and you so request, we will look for a plant small enough to avoid the extra charge, OR, with your permission, we can cut the top back to fit into a smaller box...this isn't generally recommended, however.

## A Bit of "LEGALESE"

We reserve the right to refuse service to anyone...(this will likely only be in the case of nonpayment). Should payment take longer than 30 days, a service charge of 1.5% per month (18% annually) may be added to the unpaid balance. If this account is placed in the hands of an attorney or collection agency, the buyer promises and agrees to pay all reasonable attorney fees and collection costs, even though no suit or action is filed. If a suit or action is filed, it is agreed that the site of such action shall be in Josephine Co., Oregon; the amount of reasonable fees will be fixed by the court. All orders are received at Williams, OR & are interpreted according to the laws of the State of Oregon as close as we can come to our actual cost for shipping and packing...we're sorry if they seem high. One reason it's higher is because of the large size of boxes required to ship our larger-than-competitors' plants. Another reason is the weight of transporting some "soil" & water (approx 7 lbs./size1 (1-gal); 30+ lbs./size5 (5gal). We truly believe, however, that by avoiding bare-rooting, you receive a much happier, healthier plant; one that will survive and grow far better in the long run (as many customers tell us). AND, UPS rates keep going up... and up! Though we can't do a lot about that, except commiserate, we've at least tried to take the pain out of the figuring of it. All you have to do is read the chart. We've continued to use the 'per plant' charge because it seems to be fairer than using a percentage rate which penalizes purchasers of higher-priced plants. **Alaska, Hawaii, Puerto Rico: shipping AT COST...please call. Because of complicated agriculture regulations, we usually can't ship to foreign countries.**

## BOX ARRANGEMENTS

Four Size1

Three Size1  
plus four tubes

One Size5

We have boxes  
for any number  
of tubes—the  
quantity doesn't  
matter.

**DISCOUNT for large orders (10 boxes or more) ONLY** We're no longer able to offer any reduction in shipping charges for large orders, so have decided to offer you instead a 10% discount off the cost of the plants. Ten boxes may be configured in any combination of size1 (1-gallons—4 per box), size5 (5-gallons--1 per box), or tubes (25 per box). Tall plant surcharge still applies.

## Motor Freight

It is now possible to ship via Motor Freight everywhere in the country. The plants are placed on a wooden pallet, then stretch-wrapped and whisked on their way to you. Cost will be determined on an individual basis but might be less than UPS. Motor Freight saves the labor of un-boxing the plants, as well as the disposal (hopefully, recycling) of cardboard. Please call for details.

## Cancellations

Once your order is part of the shipping process (2-3 days before shipment), it is very difficult for us to stop it. If you wish to cancel it at this point, we'll really try to accommodate you, but there will be a 20% restocking charge. If the plants have already been shipped, you will be charged for the order. If you return the plants to us in sellable condition at your expense, your account will be credited, but for cost of plants only.

## Re-Routing of Boxes/Change of Destination

The shipping companies now charge us if packages need to be delivered to a destination address other than the one you have directed us to ship to; unfortunately, we will now have to charge you for each box re-routed at your request, or if you gave us a wrong address.

## Catalog

This catalog lists plants available when the catalog was printed. While some of these may sell out during this time, there will be **many new plants** appearing in the **next catalog**. Prices are changed, if required, in the computer about Aug.1 of each year, and any orders shipped after that date will be charged at the new prices (the computer is so inflexible!). We have to reserve the right to raise shipping rates when they are raised by the carriers.

Forestfarm is an important element of Pacifica: A Garden in the Siskiyou, a 501(c)(3) non-profit established in 1999. A unique 400+ acre natural reserve, Pacifica is dedicated to education and to celebration of the environment, plants, local arts, and community: past, present, and future. Located on 420 acres in southern Oregon, Pacifica's

grounds include 4 habitats and 7 miles of trails and are open free to the public as a de-facto park for hiking, birding, dog-walking, horseback riding, fishing, disc golf and as a natural classroom for children and adults. Pacifica's educational facility supports and promotes conservation, the study of plants, the environment and arts. For 20 years, we have been providing hands-on programs, including the much-loved Caterpillar (a unique mobile science-nature center), field trips and Outdoor School to budget-tight schools, hosting up to 6,000 children a year. Most of an original 1860's homestead, Pacifica also offers local history, as well as its lovely historical-register Pond House (available to rent) which overlooks a large pond and the Siskiyou Mountains. If you're ever planning to be in the area, check it out and perhaps spend several days and nights in the relaxing accommodations.

Pacifica relies on a blend of revenues from donations, grants, events and memberships. 1% of every plant purchase helps support our programs and we THANK YOU. Please consider making an additional donation, sponsoring a child for a summer camp program, or becoming a member. Donations can easily be made with the order form in this catalog or by visiting our website: [www.pacificagarden.org](http://www.pacificagarden.org) or contact us at [info@pacificagarden.org](mailto:info@pacificagarden.org). ENJOY YOUR PLANTS
